## I. ABOUT SOURCEWELL

### A. SOURCEWELL

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that facilitates a competitive public solicitation and contract award process for the benefit of its 50,000+ participating entities across the United States and Canada. Sourcewell's solicitation process complies with State of Minnesota law and policies, conforms to Canadian trade agreements (including Canadian Free Trade Agreement, Ontario-Quebec Trade and Cooperation Agreement, and Canada-European Union Comprehensive Economic and Trade Agreement, as applicable), and results in cooperative purchasing solutions from which Sourcewell's Participating Entities procure equipment, products, and services.

Cooperative purchasing provides participating entities and suppliers increased administrative efficiencies and the power of combined purchasing volume that result in overall cost savings. At times, Sourcewell also partners with other purchasing cooperatives to combine the purchasing volume of their membership into a single solicitation and contract expanding the reach of contracted suppliers' potential pool of end users.

Sourcewell uses a website-based platform, the Sourcewell Procurement Portal, through which all proposals to this RFP must be submitted.

A Participating Entity may request additional terms or conditions related to a purchase. Use of Sourcewell contracts is voluntary and Participating Entities retain the right to obtain similar equipment, products, or services from other sources.

To meet Participating Entities' needs, Sourcewell broadly publishes public notice of all solicitation opportunities, including this RFP. In addition, where applicable, other purchasing cooperatives and procurement officials receive notice and are encouraged to re-post the solicitation opportunity.

Proof of publication will be available at the conclusion of the solicitation process.

## **II. SOLICITATION DETAILS**

### **A. SOLUTIONS-BASED SOLICITATION**

This RFP and contract award process is a solutions-based solicitation; meaning that Sourcewell is seeking equipment, products, or services that meet the general requirements of the scope of this RFP and that are commonly desired or are required by law or industry standards.

## B. REQUESTED EQUIPMENT, PRODUCTS, OR SERVICES

It is expected that proposers will offer a wide array of equipment, products, or services at lower prices and with better value than what they would ordinarily offer to a single government entity, a school district, or a regional cooperative.

1. Sourcewell is seeking proposals for Private Wireless Services with Related Solutions, including, but not limited to:
  - a. Private Wireless Services, which may include commercial and/or privately held spectrum, such as:
    - i. Assessment and strategy;
    - ii. Network design, migration, and deployment, including network configuration and Spectrum Access System (SAS) registration;
    - iii. Acquisition and installation of needed equipment to support the private wireless network; and
    - iv. Ongoing operations, maintenance, planning, expansion, and upgrading of the private wireless network and related components.
  - b. Related network component solutions to the extent that they are complementary to the offering of solutions in RFP Section II.B.1.a., such as private wireless network (PWN) cores, SIMs, radio access networks (RANs), gateways, end user devices (EUDs), network management tools, and products.

The primary focus of this solicitation is on Private Wireless Services with Related Solutions. This solicitation should NOT be construed to include distributed antenna system-only solutions or public network<sup>2</sup> wireless voice and data services only.

2. This solicitation does not include those equipment, products, or services covered under categories included in contracts currently maintained by Sourcewell:
  - a. Wireless Voice and Data Services with Related Solutions, Equipment, and Accessories (RFP #080119) with the exception of the types of solutions described in RFP Section II.B. 1.a. above.

Proposers may offer optional access to public networks and/or other alternative backhaul for redundancy and reliability to the extent that they are complementary to the offering of solutions in RFP Section II. B. 1.

Generally, the solutions for Participating Entities are turn-key solutions, providing a combination of equipment, products and services, delivery, and installation to a properly operating status. However, equipment-only or products-only solutions may be appropriate for

<sup>2</sup> "Public Network" is a commercial wireless network owned and operated by a mobile network operator through which wireless services are available on a lease and/or subscription basis.

situations where Participating Entities possess the ability, either in-house or through local third-party contractors, to properly install and bring to operation the equipment or products being proposed.

Sourcewell prefers suppliers that provide a sole source of responsibility for the equipment, products, and services provided under a resulting contract. If proposer is including the equipment, products, and services of its subsidiary entities, the proposer must also identify all included subsidiaries in its proposal. If proposer requires the use of distributors, dealers, resellers, or subcontractors to provide the equipment, products, or services, the proposal must address how the equipment, products or services will be provided to Participating Entities, and describe the network of distributors, dealers, resellers, and/or subcontractors that will be available to serve Participating Entities under a resulting contract.

Sourcewell encourages suppliers to offer the broadest possible selection of equipment, products, and services being proposed over the largest possible geographic area and to the largest possible cross-section of Sourcewell current and future Participating Entities.

#### C. REQUIREMENTS

It is expected that proposers have knowledge of all applicable industry standards, laws, and regulations and possess an ability to market and distribute the equipment, products, or services to Participating Entities.

1. Safety Requirements. All items proposed must comply with current applicable safety or regulatory standards or codes.
2. Deviation from Industry Standard. Deviations from industry standards must be identified with an explanation of how the equipment, products, and services will provide equivalent function, coverage, performance, and/or related services.
3. New Equipment and Products. Proposed equipment and products must be for new, current model; however, proposer may offer certain close-out equipment or products if it is specifically noted in the Pricing proposal.
4. Delivered and operational. Unless clearly noted in the proposal, equipment and products must be delivered to the Participating Entity as operational.
5. Warranty. All equipment, products, supplies, and services must be covered by a warranty that is the industry standard or better.

#### D. PROSPECTIVE CONTRACT TERM

The term of any resulting contract(s) awarded by Sourcewell under this solicitation will be four years. Sourcewell and supplier may agree to up to three additional one-year extensions based on the best interests of Sourcewell and its Participating Entities. Sourcewell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

#### E. ESTIMATED CONTRACT VALUE AND USAGE

Based on past volume of similar contracts, the estimated annual value of all transactions from contracts resulting from this RFP are anticipated to be USD \$50 million; therefore, proposers are expected to propose volume pricing. Sourcewell anticipates considerable activity under the contract(s) awarded from this RFP; however, sales and sales volume from any resulting contract are not guaranteed.

#### F. MARKETING PLAN

Proposer's sales force will be the primary source of communication with Participating Entities. The proposer's Marketing Plan should demonstrate proposer's ability to deploy a sales force or dealer network to Participating Entities, as well as proposer's sales and service capabilities. It is expected that proposer will promote and market any contract award.

#### G. ADDITIONAL CONSIDERATIONS

1. Contracts will be awarded to proposers able to best meet the need of Participating Entities. Proposers should submit their complete line of equipment, products, or services that are applicable to the scope of this RFP.
2. A proposer may submit only one proposal. If related, affiliated, or subsidiary entities elect to submit separate proposals, rather than a single parent-entity proposal, each such proposal must be prepared independently and without cooperation, collaboration, or collusion.
3. If a proposer works with a consultant on its proposal, the consultant (an individual or company) may not assist any other entity with a proposal for this solicitation.
4. Proposers should include all relevant information in its proposal, since Sourcewell cannot consider information that is not included in the proposal. Sourcewell reserves the right to verify proposer's information and may request clarification from a proposer, including samples of the proposed equipment or products.
5. Depending upon the responses received in a given category, Sourcewell may need to organize responses into subcategories in order to provide the broadest coverage of the requested equipment, products, or services to Participating Entities. Awards may be based on a subcategory.
6. A proposer's documented negative past performance with Sourcewell or its Participating Entities occurring under a previously awarded Sourcewell contract may be considered in the evaluation of a proposal.

### **III. PRICING**

#### A. REQUIREMENTS

All proposed pricing must be:

1. Either Line-Item Pricing or Percentage Discount from Catalog Pricing, or a combination of these:
  - a. **Line-item Pricing** is pricing based on each individual product or services. Each line must indicate the proposer's published "List Price," as well as the "Contract Price."
  - b. **Percentage Discount from Catalog or Category** is based on a percentage discount from a catalog or list price, defined as a published Manufacturer's Suggested Retail Price (MSRP) for the products or services. Individualized percentage discounts can be applied to any number of defined product groupings. Proposers will be responsible for providing and maintaining current published MSRP with Sourcewell, and this pricing must be included in its proposal and provided throughout the term of any contract resulting from this RFP.
2. The proposer's not to exceed price. A not to exceed price is the highest price for which equipment, products, or services may be billed to a Participating Entity. However, it is permissible for suppliers to sell at a price that is lower than the contracted price.
3. Stated in U.S. and Canadian dollars (as applicable).
4. Clearly understandable, complete, and fully describe the total cost of acquisition (e.g., the cost of the proposed equipment, products, and services delivered and operational for its intended purpose in the Participating Entity's location).

Proposers should clearly identify any costs that are NOT included in the proposed product or service pricing. This may include items such as installation, set up, mandatory training, or initial inspection. Include identification of any parties that impose such costs and their relationship to the proposer. Additionally, proposers should clearly describe any unique distribution and/or delivery methods or options offered in the proposal.

#### B. ADMINISTRATIVE FEES

Proposers awarded a contract are expected to pay to Sourcewell an administrative fee in exchange for Sourcewell facilitating the resulting contracts. The administrative fee is normally calculated as a percentage of the total sales to Participating Entities for all contracted equipment, products, or services made during a calendar quarter, and is typically one percent (1%) to two percent (2%). In some categories, a flat fee may be an acceptable alternative.

### IV. CONTRACT

Proposers awarded a contract will be required to execute a contract with Sourcewell (see attached template). Only those modifications the proposer indicates in its proposal will be available for discussion. Much of the language in the Contract reflects Minnesota legal requirements and cannot be altered. Numerous and/or onerous exceptions that contradict Minnesota law may result in the proposal being disqualified from further review and evaluation.

To identify any exception, or to request any modification, to Sourcewell's standard Contract terms, conditions, or specifications, a proposer must submit the proposed exception(s) or

requested modification(s) via redline in the Contract Template provided in the “Documents” section of the “Bid Details” page on the Sourcewell Procurement Portal and uploaded as part of its response. Only those exceptions noted at the time of the proposal submission will be considered.

Exceptions must:

1. Clearly identify the affected article and section.
2. Clearly note the requested modification; and as applicable, provide requested alternative language.

Unclear requests will be automatically denied.

Only those exceptions that have been accepted by Sourcewell will be included in the contract document provided to the awarded supplier for signature.

If a proposer receives a contract award resulting from this solicitation it will have up to 30 days to sign and return the contract. After that time, at Sourcewell’s sole discretion, the contract award may be revoked.

## **V. RFP PROCESS**

### **A. PRE-PROPOSAL CONFERENCE**

Sourcewell will hold an optional, non-mandatory pre-proposal conference via webcast on the date and time noted in the Solicitation Schedule for this RFP and on the Sourcewell Procurement Portal. The purpose of this conference is to allow potential proposers to ask questions regarding this RFP and Sourcewell’s competitive contracting process. Information about the webcast will be sent to all entities that have registered for this solicitation opportunity through their Sourcewell Procurement Portal Vendor Account. Pre-proposal conference attendance is optional.

### **B. QUESTIONS REGARDING THIS RFP AND ORAL COMMUNICATION**

All questions regarding this RFP must be submitted through the Sourcewell Procurement Portal. The deadline for submission of questions is found in the Solicitation Schedule and on the Sourcewell Procurement Portal. Answers to questions will be issued through an addendum to this RFP. Repetitive questions will be summarized into a single answer and identifying information will be removed from the submitted questions.

All questions, whether specific to a proposer or generally related to the RFP, must be submitted using this process. Do not contact individual Sourcewell staff to ask questions or request information as this may disqualify the proposer from responding to this RFP. Sourcewell will not respond to questions submitted after the deadline.

### **C. ADDENDA**

Sourcewell may modify this RFP at any time prior to the proposal due date by issuing an addendum. Addenda issued by Sourcewell become a part of the RFP and will be delivered to potential proposers through the Sourcewell Procurement Portal. Sourcewell accepts no liability in connection with the delivery of any addenda.

Before a proposal will be accepted through the Sourcewell Procurement Portal, all addenda, if any, must be acknowledged by the proposer by checking the box for each addendum. It is the responsibility of the proposer to check for any addenda that may have been issued up to the solicitation due date and time.

If an addendum is issued after a proposer submitted its proposal, the Sourcewell Procurement Portal will WITHDRAW the submission and change the proposer's proposal status to INCOMPLETE. The proposer can view this status change in the "MY BIDS" section of the Sourcewell Procurement Portal Vendor Account. The proposer is solely responsible to check the "MY BIDS" section of the Sourcewell Procurement Portal Vendor Account periodically after submitting its proposal (and up to the Proposal Due Date). If the proposer's proposal status has changed to INCOMPLETE, the proposer is solely responsible to:

- i) make any required adjustments to its proposal;
- ii) acknowledge the addenda; and
- iii) ensure the re-submitted proposal is received through the Sourcewell Procurement Portal no later than the Proposal Due Date and time shown in the Solicitation Schedule above.

#### D. PROPOSAL SUBMISSION

Proposer's complete proposal must be submitted through the Sourcewell Procurement Portal no later than the date and time specified in the Solicitation Schedule. Any other form of proposal submission, whether electronic, paper, or otherwise, will not be considered by Sourcewell. **Late proposals will not be considered.** It is the proposer's sole responsibility to ensure that the proposal is received on time.

It is recommended that proposers allow sufficient time to upload the proposal and to resolve any issues that may arise. The time and date that a proposal is received by Sourcewell is solely determined by the Sourcewell Procurement Portal web clock.

In the event of problems with the Sourcewell Procurement Portal, follow the instructions for technical support posted in the portal. It may take up to 24 hours to respond to certain issues.

Upon successful submission of a proposal, the Sourcewell Procurement Portal will automatically generate a confirmation email to the proposer. If the proposer does not receive a confirmation email, contact Sourcewell's support provider at [support@bidsandtenders.ca](mailto:support@bidsandtenders.ca).

To ensure receipt of the latest information and updates via email regarding this solicitation, or if the proposer has obtained this solicitation document from a third party, the onus is on the

proposer to create a Sourcewell Procurement Portal Vendor Account and register for this solicitation opportunity.

Within the Sourcewell Procurement Portal, all proposals must be digitally acknowledged by an authorized representative of the proposer attesting that the information contained in the proposal is true and accurate. By submitting a proposal, proposer warrants that the information provided is true, correct, and reliable for purposes of evaluation for potential contract award. The submission of inaccurate, misleading, or false information is grounds for disqualification from a contract award and may subject the proposer to remedies available by law.

Proposals must be:

- In substantial compliance with the requirements of this RFP or it will be considered nonresponsive and be rejected.
- Complete. A proposal will be rejected if it is conditional or incomplete.

Members of the public may attend the Opening at Sourcewell's office located at 202 12th Street NE, Staples, MN to hear the results.

## **VI. EVALUATION AND AWARD**

#### A. EVALUATION

It is the intent of Sourcewell to award one or more contracts to responsive and responsible proposers offering the best overall quality, selection of equipment, products, and services, and price that meet the commonly requested specifications of Sourcewell and its Participating

Entities. The award(s) will be limited to the number of proposers that Sourcewell determines is necessary to meet the needs of its Participating Entities.

Factors to be considered in determining the number of contracts to be awarded in any category may include the following:

- Total evaluation scores (giving consideration to natural breaks in the scoring of responsive proposals);
- The number and geographic location of highest-scoring proposers that offer:
  - A comprehensive selection of the requested equipment, products, or services;
  - A sales and service network ensuring availability and coverage for Participating Entities' use; and
  - Other attributes of the proposer or contents of its proposal that assist Participating Entities in achieving environmental and social requirements, and goals.

Information submitted as part of a proposal should be as specific as possible when responding to the RFP. Do not assume Sourcewell has any knowledge about a specific supplier or product.

**B. AWARD(S)**

Award(s) will be made to the highest-scoring proposer(s) whose proposal conforms to all conditions and requirements of the RFP, and consistent with the award criteria defined in this RFP.

Sourcewell may request written clarification of a proposal at any time during the evaluation process.

Proposal evaluation will be based on the following scoring criteria and the Sourcewell Evaluator Scoring Guide (a copy is available in the Sourcewell Procurement Portal):

Solicitation Number: RFP 020624

Solicitation Name: Private Wireless Services with Related Solutions

Consider the following Questions and Answers to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

**Question 1:**

A purchasing entity acquires a consulting service from a company through Sourcewell to evaluate the entity's specific needs and the outcome of the consultation is a custom-designed solution tailored to the entity's unique requirements. Given that the initial consulting service was sourced through a Sourcewell contract, can the entity directly procure this custom-designed solution through Sourcewell's cooperative purchasing framework? If so, what steps should we take to ensure compliance with Sourcewell's procurement policies and to facilitate this acquisition process?

**Answer 1:**

Refer to Sourcewell contract template Section 6. B. – Additional Terms and Conditions/Participating Addendum. "Additional terms and conditions to a purchase order may be negotiated between a Participating Entity and Vendor, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. ... Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract."

**Question 2:**

Can an approved vendor/supplier provide a Sourcewell customer a custom quote for products or services that is not on the schedule of services? Can the customer then procure the products or services in the custom quote and still receive the same benefits from Sourcewell?

**Answer 2:**

RFP Question #62 allows each proposer to propose the method of facilitating sourced goods that apply to the solutions that the proposer offers, if any. It is typically deemed incidental to the balance of the transaction.

**Question 3:**

How is pricing to be pitched: 1) multiple vendor SKU-based or 2) indicate a specific percentage to be applied?

**Answer 3:**

It is left to the discretion of each proposer to determine and propose the pricing approach that aligns with their business methods and satisfies all the requirements of RFP Section III - Pricing. Proposals are evaluated based on the criteria stated in the RFP.

Solicitation Name: Private Wireless Services with Related Solutions

Consider the following Questions and Answers to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

---

**Question 1:**

Can multiple options be submitted of the solution? As an example, one option where all required HW and SW is provided by respondent, and Another Option where some HW or SW can be selected separately by the contracting agency. Another variation could be the type of private networks deployed (Island only or Hybrid) depending on the requirements and security needs.

**Answer 1:**

The Sourcewell RFP is an open and competitive solicitation process. Each proposer, in its discretion, will propose the equipment, products, and services that it deems to fall within Sourcewell's requested equipment, products, and services as described in the RFP. Only those products within the scope of the RFP will be included in any contract awarded by Sourcewell as a result of the solicitation and each Proposal will be evaluated based on the criteria stated in the RFP.

**Question 2:**

Is the commercial proposal for US or Canada, to be submitted in USD? And if the pricing is to be valid for 4-year terms - how do we reconcile for currency fluctuations?

**Answer 2:**

RFP Section III. A. 3. Requires pricing to be "Stated in U.S. and Canadian dollars (as applicable)." A proposer is not required to cover every geographic region to be considered for award and Price and Product Change Requests can be requested throughout the term of the contract. Refer to Sourcewell template contract Section 4. – Product and Pricing Change Requests. Each proposer will use its discretion in addressing

the exchange rate fluctuation challenge, as applicable. Without limiting the available alternatives, reference to applicable indexes, rates, or metrics, is allowable in a proposal. Each proposal is evaluated based on the criteria stated in the RFP.

**Question 3:**

Any specific guidance on how companies responding will or need to work with Participating Agencies for the Marketing Plan. Does this include training, or joint events or other avenues?

**Answer 3:**

Refer to RFP Section II. F. – Marketing Plan, “Proposer’s sales force will be the primary source of communication with Participating Entities. The proposer’s Marketing Plan should demonstrate proposer’s ability to deploy a sales force or dealer network to Participating Entities, as well as proposer’s sales and service capabilities. It is expected that proposer will promote and market any contract award.”

**Question 4:**

How long will the respondent information be available in the public domain?

**Answer 4:**

In accordance with Minnesota law Sourcewell maintains all documentation related to an RFP for 10 years after the expiration of the resulting contracts.

**Question 5:**

Can the respondent mark specific technical information as proprietary so as not be to be included in the public domain? This will not be applicable to the commercial responses.

**Answer 5:**

Refer to RFP Section VI. E. – Disposition of Proposals, “It is the proposer’s responsibility to clearly identify any data submitted that it considers to be protected. Proposer must also include a justification for the classification citing the applicable Minnesota law.”

**Question 6:**

Is there any guidance on network and core deployment? Can we expect deployments requiring on-premises EPC, centrally hosted EPC (but on customer premises), hosted in Data Centers with a variety of redundancy requirements?

**Answer 6:**

Sourcewell utilizes a competitive, solutions-based solicitation approach that is not based on detailed specifications or finite quantities. A proposer can propose its entire line of equipment, products, and services falling within the requested equipment, products, and services described in the RFP.

**Question 7:**

Is seamless macro traffic desired on the private network? Also, is roaming to/from the macro networks required? And if yes are all or only some of them macro networks?
