3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be

In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

The Supplier will submit payment to Sourcwell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased

Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	<p>Bobcat Company intends to market the contract through several mediums throughout North America. The following illustrates a snap shot of our marketing strategy:</p> <p>a) Primarily through information dissemination to internal, field staff, and dealer network on the value proposition of Sourcewell and cooperative purchasing, trainings, and promotions to all strategic SLED markets directly for government buyer visibility.</p> <p>b) Committed marketing staff and budget for national marketing material creation and national promotional strategies using the Bobcat® Branding guidelines alongside the Sourcewell brand.</p> <p>c) Marketing material and literature that is current/up to date with current product and promotional offerings to include Sourcewell logos and contract numbers. (See attached samples)</p> <p>d) Marketing Tactics; Print Media, Digital Media, Online Display Ads, E-Blasts, E-newsletter, and social media (see attached samples)</p> <p>e) Maintain a strong Bobcat presence at virtual and in-person tradeshows and association events such as NRPA, Park and Recreation Summit, APWA PWX, NaCO, NRECA, NY Gov Buy, NIGP, National League of Cities, CAPPO, FAPPO, NCPP, Canoe Procurement Group, Canadian Provincial Trade Associations, CPPC, and Sourcewell H2O etc.</p> <p>f) Bobcat Dealer Net for dealers to access government sales tools such as the Sourcewell Contract explanation of benefits, product offering, and who to contact with quoting or ordering questions. 37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>Bobcat Company, its marketing staff, government sales staff, dealers and individual contributors will continue to incorporate social media to include LinkedIn, Facebook, Instagram, TikTok, Snapchat, and Twitter into the overall marketing strategy to enhance the Bobcat® brand presence, market awareness, and announce effective sales tools or programs for our customers to purchase quickly, efficiently, and at a great value. Furthermore, in the aforementioned contract marketing strategy section we will utilize Digital Media, Online Display Ads, E- Blasts, E-newsletters and other digital advances to deliver our message alongside that of Sourcewell and its members. (See attached samples)</p>

38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	<p>Bobcat Company's expectation would be that Sourcewell will continue to promote the contract vendors and continue to provide avenues of approach for Bobcat Company's products to easily be procured where Sourcewell is widely accepted and into areas of new opportunity. Furthermore, we'd expect Sourcewell to continue its efforts to solve or break down the barriers to entry with procurement and the use of cooperative purchasing contracts. Finally, we'd expect Sourcewell to continue to train, mentor, and develop its members and contract vendors to further strengthen the relationships between industry, government customers, and cooperative purchasing. Finally, it is expected that Sourcewell will place a priority focus on additional state adoptions of the Medium Duty and Compact Construction Equipment Contracts since some of our competitors sell similar products on the Heavy Construction Contract. This provides a significant disadvantage in areas of adoption at the state level which ultimately impacts our contract penetration and utilization at all levels of the SLED government.</p> <p>If awarded a new contract Bobcat Company would sustain and advance the initiatives of incorporating the Sourcewell contract into its corporate and dealer trainings to create the needed mind share for our world class sales force and world class dealers to think first of Sourcewell and the power of the contract selling. Sourcewell continues to be our strongest government sales tool. Proof of our success is in our past performance. A once stumbling contract in our portfolio, our current Sourcewell contract has now blossomed into a \$50+ million contract annually and growing. Notably, Sourcewell has become our strongest and most powerful contract to solve public procurements toughest challenges. Additionally, we continue the promotion of Sourcewell in our marketing materials, trade show signage, display ads, dealer communications and E-Newsletters. (See attached samples)</p> <p>Throughout the pandemic and throughout the subsequent second and third orders of effects of the pandemic we maintained a very high training tempo with our Bobcat® field staff and dealers through virtual events and in person as allowed to continue the messaging consistent with our contract strategy. Some of the most notable: Canadian Dealers (all provinces) Summits alongside Canoe and Sourcewell, Washington State, New York, Mississippi, Nebraska, South Dakota, California, Texas, Georgia, Utah, Wisconsin, Iowa, Indiana, Michigan, Minnesota, Ohio, Pennsylvania, Tennessee, Florida, Bobcat® Boot Camp for new sales representatives, Bobcat® RPM (Regional Product Training) Meetings, 2020, 2021, 2022 Bobcat Field Marketing Meetings, 2020 ConExpo, and the 2021 Bobcat® Dealer Meeting. It is our intent to continue these training initiatives, expanding the depth and breadth of the training by adding additional value through our partnerships with Sourcewell, NCPP, Canoe, NCL, and Deltek throughout the term(s) of our Sourcewell contract(s).</p>
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	<p>Currently, Bobcat Company does sell some attachments, parts, and simple commercial use products through an e-procurement platform. Bobcat® products are not available through e-procurement for SLED and FED customers at current contract discounts or prices due to the complexity of the transactions. It is our hope that future technology and system advancement within the Bobcat® organization will lead us in the development of our government customers being able to easy order through an e-procurement method.</p>

troubleshoot issues, schedule service or improve security.

Bobcat Machine IQ, Bobcat Company's telematics service, delivers vital information about select Bobcat equipment to the equipment owner's Bobcat Owner Portal. The information is organized to help owners make decisions to increase equipment security, protect against unauthorized usage or theft, stay on top of proactive equipment maintenance, monitor operator efficiency, and better understand ownership costs associated with running Bobcat equipment. The system wirelessly transmits Machine IQ data to the owner's authorized Bobcat dealer. If a machine registers a critical code, the dealer will know and can contact the owner. This can help minimize downtime and save money.

Bobcat Owner Portal is a personalized website accessed via any internet-connected computer, phone or tablet. The platform collects machine information in real time as it reports to the owner. Owners can control which alerts they receive to proactively manage their equipment.

With Bobcat® MaxControl, you can take your machine to the next level of operation with a collection of new technologies. Operate your machine from outside the cab. Set up geofences around objects on the jobsite you want to avoid during operation. Plot points on a digital worksite as a path for your machine to follow during semi-autonomous operation.

Bobcat Operator Vision Technology:

This heads-up display puts crucial information and machine data in the operator's direct line of sight. The display is located on the cab's front window for improved operation.

Bobcat Features On Demand:

Bobcat Features On Demand technology gives equipment owners the flexibility to enable additional features to properly equip machines after purchase. This technology gives owners the freedom to customize a machine to the exact features needed at any time.

Depth Check System:

The Bobcat depth check system accurately measures depth and grade without the operator needing to exit the machine. The system helps prevent under-digging and over-digging, to reduce costs and increase efficiency. The system detects the exact position of the bucket's teeth, allowing operators to set a desired digging depth and work against that benchmark. Audible alerts indicate whether the operator is approaching the target, at the target or beyond the target.

Precision Grading Technologies:

Bobcat automatic grading solutions deliver more accurate grading results with less time and less labor – and can save on expensive finishes such as concrete. Laser-guided systems and sonic/slope systems offer accuracies better than +/- 1/4". The 3D-ready system uses GPS technology or UTS to accurately and efficiently complete complex designs with accuracy of 3 – 5 mm.

Touch Display:

The most advanced in-cab display for compact equipment provides detailed machine information and unprecedented device connectivity. Operators can easily view and toggle through machine performance information on the wide, easy-to-use touchscreen, which supports seven languages. It's waterproof and hardened to reduce scratching.

Rear Camera:

An optional rear camera is available on select Bobcat® models. It offers a rearview from the operator's seat helping identify obstacles and providing an additional viewpoint for certain applications. For machines with the touch display, it is integrated with the rearview camera, automatically switching the display to a camera view when moving in reverse.

Comfort Features:

Bobcat equipment is known for premium comfort features that help operators stay productive and focused on long days. Available features include enclosed, sealed, pressurized cabs with sound dampening features; automatic heating and air conditioning; clear visibility with more glass surface area; maximum legroom and headroom; adjustable, air-ride heated seats; easy-to-use, ergonomic controls and joysticks, radios with auxiliary audio input jacks; cupholders, storage and floor mats.

The standard integrated counterweight provides optimal lift capacity and extra protection for the machine's composite covers and cooling package.

Optional add-on rear counterweights further increase lift capacity and productivity. The counterweights follow the contours of the loader to maintain ground clearance and appearance.

Minimal Ground Disturbance and Tight Turning Radius:

Small articulated loaders feature an articulation joint for tight turning and a light overall footprint to minimize a tight-turning articulated steering and light overall footprint to minimize cuts or tears in the turf when turning or hauling a load. An articulation joint enables the rear tires to match the path of the front tires when turning, for a highly nimble machine that navigates around obstacles and works well in tight areas.

Telescopic Lift Arm:

A telescoping lift arm on select models extends your lifting height and keeps the load level as you handle materials up high.

Efficient Cooling:

With their efficient cooling systems, Bobcat® small articulated loaders offer leading performance for improved operation and component protection.

If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	The Bobcat Company pricing model will be ceiling based beginning with a specified percentage discount off manufacturers suggested list price by product or product category. (See Bobcat Company Price Pages attached) (Canadian pricing can be calculated by adding the current exchange rate and any applicable tax).
58	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Ceiling based discounts will begin at 16% off manufacturers suggested list price and may range up to 34% off manufacturers suggested list price depending on product model or product line and is dependent on corporate dealer programs, overstocked inventory, manufacturing capability, market share, and competitive benchmarking. Throughout the term of the contract, Bobcat Company may offer additional discount incentives pertinent to manufacturing pressure, discount programs, overstocked inventory, and market share opportunities. (See attached Bobcat Company Price Pages).
59	Describe any quantity or volume discounts or rebate programs that you offer.	Quantity or volume discounts are available. Ex. Purchase order transactions that contain multiple units of a product category or product model with factory installed options and attachments of quantities of 5 or more may receive a more favorable discount consideration beginning with 1% additional discount and/or freight cost reductions if available through corporate programs. Throughout the term of the contract, Bobcat Company may offer additional discount incentives pertinent to manufacturing pressures, discount programs, and market share opportunities

60	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Bobcat Company will allow for "sourced" goods/products or related services or "open market" items or "nonstandard options" to be itemized and offered on Sourcewell member quotes and orders. Such items may be offered at the dealer price plus 24%.	*
61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Additional total cost of acquisition may include items such as manufacturer freight and destination charges, applicable state and local sales tax, dealer assembly/installation charges, set up, pre-delivery inspections, document fees, finance fees, insurance costs, environmental disposal costs, material surcharges, fuel surcharges, fuel tank fill, transfer costs, freight forwarding costs, air freight costs, dealer final destination charges, training, service plans/contracts, warranty escrow, extended warranty or Protection Plus. Pre-delivery Inspection and Installation Costs are associated with the local independently owned and authorized Bobcat® dealership shop and labor rates.	*
62	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Freight costs and/or destination charges (varies by product type, size and weight) from the factory to customer delivery address will be itemized on the quote and paid by the customer, unless otherwise agreed. Depending upon product mix being delivered and end customer delivery address, there may be a combination of freight, destination charges, fuel surcharges, and dealer delivery charges. Units will be shipped from the factory to the nearest assigned dealer for pre-delivery inspection and parts/accessory installation unless unforeseen circumstances warrant a change to this procedure. The dealer will be responsible for making contact with the end customer to arrange final delivery within the appropriate delivery times determined by the customer.	*
63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	In situations where delivery is to be made to Alaska, Hawaii, remote parts of Canada, or any offshore delivery the customer will be responsible for the additional freight, air freight, sling load, barge, ferry, 3rd party freight forwarding charges, and any required insurance needed while in transit. Additional charges will be reviewed by the customer prior to order, and it is customary for Bobcat Company to work with the customer throughout the sales/delivery process meeting the desired delivery method specified by the customer.	*
64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Other than the aforementioned methods of delivery, if a unique delivery situation were to arise Bobcat Company will work closely with the customer to provide the most efficient and cost-effective methods.	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
65	d. other than what the Proposer typically offers (please describe).	<p>Pricing offered in response to this Sourcwell RFP was created in a way to capture the mindshare of Bobcat Company Executives and authorized Bobcat® independently owned enterprise Dealer Principals, in order to create the necessary buy in needed to gain additional corporate and dealer network support and resources. While it may not currently be similar or better than some pricing offered to other GPOs, Cooperative procurement organizations, or state purchasing departments this is simply due to the timing of the new RFP and potential award. Lest we forget that we remain in unprecedented times with inflation, supply chain price volatility, freight cost uncertainty, labor shortages, labor cost increases, significant backlog in certain models and product categories, all leading to continued uneasiness of executives wanting long term contracts. However, because of the ceiling-based pricing, our discount structure offered will allow for best value, better flexibility, better volume discount considerations, hot list pricing, market conditions, manufacturing pressures, and positioned to provide more competitive discounts as needed to accommodate the current economic climate, budgets, and customer situations. All other contracts in our portfolio will be adjusted as the contract terms and conditions permit or will be removed from our contract portfolio. If awarded, Sourcwell will remain to be the go-to solution in our contract portfolio and as the current economic chapter closes, we will be better positioned for growth and competitive agility.</p>

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	From inception of the contract, Sourcewell Contract specific price pages, dealer memorandum of instruction, and ordering instructions will be handled and distributed to the Bobcat® Dealers and Distributors by the Bobcat Company Government Sales Office. Pricing and discounts will be input into the Bobquote System, Customer Sales Experience quoting solution, and Contract Management System in order to comply with contract discounts and pricing for quoting consistency in accordance with the awarded contract. Pricing and discounts will be readily available for both inside sales support staff and dealers to quickly and easily access, expediting the sales process and order capture. All orders will be verified or processed by the Bobcat Government Sales Operations staff in order to maintain consistency and audit compliance. Sourcewell Contract quotes and sales orders will be documented on an internal retail report for easy access and filtering to efficiently provide sales data for auditing, quarterly reporting to Sourcewell and administrative fee remittance.
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	<ol style="list-style-type: none"> 1) Contract Quote and Sales/Retail data by product type 2) Contract Quote and Sales/Retail data by model and industry size class 3) AEM Market Share, UCC, and Industry Specific Data 4) Customer demographics: (ex. city, county, municipality, k-12, university, non-profit, state agency etc.) and location. 5) Sales Revenue Growth 6) Marketing Plan <ul style="list-style-type: none"> • Frequency and Timing • Media delivery schedule as it relates to budget cycles <p>Media Metrics – E-Blasts, E-newsletters, Online display ads, Print ads</p> <ul style="list-style-type: none"> • Impressions • Click Rates • Bounce Rates • Form Submissions
68	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Bobcat Company proposes an administrative fee structure of no more than three quarters of one percent or 0.75%. The proposed discounts offered will allow Bobcat Company to offer additional incentives to Sourcewell members to better meet the customers constrained budgets and better meet the competitive situations in markets of opportunity. Since the Canadian sales are reported in CAD rather than US Dollar, I propose the Canadian sales be reported separately and the administration fee be paid based upon the average exchange rate (FX) for the given quarter as the payment to Sourcewell from Bobcat Company is in US dollars. Sale Example: \$100,000 CAD / 1.34 (current FX) = \$74,626.87 US. Administration fee payment: \$74,626.87 x .75% = \$559.70.

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.

The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. 4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.
