Michelin utilizes our social channels, which consist of Facebook, Instagram, Twitter, and LinkedIn. Primarily with partnerships, we utilize LinkedIn. We leverage marketing cloud to help provide enriched content based on purchase history, fleet segmentation, and product interests.
37	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	Once awarded the contract, a Sourcewell participating entity would inform the servicing dealer that they are a member of Sourcewell to utilize the contract. From Sourcewell's role, we would ask that the listing of participating entities be updated on a regular basis.
38	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	This is a dealer driven type transaction so the e-procurement process would be predicated upon the servicing dealer.

Line Item	Question	Response *
39	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Michelin provides value added services through a team of field engineers who can provide customers with technical application recommendations, training on tire selection and maintenance and fleet inspection assistance. It is possible to attend Michelin training seminars which are generally offered to Michelin customers via the sales force account manager, typically costs associated with such training participation will be shared between Michelin and the customer.
40	Describe any technological advances that your proposed products or services offer.	The keys to Michelin's product differentiation are our expertise in high-tech materials (polymers, biomaterials, recycling, rubber products, etc.) and cutting-edge industrial processes like 3D metal printing. Michelin equips 90% of its truck tires with radio-frequency identification chips to help fleets locate and monitor their supply in the warehouse and on the road. Michelin has also developed a design called Regenion Tread Sculpture, which uses alternating channel grooves that displace water more efficiently as the tire wears for better grip and braking on wet roads. With Michelin products, the customer will come to appreciate the cost return of investing in a high-quality tire.
41	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	Michelin has committed to reduced consumption of natural resources by using durable technologies to develop tires which can be retreaded multiple times (Michelin Retread Technologies), offering the industry a tremendous saving on disposal and waste processing. Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
45	Do your warranties cover all products, parts, and labor?	No. The Michelin Truck Tire Limited Warranty applies to manufacturing defects of the tire itself, and is not extended to other components or labor. MICHELIN Truck Tires bearing the Michelin name and complete serial or identification numbers, used according to the instructions contained in this Operator's Manual, are covered by the Michelin limited warranty against defects in workmanship and materials for original tread life, or 7 years from the date of purchase, whichever occurs first. If no proof of purchase is available, coverage will be based on the date of manufacture as referenced in Definitions below. At that time, all warranties, express or implied, expire.
46	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Yes, there are restrictions and limitations, but they are typical in the tire industry and are not considered to be adverse. The Michelin Truck Tire Limited Warranty defines conditions that are not covered under warranty. Tires which become unserviceable due to the following conditions are not covered by warranty: Road hazard injury (e.g., a cut, snag, bruise, impact damage or puncture); Incorrect mounting of the tire, tire/wheel imbalance, improper retread or improper repair; Misapplication, improper maintenance, racing, overload, under inflation, over inflation or other abuse resulting in casing damage or fatigue; Accident, fire, chemical corrosion, contamination, tire alteration or vandalism; Flat spotting caused by improper storage; The addition of liquid, solid or gaseous materials other than air, nitrogen or carbon dioxide; Uneven or rapid wear caused by mechanical irregularity in the vehicle, such as wheel misalignment or worn/damaged suspension components, resulting in damage to the under-tread, carcass or steel belts. Note, "ozone", or "weather cracking" is not excluded and therefore, it is covered under warranty, which is unique to the truck tire industry.
47	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Warranties are for manufacturing defects so the warranty repairs would not be included. Because of the quality of Michelin products, our warranty claims are a rarity. Warranty claims represent less than 1% of sales.
48	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcwell participating entities in these regions be provided service for warranty repair?	No. For warranty assistance, the participating entity should contact a Michelin Truck Tire Retailer listed in the dealer locator found on www.michelintruck.com . If additional assistance is required, the participating entity should contact Michelin Consumer Care at 888-622-2306.
49	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	No other manufacturer items are covered by this proposal.
50	What are your proposed exchange and return programs and policies?	A tire which becomes unserviceable due to a condition covered by the workmanship and materials limited warranty will be replaced with a comparable new MICHELIN Truck Tire, for a pro rata charge. The Michelin Truck Tire Retailer will determine the charge by multiplying the percentage of the original usable tread worn by the current selling price at the adjustment location or the price on the current MICHELIN Truck Tires Base Price List, whichever is lower.
51	Describe any service contract options for the items included in your proposal.	Michelin does not provide a service contract option for tires.

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
52	Describe your payment terms and accepted payment methods?	First 15th Prox. terms which is an average of 30 day terms - all invoices in a given month are due on the 15th of the following month.
53	Describe any leasing or financing options available for use by educational or governmental entities.	Michelin does offer a customize tire lease program. However, the program is not included in this offer.
54	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Michelin requires each dealer to use a Government Sales Support Claims Form to verify each sales transaction with the Sourcwell participating entity. The claim form will include information that identifies the entity, the number of units sold, and the price of each unit. The dealer is required to certify the accuracy of the contents on the claim form. A copy of the claim form is in the attachment area of this submission.
55	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcwell participating entities for using this process?	P-card procurement and payment process is accepted by our dealer network. There is typically no additional cost to Sourcwell participating entities for using this process.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
56	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	This offer includes Michelin's full line of products discounted off base price at a product category basis. See attachment for more details.
57	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	We are offering specific discounts for each category of product. Examples: Truck Tires - 60% Passenger/Light Truck Tires - 50% Agriculture - 47% Earthmover & Industrial - 40% Retreads - 50% Tweel - 47%
58	Describe any quantity or volume discounts or rebate programs that you offer.	Volume discounts or rebates are not included in this offer.
59	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Because of our focus on the Michelin brand, we do not currently provide/facilitate sourced products or related services on a level of expectation that we would want to deliver to the customer.
60	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	The pricing we provide is strictly the price for the tire itself. Once awarded the contract, Sourcewell participating entities will become Michelin customers. As such, we provide our customers with engineering support and tire performance reviews on an as needed basis at no additional cost. This is to help our customers maximize the value of the Michelin family of products.
61	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	There is no additional cost to the Sourcewell participating entities for freight, delivery, or shipping.
62	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	There is no additional cost to the Sourcewell participating entities for freight, delivery, or shipping.
63	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Sourcewell participating entities will have the option of on-site delivery or service at the servicing Deliver (point of sale).

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
64	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	Sourcewell's pricing offer will be better than that offered to GPOs, regional cooperative procurement organizations, or any single government entity or school district.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
65	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Michelin's network of dealers are required to file government sales claims for each government sales transaction in the Michelin b2b website in order to get credit for their delivery commission and F.E.T. reimbursement. To successfully complete the on-line claims form, the dealer must include the price at which they sold the tire which has to match the Sourcewell contract pricing that will be uploaded in our system. The dealer will also be required to select Sourcewell as their referencing contract in the claims process. We are then able to create reports from the dealer's on-line input that will give us sufficient detail to support our ability to report quarterly sales to Sourcewell.
66	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	1. Units sold – tracked with our monthly government sales report. 2. Dealer utilization rate – also tracked using monthly report 3. Number of unique Sourcewell participating entities using the contract – tracked by same monthly report
67	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	1.50% of sales under this contract.

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *
68	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	Michelin offers new tires for every type of vehicle including airplanes, automobiles, bicycles, earthmovers, farm equipment, heavy-duty trucks and motorcycles. We also offer airless tires for certain off-road equipment, to include golf carts, ATVs, etc. These tires offer the advantage of no flats resulting in reduced downtime. Additionally, to maximize the Customers assets, we offer state of the art Retreads. Our Retreads follow a consistent, highly audited, nine-step manufacturing process to deliver uniform results. With a Michelin retread, you're getting a high-quality retread that's smart for your budget and environmentally friendly.
69	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	Energy product line offers fuel efficiency. Durable casing technology offers multiple retread capability. Wide based tire innovator replaced two tires with a single tire capable of offering fuel and servicing advantages in addition to vehicle performance advantages. Michelin Commercial Service Network offers commercial customers with highly trained technicians who can service Michelin products and also offer a 24/7 emergency road service assistance.

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.

3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.
4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.

At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
11. Proposer its employees, agents, and subcontractors are not:
