3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. | 54 | Describe any leasing or financing options available for use by educational or governmental entities. | ClearSpan has capital or operating leases, loan notes, capital financing available in house or with one of our outside financing firms we have partnered with. ClearSpan has the ability to offer different options to educational and government entities based on our own working capital for in house financing or the wide range of banks and leasing companies what we have worked with over years. |
| 55 | Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). | 56 | Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process? | We are unable to accept the P-card procurement payment process. |

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

| Line Item | Question | Response * |
|-----------|---|---|
| 57 | Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response. | ClearSpan has provided the Sourcewell review board with a "line-item pricing" schedule (see attached excel sheet titled pricing). On the excel sheet you will see a breakdown of all included SKUs, a brief description of each part. ClearSpan published retail price and discounted Sourcewell price. ClearSpan is presenting this proposal with the understanding that the proposed Sourcewell pricing included in this proposal is the ceiling pricing. At no time will ClearSpan offer products or services under this contract at prices above the ceiling price unless a specific request has been made and approved by Sourcewell in advance to modify the contracted pricing. Product and services categories included in the proposal are structures, doors, anchors, ventilation, lighting, heating, freight, installation services, engineering services, restocking fees on standard stock items, bond fees and trade in specifications (please see tabs along the bottom of the excel sheet). |
| 58 | Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range. | Pricing included in this proposal ranges from 6% off MSRP to 40% off of MSRP depending on the product/service offering. Doors, anchors, ventilation, lighting and heating are 15% off MSRP. Installation services are 10% off MSRP. Engineering services are 12%-30% off MSRP based on the project. Structures are 15% off MSRP. CFSI also works with numerous trucking companies to offer the lowest possible shipping costs. |
| 59 | Describe any quantity or volume discounts or rebate programs that you offer. | The pricing included in this proposal is the best pricing ClearSpan offers municipalities, universities or school districts. There is a possibility that ClearSpan may be able to offer volume discounts above and beyond Sourcewell member pricing on a case by case basis. ClearSpan does not have an established volume discount as it is a typical for ClearSpan to provide more than one structure at a time to a municipal client. |
| 60 | Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request. | ClearSpan will provide a quote per request for all "sourced" products or related services that will be integrated into the Clearspan metal structure. |
| 61 | Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer. | In the event that Sourcewell member requires ClearSpan to collect State or local sales tax, an additional fee would apply. All other acquisition costs are included on the provided excel sheet. |
| 62 | If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program. | ClearSpan shipping charges are based on a per truck, per mile fee from our manufacturing facility in Dyersville, Iowa. The rate per mile is included in the excel pricing spreadsheet under the freight tab. ClearSpan will ship anywhere in the United States and US Territories. Shipments to Alaska, Hawaii, Canada and US Territories will be priced on a case by case basis based on current carrier rates for overseas shipping containers. |
| 63 | Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery. | In order to provide the best possible shipping rates for Sourcewell members shipments to Alaska, Hawaii, Canada and any offshore delivery will be priced on a case by case basis on current carrier rates for overseas shipping containers. |
| 64 | Describe any unique distribution and/or delivery methods or options offered in your proposal. | N/A |

Table 12: Pricing Offered

| Line Item | The Pricing Offered in this Proposal is: * | Comments |
|-----------|---|--|
| 65 | c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments. | ClearSpan is a current contract holder with Sourcwell (091319-CSS) and has enjoyed an increased presence in the municipal and educational industries as a result of this contract. We will continue to offer the best pricing through Sourcwell in order to strengthen not only our sales but our relationship with Sourcwell. |

Table 13: Audit and Administrative Fee

| Line Item | Question | Response * |
|-----------|--|---|
| 66 | Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcwell. This process includes ensuring that Sourcwell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcwell. Provide sufficient detail to support your ability to report quarterly sales to Sourcwell as described in the Contract template. | All Sourcwell projects are currently and will continue to be handled by a single point of contact in order to ensure consistency and accuracy for pricing and reporting. All order history and documentation will be stored and readily accessible in our billing system, which will ensure all pricing is accurate. The one point of contact and one system will ensure accuracy of the quarterly reporting process. ClearSpan contracting and accounts payable department will work with the single point of contact to complete the reporting process and remit the proper administrative fee to Sourcwell. |
| 67 | If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract. | ClearSpan's primary metric that will indicate whether or not we are having success with this contract will be sales growth year over year. We will constantly compare our current year to date sales with previous year's progress to gain an understanding of our success in marketing and explaining the benefits of working with ClearSpan through our awarded Sourcwell contract. Our one point of contact will allow us to track, monitor and review all Sourcwell orders. ClearSpan will also continue to track the number of inquiries and orders received from the clients that were aware of ClearSpan through Sourcwell website and other marketing materials. This will help is gauge the exposure we receive by being a part of Sourcwell above and beyond our own marketing efforts. |
| 68 | Identify a proposed administrative fee that you will pay to Sourcwell for facilitating, managing, and promoting the Sourcwell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.) | CFSI will pay Sourcwell an administrative fee 2% under this contract. |
