3. ARCHITECTURAL AND ENGINEERING SERVICES

This Contract is not intended to include architectural, engineering and other professional and consulting services required to be procured pursuant to Chapter 2254 of the Texas Government Code.

4. TERM OF CONTRACT

- 4.1 This Contract is for term shown on the RFP. The Contractor may withdraw from the Contract after the initial two (2) year term or upon each option to extend, provided that the Contractor gives 60 Days' written notice of its intent to withdraw. Sourcewell may, for any reason, terminate this Contract at any time.
- 4.2 A Sourcewell Member may issue a Purchase Order at any time during the term of this Contract. All Purchase Orders issued during a term of this Contract will be valid and in effect notwithstanding that the Detailed Scope of Work may be performed, payments may be made, and the guarantee period may continue, after such term has expired.

5. GEOGRAPHIC AREA

Contractor will primarily work in the Geographic Area designated. However, if both parties agree, the Contractor may work in all areas of the state or other states at the Adjustment Factors proposed.

6. ESTIMATED ANNUAL VALUE

The Estimated Annual Value of the Contract is as specified in the RFP. The Contractor is not guaranteed to receive any Purchase Orders under this Contract. The Estimated Annual Value is not a limit on the total value of Purchase Orders that could be issued to the Contractor in any one year.

7. OPTION TO BILATERALLY EXTEND CONTRACT

- 7.1 This Contract has an initial term of two (2) years from the date on contract and three (3) bilateral option provisions for three (3) additional one-year terms. One additional one-year renewal-extension may be offered by Sourcewell to Contractor beyond the total term if Sourcewell deems such action to be in the best interests of Sourcewell and its Members.
- 7.2 The Construction Task Catalog issued with this Solicitation will be in effect for the first year of this Contract.
- 7.3 On the anniversary of the solicitation, a new Construction Task Catalog will be furnished. The new Construction Task Catalog will be effective for the 12 month period after the anniversary of the award date. The Construction Task Catalogs that accompany each anniversary shall only apply to Work Orders issued after the effective date of that specific renewal option and shall have no impact on Work Orders issued prior to the effective date of that specific renewal option.
- 7.4 The Adjustment Factors submitted with the Contractor's Proposal shall be used for the full term of the Contract. On the annual anniversary of the Contract, Sourcewell shall issue the

Contractor a new Construction Task Catalog. The Contractor will be issued the new Construction Task Catalog for review and acceptance prior to accepting new work. The Contractor shall use the Construction Task Catalog in effect on the date that the Work Order is issued. However, the Contractor cannot delay the issuance of a Work Order to take advantage of a scheduled update of the Construction Task Catalog. In that event, the Contractor shall use the Construction Task Catalog that would have been in effect without the delay.

8. PROCEDURE FOR ORDERING WORK

8.1 Initiation of a Purchase Order

8.1.1 As the need exists, Sourcewell (or their designated representative) will, on behalf of a Sourcewell Member, notify the Contractor of a Project and schedule a Joint Scope Meeting.

8.1.2 The Contractor will attend the Joint Scope Meeting to discuss, at a minimum:

- a. the general scope of the Work,
- b. alternatives for performing the Work and value engineering,
- c. access to the Site and protocol for admission,
- d. hours of operation,
- e. staging area,
- f. requirements for professional services, sketches, drawings, and specifications,
- g. construction schedule,
- h. requirement for bonding
- i. the presence of hazardous materials, and
- j. date on which the Proposal Package is due.

8.1.3 Upon completion of the joint scoping process, Sourcewell (or their designated representative), working with the Sourcewell Member and the Contractor, will prepare a Detailed Scope of Work referencing any sketches, drawings, photographs, and specifications required to document accurately the work to be accomplished. Sourcewell (or their designated representative) will issue a Request for Proposal that will require the Contractor to prepare a Proposal Package. The Detailed Scope of Work, unless modified by both the Contractor and Sourcewell (or their designated representative), will be the basis on which the Contractor will develop its Price Proposal and Sourcewell (or their designated representative) and the Sourcewell Member will evaluate the same. The Contractor does not have the right to refuse to perform any Task or any work in connection with a particular Project.

8.2 **Preparation of the Price Proposal:** The Contractor will prepare Price Proposals in accordance with the following:

8.2.1 **Pre-priced Tasks:** A Pre-priced Task is a Task described and for which a Unit Price is set forth in the Construction Task Catalog. For Pre-priced Tasks the Contractor will identify the Task from the Construction Task Catalog and the quantities required.

8.2.2 **Non Pre-priced Tasks:** A Non Pre-priced Task is a Task which is not in the Construction Task Catalog.

8.2.2.1 If the Contractor will perform the Non Pre-priced Task with its own forces, it will submit three independent quotes for all materials to be installed

and will provide a breakdown of the labor and equipment costs.

- 8.2.2.2 If the Non Pre-priced Task is to be subcontracted, the Contractor must submit three independent bids from Subcontractors. The Contractor will not submit a quote or bid from any supplier or Subcontractor that the Contractor is not prepared to use. Sourcewell may require additional quotes and bids if the suppliers or Subcontractors are not acceptable or if the prices are not deemed reasonable by Sourcewell or its designated representative.
- 8.2.2.3 **Pricing Non Pre-priced Tasks:** The final price submitted for Non Pre-priced Tasks will be according to the following formula. Each Non Pre-priced Task must be supported with the necessary back-up documents including the calculation below:

For Work Performed with the Contractor's Own Forces:

- A. The hourly rate for each trade classification not in the Construction Task Catalog multiplied by the quantity;
- B. The rate for each piece of Equipment not in the Construction Task Catalog multiplied by the quantity;
- C. Lowest of three independent quotes for all materials

Total Cost for self-perform work = (A+B+C) x NPP Adjustment Factor

For Work Performed by Sub-contractors: If the Work is to be subcontracted, the Contractor must submit three independent quotes from Subcontractors for the Work. If three quotes or bids cannot be obtained, the Contractor will provide the reason in writing for Sourcewell Member's approval why three quotes cannot be submitted.

D = Lowest of three Subcontractor quotes

Total Cost of Subcontracted Non Pre-priced Task = D x NPP Adjustment Factor

- 8.2.2.4 At the discretion of Sourcewell (or their designated representative), Non Pre-priced Tasks, as well as other Tasks, may be added to the CTC during the course of the Contract. Unit prices will be established based on actual quotes from material suppliers and installers and fixed as a permanent Pre-priced Task in the CTC.
- 8.2.2.5 Sourcewell (or their designated representative) determination as to whether an item is a Pre-priced Task or a Non Pre-priced Task will be final, binding and conclusive as to the Contractor.
- 8.2.2.6 The means and methods of construction will be such as the Contractor may choose; subject however, to Sourcewell's right to reject means and methods proposed by the Contractor that:
- 8.2.2.6.1 Will not produce finished Work in accordance with the terms of the Contract; or
 - 8.2.2.6.2 Unnecessarily increases the price of the Purchase Order when alternative means and methods are available.

- 8.2.3 In the event the Contractor is required to work within a secured facility where labor, material, and equipment must be inspected to pass through a secured perimeter, and all work must be constantly monitored by facility personnel, such as a Department of Corrections prison, the Contractor will be paid for the labor time lost as a result of such perimeter inspection, as well as any loss of time resulting from a temporary shutdown of the work site required by the facility, such as a temporary shutdown to move prisoners.
- 8.2.4 The value of the Price Proposal will be calculated by summing the total of the calculations for each Pre-priced Tasks (Unit Price x quantity x Adjustment Factor) plus the value of all Non Pre-priced Tasks.
- 8.2.5 The Contractor must submit a complete Proposal Package, which includes:
- a. any incidental drawings or sketches, calculations and or specification information,
 - b. the Price Proposal, and a quantity take-off summary supporting all material quantities contained in the Price Proposal
 - c. catalog cuts providing information on materials or products, as specifically requested,
 - d. back-up for any Non Pre-priced Tasks,
 - e. identification of known Subcontractors and material suppliers,
 - f. a construction schedule,
 - g. for special equipment or materials, warranty information,
- 8.2.6 By submitting a Price Proposal to Sourcewell, the Contractor agrees to accomplish the Detailed Scope of Work in accordance with the Request for Proposal at the price submitted. It is the Contractor's responsibility to include the necessary tasks and quantities in the Price Proposal and apply the appropriate Adjustment Factor(s) prior to delivering it to Sourcewell.
- 8.2.7 Whenever, because of trade jurisdiction rules or small quantities, the cost of a minor task in the Price Proposal is less than the cost of the actual labor and material to perform such task, the Sourcewell Member may permit the Contractor to be paid for such task as a Non-Prepriced Task, or use Prepriced labor tasks and material component pricing to cover the actual costs incurred. Provided, however, that there is no other work for that trade on the Project or other work for that trade cannot be scheduled at the same time and the final charge does not exceed \$5,000.

8.3 Time for Submittal of the Proposal Package

- 8.3.1 The Proposal Package will be submitted by the date indicated on the Request for Proposal. All incomplete Proposal Packages will be rejected. The time allowed for preparation of the Proposal Package will depend on the complexity and urgency of the Project but should average between seven and fourteen days. On complex Projects, such as those requiring incidental engineering/architectural drawings and approvals and permits, allowance will be made to provide adequate time for preparation and submittal of the necessary documents.
- 8.3.2 In emergency situations and for Projects requiring immediate completion, the Proposal Package may be required quickly and the due date will be so indicated on the Request for Proposal or, the Contractor may begin work immediately, with the

paperwork to follow.

- 8.3.3 If the Contractor fails to meet the deadline for submittal of the Proposal Package, this may be reason to suspend issuance of this particular Purchase Order.
- 8.3.4 If the Contractor requires clarifications or additional information regarding the Detailed Scope of Work in order to prepare the Proposal Package, the request must be submitted so that the submittal of the Proposal Package is not delayed.
- 8.4 Review of the Proposal Package**
- 8.4.1 Sourcewell (or its designated representative) and/or the Sourcewell Member (or its designated representative) will evaluate the Price Proposal by evaluating the nature and number of Tasks proposed against the agreed upon Detail Scope of Work and will determine the reasonableness of approach. Furthermore Sourcewell (or its designated representative) or the Sourcewell Member (or its designated representative) may compare the Price Proposal to the Sourcewell Member cost estimate for the Detailed Scope of Work. Sourcewell (or its designated representative) or the Sourcewell Member (or its designated representative) reserves the right to reject a Price Proposal based on unjustifiable/unsupported (with take off details) quantities and/or Tasks, schedule, inadequate documentation, or for any other reason.
- 8.4.2 If Sourcewell (or its designated representative) and/or the Sourcewell Member (or its designated representative) finds any part of the Price Proposal unacceptable, Sourcewell (or its designated representative) or the Sourcewell Member (or its designated representative) may request the Contractor to re- submit its Price Proposal or cancel the Project. The Contractor is expected to submit correct Price Proposals the first time. However, Sourcewell recognizes that some adjustments might have to be made to the Price Proposal after review by Sourcewell (or its designated representative) and the Sourcewell Member (or its designated representative). Therefore, Sourcewell (or its designated representative) will allow the Contractor to submit the first Price Proposal and a second Price Proposal for each Purchase Order.
- 8.4.3 Additionally, Sourcewell (or its designated representative) and/or the Sourcewell Member (or its designated representative) will evaluate all other components of the Proposal Package and may request revisions thereto.
- 8.4.4 **Requested revisions to any and all of the Proposal Package components should be made by the Contractor and resubmitted in three (3) working days or less.** If after the second review by Sourcewell (or its designated representative) and/or the Sourcewell Member (or its designated representative), Sourcewell (or its designated representative) and/or the Sourcewell Member (or its designated representative) finds requested revisions to the Proposal Package that were not made, this may be reason to suspend that particular Purchase Order.
- 8.4.5 Failure by the Contractor to submit Proposal Packages, and revisions thereto, in a timely manner (within time frames described above) is grounds for suspension of all future Purchase Orders.
- 8.4.6 Sourcewell reserves the right to obtain Price Proposals from any or all of the contractors awarded an IQCC contract.

8.4.7 If the Contractor continues to submit Price Proposals which are rejected by Sourcewell (or its designated representative), Sourcewell may declare the Contractor in default and initiate termination of the Contract, according the Contract General Conditions.

8.5 Delivery of the Proposal Package

8.5.1 After Sourcewell (or its designated representative) reaches an agreement with the Contractor on the Proposal Package and any requested revision thereto, if applicable, Sourcewell (or its designated representative) will assemble and deliver the Proposal Package for the Sourcewell Member's consideration.

8.6 Review of the Proposal Package by the Sourcewell Member and Issuance of Purchase Order

8.6.1 The Sourcewell Member will evaluate the entire Proposal Package.

8.6.2 The Sourcewell Member may reject a Proposal Package for any reason

8.6.3 The Sourcewell Member may request changes to or clarifications of any part of the Proposal Package, may require certificates of insurance, and may require a Labor and Material Payment Bond and Performance Bond. The Contractor and Sourcewell (or its designated representative) will work together to make any requested revisions in a timely manner and resubmit a revised Proposal Package.

8.6.4 Upon approval of the Proposal Package by Sourcewell (or its designated representative) and the Sourcewell Member, the Sourcewell Member may issue a signed Purchase Order, Notice of Award, or similar document accepting the Contractor's offer. The document will include:

- a. Reference to the Detail Scope of Work
- b. The Purchase Order Price
- c. Start date, Purchase Order Completion Time (duration) and completion date
- d. Whether liquidated damages will apply

8.6.5 When the Work Order Package is accepted, the Sourcewell Member may send to the Contractor a Purchase Order, or a notice of intent to award a Purchase Order (sometimes used if bonding is required) or a similar document.

8.6.6 Once a Contractor has accepted the Purchase Order then the Contractor may not refuse to perform the Work. Such actions may be grounds for termination of this Contract or other disciplinary action at the option of Sourcewell

8.6.7 If performance and payment bonding is required, or if a separate and /or special insurance certificate is required, the Contractor will deliver such requirement to the Sourcewell member within ten (10) days of notification of the requirement.

9. CHANGES

9.1 The Sourcewell Member reserves the right to make, in writing, at any time during the Work, changes in the Detailed Scope of Work as are necessary to satisfactorily complete the Project, and to delete in whole or in part, or to add to, the Detailed Scope of Work. Such changes, deletions, or additions will not invalidate the Contract or the Purchase Order nor release the surety, if any, and the Contractor agrees to perform the Work as altered.

- 9.2 All changes, deletions, and additions to the Detailed Scope of Work will be reflected in a Supplemental Purchase Order developed and priced in accordance with the procedure for developing and approving all Price Proposals.

10. MARKETING REQUIREMENTS

- 10.1 The Contractor will be proactive about selling and marketing this Contract to public agencies and non-profit organizations. Failure to do so may be grounds for termination of this Contract or other disciplinary action at the option of Sourcewell.
- 10.2 Sourcewell selected its Indefinite Quantity Construction Contracting system based on its research of what provides their Members with the best value and most cost effective results. The Contractor must avoid all conflicts of interest with the promotion of other IQCC systems to any agency eligible to purchase under this Contract. The promotion of other IQCC systems to any agency eligible to purchase under this Contract may be grounds for termination of this Contract.
- 10.3 The Contractor must adhere to the following when preparing marketing materials and web sites, and in the use of trademarks and service marks:

- 10.3.3 The Contractor is authorized to use Sourcewell's and Gordian's names, logos, trademarks, service marks and/or Sourcewell and Gordian provided materials solely for the presentation and promotion of the availability and use of this Contract by Sourcewell Members, and agrees that all uses of the trademarks and service marks belonging to Gordian must include the appropriate trademark and service mark symbols (® or TM) at all times.
- 10.3.4 The Contractor must not collect information from a Sourcewell Member or Potential Sourcewell Member on Contractor provided forms or web sites. The Contractor will advise the Sourcewell Members or Potential Sourcewell Members to enter all information at the ezIQC® website or the Contractor may input project information on the ezIQC web site on behalf of a Sourcewell Member or Potential Sourcewell Member.
- 10.3.4 Under no circumstance may Contractor indicate Sourcewell endorses Contractor, or that copy or branding images of Sourcewell or Gordian be altered in any way without the express written approval of Sourcewell or Gordian.
- 10.3.5 All marketing materials must be coordinated with and approved by Sourcewell and Gordian.

11. PUNCH LIST COMPLETION

- 11.1 The Contractor understands and agrees that time is of the essence in closing out the Work of this Contract. Upon Substantial Completion of the Work, the Punch List will be transmitted to the Contractor from the Sourcewell Member. The Contractor agrees to begin

performance of Punch List Work immediately after receipt of the Punch List.

- 11.2 Failure of the Contractor or its Subcontractors to begin the Punch List Work within three (3) business days after receipt of the Punch List will be construed as failure to prosecute the Work of the Contract.
- 11.3 Punch List Work will be continuously prosecuted once begun and completed within 30 Days from the receipt of the Punch List. Should the Contractor fail to complete the Punch List within this period of time, the liquidated damages as identified in Article 26 of the Contract General Conditions will apply.

12. PAYMENT AND PERFORMANCE BONDS AND MATERIAL AND WORKMANSHIP BONDS

If required by the Sourcewell Member for a particular Work Order, the Contractor will deliver a Labor and Material Payment Bond and a Performance Bond in the amount of such Work Order. If required by the Sourcewell Member for a particular Work Order, the Contractor will deliver Material and Workmanship Bonds in the amount required by the Sourcewell Member. The bonds must be in a form, and executed by a surety, acceptable to the Sourcewell Member. The bonds must be received before the Notice to Proceed will be issued. The Contractor will be compensated for the cost of the bonds up to 2% of the Work Order Price through the Reimbursable Fee work task in the Construction Task Catalog. The Contractor will apply a 1.1000 Adjustment Factor to the Reimbursable Fee work task rather than applying the Contractor's proposed Adjustment Factor.

13. COMPUTER SOFTWARE

The Contractor must maintain at its office for its use a computer with an internet connection. The Contractor will be furnished with a copy of the internet based eGordian® software which will allow the Contractor to generate Price Proposals. This software program contains an electronic copy of the Construction Task Catalog and allows the Contractor to select items and quantities for use in a particular Price Proposal. The software generates a Price Proposal in a preset format acceptable to the Sourcewell Member. There is no separate charge to the Contractor for the software and the related software training.

14. PREPAYMENT OPTION

A Sourcewell Member may elect to deposit the funds for any Project or Purchase Order in a special account established by Sourcewell for the purpose of paying the Contractors for work to be performed. Funds will be transferred into and out of such account in strict accordance with the rules and procedures established therefor.

3. SOURCEWELL MEMBER'S RIGHT TO COMPLETE WORK

Any errors, inconsistencies or omissions discovered by the Contractor must be reported promptly to the Project Manager.

4.2 Any design errors or omissions noted by the Contractor during this review must be reported promptly to the Project Manager, but it is recognized that the Contractor's review is made in the Contractor's capacity as a Contractor and not as a licensed design professional. 5.1 The Contractor will supervise and direct the performance of the Detailed Scope of Work, using the Contractor's best skill and attention. The Contractor will be solely responsible for and have control over construction means, methods, techniques, sequences and procedures and for coordinating all portions of the Work. If the Detailed Scope of Work gives specific instructions concerning construction means, methods, techniques, sequences or procedures, the Contractor will evaluate the Site safety thereof and, except as stated below, will be fully and solely responsible for the jobsite safety of such means, methods, techniques, sequences or procedures. If the Contractor determines that such means, methods, techniques, sequences or procedures may not be safe, the Contractor will give timely written notice to the Project Manager and will not proceed with that portion of the Work without further written instructions from the Project Manager.

5.2 The Contractor will be responsible to the Sourcewell Member for acts and omissions of the Contractor's employees, Subcontractors and their agents and employees, and other persons or entities performing portions of the work for or on behalf of the Contractor or any of its Subcontractors.

- 5.3 The Contractor will be responsible for inspection of portions of Work already performed to determine that such portions are in proper condition to receive subsequent Work.

6. WORKMANSHIP AND QUALITY

- 6.1 The Contractor may make substitutions only with the consent of the Project Manager.
- 6.2 The Contractor must enforce strict discipline and good order among the Contractor's employees and other persons carrying out the Work. The Contractor will not permit employment of unfit persons or persons not skilled in the portions of the Work assigned to them.

7. WARRANTY

- 7.1 All Work furnished under this Contract will be guaranteed against defective materials and workmanship, improper performance and non-compliance with the Contract Documents for a period of one year after final acceptance of the Work, except as otherwise specified in other parts of the Contract Documents, or within such longer period of time as may be prescribed by law or provided by the manufacturer.
- 7.2 During the warranty period, the Contractor will repair and replace at Contractor's own expense, all Work that may develop defects whether such defects may be inherent in the equipment or materials, in the functioning of the piece of equipment, or in the functioning and operation of pieces of equipment operating together as a functional unit. Any equipment or material which is repaired or replaced will have the guarantee period extended for a period of one year from the date of the last repair or replacement.
- 7.3 If the Contractor fails to repair, replace, rebuild or restore such defective or damaged Work promptly after receiving such notice, the Sourcewell Member will have the right to have the Work done by others and to deduct the cost thereof from the monies owed to the Contractor. If the amount owed is insufficient to cover such costs, the Contractor will be liable to pay such deficiency on demand.
- 7.4 The Project Manager's certificate setting forth the fair and reasonable cost of repairing, replacing, rebuilding or restoring any damaged or defective Work when performed by one other than the Contractor will be binding and conclusive as the amount thereof upon the Contractor.
- 7.5 The Contractor will obtain all manufacturer's warranties and guarantees of all equipment and materials required by this Contract in the name of the Sourcewell Member.

8. PERMITS, FILING

- 8.1 Contractor will make the necessary arrangements for and obtain all filings and permits required for the Work, including the preparation of all drawings, sketches, calculations and other documents and information that may be required therefor. If the Contractor is required to pay an application fee for filing a project, a fee to obtain a building permit, or any other permit fee to the city, state, or some other governmental or regulatory agency, then the amount of such fee paid by the Contractor for which a receipt is obtained will be treated as a Reimbursable Task to be paid a mark-up of 10% on the fees paid to a governmental entity to obtain filings and permits. Contractor will submit written documentation of such fees. The 10% mark-up will cover all costs over and above the filing and permit fees, including expeditor fees.

- 8.2 The Contractor will comply with and give notices required by laws, ordinances, rules, regulations and lawful orders of public authorities applicable to performance of the Work.
- 8.3 It is not the Contractor's responsibility to ascertain that the Detailed Scope of Work is in accordance with applicable laws, statutes, ordinances, building codes, and rules and regulations. However, if the Contractor observes that any portion of the Detailed Scope of Work is at variance therewith, the Contractor will promptly notify the Project Manager in writing.

9. PERSONNEL

The Contractor will employ competent personnel for the development of the Project's Detailed Scope of Work, the preparation of the Price Proposal and the execution of the Work. During the performance of the Work, the superintendent assigned to the Project will represent the Contractor, and communications given to the superintendent will be as binding as if given to the Contractor. Important communications must be confirmed in writing. Other communications will be similarly confirmed on written request in each case.

10. SHOP DRAWINGS, PRODUCT DATA AND SAMPLES

- 10.1 Shop Drawings, Product Data, Samples, and similar submittals are not Contract Documents. The purpose of their submittal is to demonstrate for those portions of the Detailed Scope of Work for which submittals are required by the Contract Documents the way by which the Contractor proposes to conform to the information given and the design concept expressed in the Detailed Scope of Work. Submittals which are not required by the Contract Documents may be returned by the Project Manager without action.
- 10.2 The Contractor must review for compliance with the Contract Documents, approve and submit to the Project Manager Shop Drawings, Product Data, Samples and similar submittals required with reasonable promptness and in such sequence as to cause no delay in the Work or in the activities of the Sourcewell Member or of separate contractors. Submittals which are not marked as reviewed for compliance with the Contract Documents and approved by the Contractor may be returned by the Project Manager without action.
- 10.3 By approving and submitting Shop Drawings, Product Data, Samples and similar submittals, the Contractor represents that the Contractor has determined and verified materials, field measurements and field construction criteria related thereto, or will do so, and has checked and coordinated the information contained within such submittals with the requirements of the Detailed Scope of Work and of the Contract Documents.
- 10.4 The Contractor must perform no portion of the Work for which the Contract Documents require submittal and review of Shop Drawings, Product Data, Samples or similar submittals until the respective submittal has been approved by the Project Manager.
- 10.5 The Work will be performed in accordance with approved submittals except that the Contractor will not be relieved of responsibility for deviations from requirements of the Contract Documents by the Project Manager's approval of Shop Drawings, Product Data, Samples or similar submittals unless the Contractor has specifically informed the Project Manager in writing of such deviation at the time of submittal and (1) the Project Manager has given written approval to the specific deviation as a minor change in the Work, or (2) a Supplemental Purchase Order or written notice has been issued authorizing the deviation. The Contractor will not be relieved of responsibility for errors or omissions in Shop

Drawings, Product Data, Samples or similar submittals by the Project Manager's approval thereof.

- 10.6 The Contractor will direct specific attention, in writing or on resubmitted Shop Drawings, Product Data, Samples or similar submittals, to revisions other than those requested by the Project Manager on previous submittals. In the absence of such written notice the Project Manager's approval of a resubmission will not apply to such revisions.
- 10.7 The Contractor will not be required to provide professional services which constitute the practice of architecture or engineering unless such services are specifically required by the Detailed Scope of Work or unless the Contractor needs to provide such services in order to carry out the Contractor's responsibilities for construction means, methods, techniques, sequences and procedures. The Contractor will not be required to provide professional services in violation of applicable law. If professional design services or certifications by a design professional related to systems, materials or equipment are specifically required of the Contractor by the Detailed Scope of Work, the Sourcewell Member will specify all performance and design criteria that such services must satisfy. The Contractor will cause such services or certifications to be provided by a properly licensed design professional, whose signature and seal must appear on all drawings, calculations, specifications, certifications, Shop Drawings and other submittals prepared by such professional. Shop Drawings and other submittals related to the Work designed or certified by such professional, if prepared by others, will bear such professional's written approval when submitted to the Project Manager. The Sourcewell Member will be entitled to rely upon the adequacy, accuracy and completeness of the services, certifications or approvals performed by such design professionals, provided the Sourcewell Member has specified to the Contractor all performance and design criteria that such services must satisfy. The Project Manager will review, approve or take other appropriate action on submittals only for the limited purpose of checking for conformance with information given and the design concept expressed in the Detailed Scope of Work. The Contractor will not be responsible for the adequacy of the performance or design criteria required by the Detailed Scope of Work.

11. CUTTING AND PATCHING

- 11.1 The Contractor will be responsible for cutting, fitting, or patching required to complete the Detailed Scope of Work or to make its parts fit together properly.
- 11.2 The Contractor will not damage or endanger a portion of the Work or fully or partially completed construction of the Sourcewell Member or separate contractors by cutting, patching or otherwise altering such construction, or by excavation. The Contractor will not cut or otherwise alter such construction by the Sourcewell Member or a separate contractor except with written consent of the Sourcewell Member and of such separate contractor; such consent will not be unreasonably withheld. The Contractor will not unreasonably withhold from the Sourcewell Member or a separate contractor the Contractor's consent to cutting or otherwise altering the Work.

12. CLEANING UP

- 12.1 The Contractor will keep the Site and surrounding areas free from accumulation of waste materials or rubbish caused by operations under the Purchase Order. At completion of the Work, the Contractor will remove from and about the Site all waste materials, rubbish, the Contractor's tools, construction equipment, machinery and surplus materials.

12.2 If the Contractor fails to clean up, the Sourcewell Member may do so and the cost thereof will be charged to the Contractor.

13. ACCESS TO THE WORK

The Contractor will provide the Project Manager access to the Work at all times.

14. ROYALTIES, PATENTS AND COPYRIGHTS

The Contractor will pay all royalties and license fees. The Contractor will defend suits or claims for infringement of copyrights and patent rights and will hold the Sourcewell Member and Project Manager harmless from loss on account thereof, but will not be responsible for such defense or loss when a particular design, process or product of a particular manufacturer or manufacturers is required by the Contract Documents or where the copyright violations are contained in Drawings, Specifications or other documents prepared by the Sourcewell Member or Project Manager. However, if the Contractor has reason to believe that the required design, process or product is an infringement of a copyright or a patent, the Contractor will be responsible for such loss unless such information is promptly furnished to the Project Manager.

15. INDEMNIFICATION

15.1 To the fullest extent permitted by law and to the extent claims, damages, losses or expenses are not covered by insurance purchased by the Contractor, the Contractor will indemnify and hold harmless Sourcewell, the Sourcewell Member, Project Manager, consultants, and agents and employees of any of them from and against claims, damages, losses and expenses, including but not limited to attorney's fees, arising out of or resulting from performance of the Work, provided that such claim, damage, loss or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself), but only to extent caused by the negligent acts or omissions of the Contractor, a Subcontractor, anyone directly or indirectly employed by them or anyone for whose acts they may be liable, regardless of whether or not such claim, damage, loss or expense is caused in part by a party indemnified hereunder. Such obligation will not be construed to negate, abridge, or reduce other rights or obligations of indemnity which would otherwise exist as to a party or person described in this Paragraph.

15.2 In claims against any person or entity indemnified under this Paragraph by an employee of the Contractor, a Subcontractor, anyone directly or indirectly employed by them or anyone for whose acts they may be liable, the indemnification obligation will not be limited by a limitation on amount or type of damages, compensation or benefits payable by or for the Contractor or a Subcontractor under workers' compensation acts, disability benefit acts or other employee benefit acts.

16. SUBCONTRACTORS

16.1 The Contractor, as soon as practicable after award of the Purchase Order, will furnish in writing to the Project Manager the names of persons or entities (including those who are to furnish materials or equipment fabricated to a special design) proposed for each portion of the Work. The Project Manager will promptly reply to the Contractor in writing stating whether or not, after due investigation, Contractor has reasonable objection to any such proposed person or entity. Failure of the Project Manager to reply promptly will constitute notice of no reasonable objection.

- 16.2 The Contractor will not contract with a proposed person or entity to whom the Sourcewell Member or Project Manager has made reasonable and timely objection. The Contractor will not be required to contract with anyone to whom the Contractor has made reasonable objection.
- 16.3 If the Sourcewell Member or Project Manager has reasonable objection to a person or entity proposed by the Contractor, the Contractor will propose another to whom the Sourcewell Member or Project Manager has no reasonable objection.

17. COORDINATION WITH OTHER CONTRACTORS

- 17.1 The Sourcewell Member reserves the right to perform construction or operations related to the Purchase Order with the Sourcewell Member's own forces, and to award separate contracts in connection with other portions of the Project or other construction or operations on the Site.
- 17.2 The Sourcewell Member will provide for coordination of the activities of the Sourcewell Member's own forces and of each separate contractor with the Work of the Contractor, who will cooperate with them. The Contractor will participate with other separate contractors and the Sourcewell Member in reviewing their construction schedules when directed to do so. The Contractor will make any revisions to the construction schedule deemed necessary after a joint review and mutual agreement. The construction schedules will then constitute the schedules to be used by the Contractor, separate contractors and the Sourcewell Member until subsequently revised.

18. REQUEST FOR EXTENSION OF TIME

- 18.1 If the Contractor is delayed at any time in the commencement or progress of the Detailed Scope of Work by an act or neglect of the Sourcewell Member or Project Manager, or of an employee of either, or of a separate contractor employed by the Sourcewell Member, or by changes ordered in the Work, or by labor disputes, fire, unusual delay in deliveries, unavoidable casualties or other causes beyond the Contractor's control, or by other causes which the Project Manager determines may justify delay, then the Purchase Order Completion Time will be extended for such reasonable time as the Project Manager may determine.
- 18.2 The Contractor agrees to make no claim for damages for the delay in the performance of any Purchase Order occasioned by any act or omission to act of the Sourcewell Member, Project Manager or any of their representatives, and agrees that any such claim will be fully compensated for by an extension of time as provided herein.

19. PARTIAL PAYMENTS

- 19.1 The Contractor may submit a monthly Application for Payment for Work completed to date. The Contractor will submit Certified Payroll Records, and such other supporting documentation as may be required by the Project Manager. The Contractor may be required to submit Certified Payroll Records online. The Project Manager will inspect the work within a reasonable time and the Sourcewell Member will make partial payments to the Contractor based on the approved value of completed Work.
- 19.2 The Sourcewell Member may withhold up to 5% of each payment until final completion of the Purchase Order.

- 19.3 The Contractor must promptly pay each Subcontractor, upon receipt of payment from the Sourcewell Member, out of the amount paid to the Contractor on account of such Subcontractor's portion of the Work, the amount to which said Subcontractor is entitled, reflecting percentages actually retained from payments to the Contractor on account of such Subcontractor's portion of the Work. The Contractor will, by appropriate agreement with each Subcontractor, require each Subcontractor to make payments to its Sub-Subcontractors in a similar manner.

20. FINAL PAYMENTS

- 20.1 The Contractor will notify the Project Manager when the Detailed Scope of Work is complete and ready for final inspection. The Project Manager will promptly make such inspection. If the Project Manager finds the Detailed Scope of Work complete and all final documentation submitted, the Project Manager will notify the Contractor that a final Application for Payment may be submitted.
- 20.2 The Contractor may then submit a final Application for Payment. The Contractor will submit Certified Payroll Records and such supporting documentation as may be required by the Project Manager. The Sourcewell Member will make final payment to the Contractor.
- 20.3 Acceptance of final payment by the Contractor, a Subcontractor or material supplier will constitute a waiver of claims by that payee except those previously made in writing and identified by that payee as unsettled at the time of final Application for Payment.

21. PARTIAL OCCUPANCY OR USE

- 21.1 The Sourcewell Member may occupy or use any completed or partially completed portion of the Work at any stage when such portion is designated by separate agreement with the Contractor, provided such occupancy or use is consented to by the insurer and authorized by public authorities having jurisdiction over the Work. Such partial occupancy or use may commence whether or not the portion is substantially complete, provided the Sourcewell Member and Contractor have accepted in writing the responsibilities assigned to each of them for payments, retainage, if any, security, maintenance, heat, utilities, damage to the Work and insurance, and have agreed in writing concerning the period for correction of the Work and commencement of warranties required by the Contract Documents. When the Contractor considers a portion substantially complete, the Contractor will prepare and submit a list to the Project Manager. Consent of the Contractor to partial occupancy or use will not be unreasonably withheld. The stage of the progress of the Work will be determined by written agreement between the Sourcewell Member and Contractor.
- 21.2 Immediately prior to such partial occupancy or use, the Sourcewell Member, Contractor and Project Manager will jointly inspect the area to be occupied or portion of the Work to be used in order to determine and record the condition of the Work.
- 21.3 Unless otherwise agreed upon, partial occupancy or use of a portion or portions of the Work will not constitute acceptance of Work not complying with the requirements of the Contract Documents.

22. IDENTIFICATION AND SECURITY REQUIREMENTS

The Contractor will comply with all identification and security requirements that the Sourcewell Member may establish.

23. PROTECTION OF PERSONS AND PROPERTY

- 23.1 The Contractor must take reasonable precautions for safety of, and will provide reasonable protection to prevent damage, injury or loss to:
- 23.1.1 employees on the Work and other persons who may be affected thereby;
 - 23.1.2 the Work and materials and equipment to be incorporated therein, whether in storage on or off the site, under care, custody or control of the Contractor or the Contractor's Subcontractors or Sub-subcontractors; and
 - 23.1.3 other property at the Site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of construction.
- 23.2 The Contractor will give notices and comply with applicable laws, ordinances, rules, regulations and lawful orders of public authorities bearing on safety of persons or property or their protection from damage, injury or loss.
- 23.3 The Contractor will erect and maintain, as required by existing conditions and performance of the Detailed Scope of Work, reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety regulations and notifying Sourcewell Member and users of adjacent sites and utilities.
- 23.4 When use or storage of explosives or other hazardous materials or equipment or unusual methods are necessary for execution of the Work, the Contractor will exercise utmost care and carry on such activities under supervision of properly qualified personnel.
- 23.5 The Contractor will promptly remedy damage and loss (other than damage or loss insured under property insurance required by the Contract Documents) to property caused in whole or in part by the Contractor, a Subcontractor, a Sub-subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Contractor is responsible, except damage or loss attributable to acts or omissions of the Sourcewell Member or Project Manager or anyone directly or indirectly employed by either of them, or by anyone for whose acts either of them may be liable, and not attributable to the fault or negligence of the Contractor. The foregoing obligations of the Contractor are in addition to the Contractor's other obligations included herein.
- 23.6 The Contractor will designate a responsible member of the Contractor's organization at the Site whose duty will be the prevention of accidents. This person will be the Contractor's superintendent unless otherwise designated by the Contractor in writing to the Project Manager.
- 23.7 The Contractor will not load or permit any part of the construction or Site to be loaded so as to endanger its safety.

24. HAZARDOUS MATERIALS

- 24.1 If reasonable precautions will be inadequate to prevent foreseeable bodily injury or death to persons resulting from a material or substance, including but not limited to lead based paint, asbestos or polychlorinated biphenyl (PCB), encountered on the Site by the Contractor, the Contractor will, upon recognizing the condition, immediately stop the Work in the affected area and report the condition to the Project Manager in writing.

- 24.2 The Sourcewell Member will obtain the services of a licensed laboratory to verify the presence or absence of the material or substance reported by the Contractor and, in the event such material or substance is found to be present, to verify that it has been rendered harmless. Unless otherwise required by the Contract Documents, the Sourcewell Member will furnish in writing to the Contractor and Project Manager the names and qualifications of persons or entities who are to perform tests verifying the presence or absence of such material or substance or who are to perform the Task of removal or safe containment of such material or substance. The Contractor and the Project Manager will promptly reply to the Sourcewell Member in writing stating whether or not either has reasonable objection to the persons or entities proposed by the Sourcewell Member. If either the Contractor or Project Manager has an objection to a person or entity proposed by the Sourcewell Member, the Sourcewell Member will propose another to whom the Contractor and the Project Manager have no reasonable objection. When the material or substance has been rendered harmless, the Work in the affected area will resume upon written agreement of the Sourcewell Member and Contractor. The Purchase Order Completion Time will be extended appropriately.
- 24.3 To the extent permitted by law, the Sourcewell Member will indemnify and hold harmless the Contractor, Subcontractors, Project Manager, Project Manager's consultants and agents and employees of any of them from and against claims, damages, losses and expenses, including but not limited to attorneys' fees, arising out of or resulting from performance of the Work in the affected area if in fact the material or substance presents the risk of bodily injury or death as described herein and has not been rendered harmless, provided that such claim, damage, loss or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself) and provided that such damage, loss or expense is not due to the sole negligence of a party seeking indemnity.
- 24.4 The Sourcewell Member will not be responsible for materials and substances brought to the Site by the Contractor unless such materials or substances were required by the Detailed Scope of Work.
- 24.5 If, without negligence on the part of the Contractor, the Contractor is held liable for the cost of remediation of a hazardous material or substance solely by reason of performing the Work as required by the Contract Documents, the Sourcewell Member will indemnify the Contractor for all cost and expense thereby incurred.

25. INSURANCE REQUIREMENTS

- 25.1 The Contractor must procure and maintain, at its own cost and expense, until final acceptance of all the Work covered by this Contract, the following kinds of insurance:
- 25.1.1 Workers' Compensation Insurance. A policy complying with the requirements of the laws of the state in which the Project is located.
- 25.1.2 General Liability and Property Damage Insurance. A standard general comprehensive liability insurance policy or a commercial general liability insurance policy issued to and covering the liability of the Contractor for all Work and operations under this Contract, including, but not limited to, contractual and completed operations coverage. The coverage under such policy will not be less than the following limits: Bodily Injury and Property Damage Liability, \$2,000,000 Each Occurrence, \$2,000,000 Aggregate.

- 25.1.3 Automobile Liability and Property Damage Insurance. A policy covering the use in connection with the Work covered by the Contract Documents of all owned, non-owned and hired vehicles bearing, or, under the circumstances under which they are being used, required by the Motor Vehicle Laws of the State in which the Project is located. The coverage under such policy will not be less than the following limit: Bodily Injury and Property Damage Liability, \$2,000,000 Each Occurrence.
- 25.1.4 All Risk Builders Risk Insurance. Where specifically required in the Detailed Scope of Work, the Contractor will provide, before the Purchase Order is issued, Builders' Risk Insurance in an amount at least equal to the Purchase Order Price in a form and by a carrier acceptable to the Sourcewell Member. The cost of such Builders Risk Policy will be reimbursed to the Contractor as a reimbursable task.
- 25.1.5 Pollution Liability Insurance. If a Project involves asbestos abatement encapsulation or other activities involving hazardous materials, the Contractor, Subcontractor or other party responsible for such Work will procure and maintain a liability insurance policy issued to and covering the liability, of the Contractor, Subcontractor or other party engaged in the removal, or handling of hazardous materials, for bodily injury, illness, sickness or property damage caused by exposure in an amount not less than \$2,000,000 per occurrence and \$2,000,000 aggregate. The cost of Pollution Liability Insurance is included in the Unit Prices and will not be reimbursed separately.
- 25.2 The Contractor will provide certificates of insurance. Such certificates will be on a form prescribed by Sourcewell, will list the various coverages and will contain, in addition to any provisions hereinbefore required, a provision that the policy will not be changed or cancelled and that it will be automatically renewed upon expiration and continued in force until final acceptance by Sourcewell, or Sourcewell Member, of all the work covered by the Contract, unless Sourcewell is given 15 days' written notice to the contrary. Upon request, the Contractor will furnish Sourcewell or any Sourcewell Member with a certified copy of each policy.
- 25.3 Contractor must obtain insurance policy(ies) from insurance company(ies) having an "AM BEST" rating of A- (minus); Financial Size Category (FSC) VII or better, and authorized to do business in the States of Texas and Minnesota.
- 25.4 If at any time any of the above-required insurance policies should be cancelled, terminated or modified so that insurance is not in effect as above required, then, if Sourcewell will so direct, the Contractor will suspend performance of the work. If the said work is so suspended, no extension of time will be due on account thereof. If said work is not suspended, then Sourcewell may, at its option, obtain insurance affording coverage equal to that above required, the cost of such insurance to be payable by the Contractor.
- 25.5 Should the awarded Contractor retain a Subcontractor to perform any of the services mentioned herein, it is the Contractor's responsibility to ensure that the Subcontractor(s) maintains the same types of insurance coverage in accordance with the requirements and amounts indicated herein.
- 25.6 Sourcewell, its officers, and employees must be included as an additional insured. Any

Sourcewell Member, its officials, officers, and employees must be included as an additional insured when so requested by the Sourcewell Member.

26. LIQUIDATED DAMAGES

26.1 If provided for in the Request for Proposal, Sourcewell may assess liquidated damages for each day after the Purchase Order Completion Time that the Detailed Scope of Work is not complete. It is understood and agreed by and between Contractor, Sourcewell and the Sourcewell Member, that time is of the essence in all matters relating to Liquidated Damages.

26.2 The liquidated damages will be determined on a Purchase Order by Purchase Order basis.

27. TESTS AND INSPECTIONS

27.1 Tests, inspections and approvals of portions of the Work required by the Contract Documents or by laws, ordinances, rules, regulations or orders of public authorities having jurisdiction will be made at an appropriate time. Unless otherwise provided, the Contractor will make arrangements for such tests, inspections and approvals with an independent testing laboratory or entity acceptable to the Sourcewell Member, or with the appropriate public authority. The Contractor will give the Project Manager timely notice of when and where tests and inspections are to be made so that the Project Manager may be present for such procedures.

27.2 If the Project Manager, Sourcewell Member or public authorities having jurisdiction determine that portions of the Work require, through no fault of the Contractor, additional testing, inspection or approval, the Project Manager will instruct the Contractor to make arrangements for such additional testing, inspection or approval by an entity acceptable to the Sourcewell Member, and the Contractor will give timely notice to the Project Manager of when and where tests and inspections are to be made so that the Project Manager may be present for such procedures. Such costs will be at the Sourcewell Member's expense.

27.3 If such procedures for testing, inspection or approval reveal failure of the portions of the Work to comply with requirements established by the Contract Documents, all costs made necessary by such failure including those of repeated procedures and compensation for the Project Manager's services and expenses will be at the Contractor's expense.

27.4 Required certificates of testing, inspection or approval will, unless otherwise required by the Contract Documents, be secured by the Contractor and promptly delivered to the Project Manager.

27.5 If the Project Manager is to observe tests, inspections or approvals required by the Contract Documents, the Project Manager will do so promptly and, where practicable, at the normal place of testing.

27.6 Tests or inspections conducted pursuant to the Contract Documents will be made promptly to avoid unreasonable delay in the Work.

28. GOVERNING LAW AND VENUE

28.1 The Terms of this Contract will be governed by the laws of the State of Minnesota and all Work will be governed by the place where the Project is located.

28.2 Sourcewell's liability will be governed by the State of Minnesota's Tort Liability act (Minnesota Statutes Chapter 466) and other applicable law.

28.3 All claims and controversies between Sourcewell and Contractor shall be subject to the laws of the State of Minnesota and are to be resolved in Todd County Minnesota.

29. COMPLIANCE WITH LAWS

In connection with the performance of this Contract, the Contractor will comply with all applicable laws, rules and regulations. The parties hereto agree that every provision of law required to be inserted herein be deemed a part hereof. It is further agreed that if any such provision is not inserted or is incorrectly inserted, through mistake or otherwise, this Contract will be deemed amended so as to comply strictly with the law.

30. SEVERANCE

If the Contract Documents contains any unlawful provision not an essential part of the Contract Documents and which will not appear to have been a controlling or material inducement to the making thereof, the same will be deemed of no effect and will, upon notice by either party, be deemed stricken without affecting the binding force of the remainder.

31. LICENSE

Contractor must obtain and maintain all licenses required from all public agencies with jurisdiction over the Work and will keep these documents properly posted at the Site at all times during the performance of the Work.

32. ASSIGNMENT

No right or interest in this Contract will be assigned or transferred by the Contractor without prior written consent of Sourcewell. No delegation of any duty of the Contractor will be made without prior written consent of Sourcewell.

33. CLAIMS AND DISPUTES

All claims or disputes between the Sourcewell Member and Contractor will be resolved by Sourcewell Member's representative.

34. TERMINATION BY SOURCEWELL FOR CAUSE

34.1 Sourcewell may terminate the Contract if the Contractor:

- 34.1.1 persistently or repeatedly refuses or fails to supply enough properly skilled workers or proper materials;
- 34.1.2 fails to make payment to Subcontractors for materials or labor in accordance with the respective agreements between the Contractor and the Subcontractors;
- 34.1.3 persistently disregards laws, ordinances, or rules, regulations or orders of a public authority having jurisdiction; or
- 34.1.4 otherwise is guilty of substantial breach of a provision of the Contract Documents.

34.2 If an unpaid balance of one or more Purchase Orders exceeds the costs of finishing the Work, such excess will be paid to the Contractor. If such costs and damages exceed the unpaid balance, the Contractor will pay the difference to Sourcewell.

34.3 The Sourcewell Member may not terminate this Contract between Sourcewell and the Contractor.

35. NONDISCRIMINATION, EQUAL EMPLOYMENT OPPORTUNITY, AND AMERICANS WITH DISABILITIES ACT

- 35.1 The Contractor will not unlawfully discriminate against any employee or applicant for employment because of race, religion, age, color, sex or National origin, sexual orientation, marital status, political affiliation, or physical or mental disability if qualified. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during their employment without regard to their race, religion, color, sex or National origin, sexual orientation, marital status, political affiliation, or physical or mental disability. Such actions will include, but not be limited to the following: employment, upgrading, demotion, or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation; and selection of training, including apprenticeship. The Contractor agrees to post in conspicuous places available to employees and applicants for employment, notices setting forth the provisions of this non-discrimination clause.
- 35.2 The Contractor will comply with Title I of the Americans with Disabilities Act regarding nondiscrimination on the basis of disability in employment and further will not discriminate against any employee or applicant for employment because of race, age, religion, color, gender, sexual orientation, national origin, marital status, political affiliation, or physical or mental disability. In addition, the Contractor will take affirmative steps to ensure nondiscrimination in employment against disabled persons. Such actions will include, but not be limited to, the following: employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff, termination, rates of pay, other forms of compensation, terms and conditions of employment, training (including apprenticeship), and accessibility.

36. AUDITS

Sourcewell may, at any time after reasonable notice, audit Contractor's records to establish total compliance and to verify the prices charged are in accordance with the Contract. Contractor agrees to provide verifiable documentation and tracking in a timely manner.

37. GRATUITIES

Sourcewell may cancel this Contract if it is found that gratuities, in the form of entertainment, gifts or otherwise, were offered or given by the Contractor or any agent or representative of the Contractor, to any employee of Sourcewell, are deemed to be excessive with a view toward securing a contract or with respect to the performance of this contract. However, paying the expenses of normal business meals or travel to meetings as described and allowed by law, which are generally made available to all eligible school and government employees, will not be prohibited by this paragraph. Samples of software, equipment, or hardware provided to Sourcewell for demonstration, evaluation or loan purposes are not considered gratuities.

38. FEDERAL FUNDS (APPLIES TO WORK ORDERS DESIGNATED BY AN AGENCY AS FEDERAL ASSISTED)
