3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

58	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	We are offering a product category (across the board) discount, which is very favorable to Participating Entities.
59	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	The discount across all products is higher/ better than any standard Holland Pump category of discounting. The discount is 12%. PLEASE NOTE: From the outset, our list price is set-up often lower than industry standard.
60	Describe any quantity or volume discounts or rebate programs that you offer.	There is an extra 1% for early payment. In addition, an extra 1% is allowed for prompt payment of orders over \$100,000 USD.
61	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	We will offer options for Participating Entities for Open Market items for each requested quote as requested.
62	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Other than freight, we do not employ charges for pre-delivery inspection or set-up. We provide training at no cost. We do not provide permanent installation services, but we can advise and assist with pump selection through engineering and experience.
63	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	We will research and offer to the Participating Entity the best cost and time effective freight rate available. We assess, with Participating Entity, how to ship on a case-by-case basis with Holland's shipping department. We attempt to utilize our purchasing power with freight companies, and we will pre-pay freight and add to the customer bill unless otherwise instructed.
64	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	With such a flux in fuel costs and other shipping-related expenses in our current economy, we utilize several freight forwarders on a case-by-case basis. These companies specialize in these moves, especially for offshore requirements such as U.S. bases in Guam.
65	Describe any unique distribution and/or delivery methods or options offered in your proposal.	We offer free freight to Participating Entities within Florida.

Table 12: Pricing Offered

66	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	We are offering an additional 2% discount. This is better than our stocking distributors and other cooperative contract discounts moving forward. We see the great value of the Sourcwell contract. Please note that our pricing structure is now a bit different; the list price is lower overall in the market than others at the outset.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
67	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcwell. This process includes ensuring that Sourcwell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcwell. Provide sufficient detail to support your ability to report quarterly sales to Sourcwell as described in the Contract template.	We have a process we will follow as with our other awarded municipal cooperative buying contracts/ agreements. We have a one-person contact with Sourcwell as receiving conduit (Team Lead), with two (two) back-up personnel. All incoming email correspondence for the contract is set-up by rule to go into our Microsoft Teams "Municipal Team" folder/ company file sharing. Our Accounts Payable (AP) Department is a member of the Municipal Team, and they receive alerts for correspondence including purchase orders. Near the end of the quarter, the AP group relays sales figures to the Team. After review, the Team confirms the figure(s) for payment. The Team lead/ contract contact reports back to the contract owner, and the AP group issues appropriate funds to cover the contract fee.
68	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	We update key metropolitan statistical areas (MSA's) twice yearly to check market share with the governing body of the (AEM) Contractor's Pump Bureau pump sales statistics. We also have a monthly upper management meeting to review sales progress versus goals, including municipal sales.
69	Identify a proposed administrative fee that you will pay to Sourcwell for facilitating, managing, and promoting the Sourcwell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	As growing company, we would like to propose a 1% fee; however, we are open to the 2% maximum if Sourcwell deems it necessary.

78	Describe any product or equipment features that improve operator safety.	We offer the Triple Play combination unit. The premise is one hydraulic power pack that can power three type pumps: suction lift, submersible, & jet/ dewatering pumps. This set-up is the choice for confined/ small spaces. This allows the operator more room to work, and to work remotely in potentially hazardous (esp. gaseous) conditions. Also, see below for our related cutter pump.
79	Describe any product or equipment innovations that increase uptime and operator productivity.	We will be offering a specialized portable/ emergency lift station standby diesel cutter pump series that will allow less down time cleaning out debris, especially sewage related items, from the pump casing. Also provides the operator less exposure time to hazardous materials.
