For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Pricing discounts will be considered and calculated based on each particular awarded contract.	*
53	Describe any quantity or volume discounts or rebate programs that you offer.	There is no official volume discount, but the more students we serve, the greater discount we can offer.	*
54	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	N/A	*
55	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like predelivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Equipment: The client may purchase web cameras, headsets, and Occupational Therapy (OT) toolkits from Global Teletherapy, at \$45 per webcam, \$40 per headset, and \$50 per OT toolkit.	*
56	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Shipping costs for toolkits are included in the toolkit price within the US.	*
57	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Shipping costs may differ for toolkits sent to Alaska, Hawaii, Canada, or any offshore delivery.	*
58	Describe any unique distribution and/or delivery methods or options offered in your proposal.	We use USPS delivery services.	*

60	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	The billing department ensures all of the sessions submitted by our therapists follow school policy and are approved for billing. We submit monthly invoices to the schools and get them approved. The therapist's payment is based on the billing they submit. We run payroll once a month for therapists and bi-weekly for W2 therapists. We also audit therapy sessions, compare data from liaison and billing department personnel to see if sessions were billed as mandated. We then calculate the discrepancy between the two (IEP mandates from liaisons. + completed sessions from billing) and compile them into reports that are sent out to the therapists to respond and comment on. Correspondence then occurs between them and the Liaisons determine makeup sessions. These monthly reports are to ensure that students receive their sessions, our billing systems are working properly, and that therapists know that they are being monitored.	*
61	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Once we are awarded a contract and the details regarding student caseloads and hours are collected, we can properly run our monthly reports to see that therapy sessions are aligning with requested needs.	*
62	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Global Teletherapy will discuss to identify a proposed administrative fee to pay Sourcewell for facilitating, managing, and promoting the Sourcewell Contract if we are awarded a contract.	*

			trained in their area of practice to ensure best practices are followed. The following are
			descriptions of each of the service options:
			Direct Individual Counseling: Mental Health
			clinicians are assigned to work with a student
			one on one targeting a specific skill deficit(s) as
			listed on the student's IEP and work towards
			reaching a goal. Service minutes can range
			from 30 – 60 minutes per week, every other week,
			or monthly depending on the student's
			individual needs.
			Direct Group Counseling: Mental Health clinicians are assigned to work with multiple
			students
			in a group setting. The clinician groups
			students of similar age/grade and skill level together to
			work on similar areas of need, such as
			coping skills, emotional regulation, and/or
			social communication skills. Each student has a

			Groups contain 2 to 8 students at a time.
			Service minutes can range from 30 – 60 minutes per week, every

			clinicians are assigned to work with the
			student
			related to behavior goals on the IEP and address Behavior Intervention Plan goals. The
			therapist meets with the student one on one
			and often utilizes the support of the learning

71	Describe your screening process for pairing service providers with patients or clients for teletherapy services.	Our therapists are hand-selected for quality assurance and have a minimum of two years of experience with K-12 students with IEPs. They must complete comprehensive training, designed to instruct them how to use GT platforms and programs for interactive therapy, as well as to instruct them on company policies, including the privacy of information (HIPAA, FERPA). As a follow-up to this training, each therapist participates in a one-on-one post-training session to ensure the therapist is ready. All therapists utilize the same evidence-based techniques and strategies that are used in traditional onsite therapy. Our policy requires therapists to complete subjective and objective documentation daily for each student. Aside from being licensed in each student's respective state and having experience with online therapy, Global Teletherapy's therapists are highly experienced in developing and implementing IEP goals based on a student's individual needs. Our Liaisons and Lead Therapists are constantly in contact with therapists to ensure all goals and objectives are being met. Our therapists contact the relevant teachers and school staff via phone, email, and/or videoconferencing to confer with them, interview them, and obtain data. Student interviews are typically completed through videoconferencing technology, as is student observation. The therapist is given access by the school to the electronic records of the student, and the therapist may request access to additional records as needed. Through these mediums, the therapists are able to conduct functional assessments and provide appropriate interventions for the student if needed. We are confident that our qualified therapists will meet the needs of each student and maximize their potential.
72	Describe your method of delivery for proposed teletherapy services (e.g., secure video connection, web portal, online chat, two-way live video, other).	Global Therapy provides its services through third-party platforms created, maintained, updated, and provided by Citrix/GoToMeeting and Zoom. The Maintenance & Support services offered by Global Teletherapy are limited to assisting the client in working with the Third-Party Provider to troubleshoot and resolve any issues that affect the provision of the Services. Global Teletherapy has chosen to use the Third-party Provider platforms because of its reliability and the availability of dedicated, professional technical support in the unlikely event a technical problem arises.
		Global Teletherapy will work with users to set up and troubleshoot new equipment. Additional equipment (beyond what is provided to the user as stated in the Agreement) is the responsibility of the partnered school. Upon school's request, Global Teletherapy can order necessary equipment but users will be invoiced for such equipment.
		Global Teletherapy will not begin services until all of the below criteria are met in order to ensure student success: Computer Set-Up: Computer with monitor, camera, speakers, and microphone capability
		Operating system: Windows XP with 3P3 or later Windows 7 or later Mac OS X MacOS 10.7 or later
		Web Browser: Windows: IE7+, Firefox, Chrome, Safari 5+ Mac: Safari 5+, Firefox, Chrome
		Internet connection: 5 Mbps
		Software: Zoom Desktop App JavaScript enabled
		Hardware: 4GB or more of RAM
		Supervision: Students are expected to be accompanied by their learning coaches at all virtual therapy sessions. Learning coaches will provide the following support to students: Ensuring that the conferencing connection with the remote-therapist is functioning. Contact the therapist via phone if necessary. Remaining in the sessions to ensure that any technology glitches are reported and fixed. Providing cues, prompts, and models for the student upon therapist direction. Helping relay information between the school staff and the therapist related to scheduling, absences, or school functions.
		The learning coach shall act under the directive of Global Teletherapy's Therapist in assisting the student.
73	Describe how your organization maintains security of patient data and alignment to applicable legal, regulatory, or professional requirements, if any.	Global Teletherapy values the privacy of its therapists and students. We ensure patient data is secured and protected. Global Therapy and its Sourcewell partners will protect each other's Confidential Information from unauthorized use, access, or disclosure in the same manner as each protects its own Confidential Information, but with no less than reasonable care. PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

- 1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
