-----------	----------	------------

10	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	<p>Since its inception in 1948, Vermeer Corporation has grown from a one-person Iowa operation, to an international organization that manufactures agricultural, construction, environmental, and industrial equipment. Vermeer Corporation has been in the industry since it was founded in Pella, Iowa, in 1948. Gary Vermeer once said, "Find a need. Fill that need with a product built to last. And simply build the best!" This is a guiding principle for Vermeer. Stemming from this philosophy, Vermeer provides its customers with equipment through a dedicated independent, authorized dealer network offering sales, support, service, and parts. Vermeer is committed to its vision of "Equipped To Do More"</p> <p>In the early years and shortly thereafter, Vermeer developed many "firsts" including the world's first large round hay baler, tree spade, and stump cutter. Now more than 7 decades later, Vermeer Corporation is still developing new products and is an industry market leader in brush chippers, tub and horizontal grinding equipment, composting equipment, trommel screens, trenchers, directional drills and mini skid steers. As a leading trencher equipment manufacturer, Vermeer trenching equipment has been utilized on road construction and mining projects, within the equipment rental industry, and various other job applications.</p> <p>Vermeer corporate offices and manufacturing facilities are in Pella, Iowa, U.S.A., and have 194 dealerships located worldwide. This includes 130 dealerships covering all the United States and 20 dealerships that cover all of Canada. The Vermeer philosophy strongly reflects the Company's character, which encompasses the solid foundation built from decisions made in the past and planning for the organization's present and future. Vermeer's 4P philosophy, Principles, People, Products and Profit, is at the forefront of Vermeer. These principles steer the hub for Vermeer. Now, Vermeer is recognized within our industry as the company that "sets" the standards for quality and customer support.</p>
11	What are your company's expectations in the event of an award?	<p>In the event the Sourcwell evaluation team determines that Vermeer is a company that can provide great value to its members and because we believe Sourcwell has its own unique attributes, we would like to continue our efforts in promoting the overall program. This would include continuing our efforts to design, enhance and build quality products that offers the most value over the life cycle of any given product. We plan to enhance our efforts to promote the Sourcwell program, which we feel also provides great value to any existing or potential member. Vermeer would put a strong focus on training; utilizing Sourcwell's assets (web training, promotional literature, contract support and the new Marketplace) and our assets (internal training links, education of sales representatives on the street, and attending trade shows promoting the Sourcwell Contract). The use of periodicals, mass mailings, newsletters and web presence will also be utilized.</p>
12	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	See Document: Financial Strength
13	What is your US market share for the solutions that you are proposing?	<p>Market Share for North America:</p> <p>Horizontal Grinders: Greater Than 20% Tub Grinders: Greater Than 30% Compost Turners: Less Than 15% Trommel Screens: Less than 15% Forestry Tractors: Less than 10% Whole Tree Chippers: Less than 20%</p>
14	What is your Canadian market share for the solutions that you are proposing?	The information in Question 13 is for all of North America (United States & Canada).
15	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	No

16	<p>How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization.</p> <p>a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned?</p> <p>b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?</p>	<p>Vermeer Corporation is a manufacturer with production facilities in Pella, Iowa, Des Moines, Iowa and wholly owned manufacturing subsidiaries in Freeman, SD, Greenville, SC and Okahumpka, FL. Vermeer products are sold, distributed, and supported by independent, dedicated and authorized dealer network, a true extension of Vermeer's ideals and sales efforts.</p> <p>Vermeer's dealers are dedicated to Vermeer and Vermeer's full Product Line. This contrasts with most dealerships in our industry which represent multiple products from multiple manufacturers. Having "dedicated" dealerships provides greater benefits to the end users and to the members of Sourcewell. Each Dealer has multiple field sales personnel and technicians that specialize in this complicated machinery industry. Each dealer provides complete parts and service capabilities for all Vermeer equipment they sell.</p> <p>The sales and service specialists are trained by Vermeer annually and network with each other, so all operate as one group, providing consistent value to our customers and Sourcewell members.</p> <p>The entire Vermeer dealership network has a limited number of independent principle owners and works directly with Vermeer Corporation. Vermeer Corporation and Vermeer dealers work together with professionalism and shared values.</p>	*
17	<p>If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.</p>	<p>Vermeer holds a certificate of existence to do business in the state of Iowa, along with a certificate of insurance.</p> <p>See Document: Insurance</p>	*
18	<p>Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.</p>	<p>None</p>	*

Our dealers will be the primary source to build customers' awareness of this Sourcewell contract and procurement method. We have very intentional training and support efforts in place to continually improve our dealers' understanding, embracement, and success of our Sourcewell contracts.</p> <p>Digital marketing is also a priority for Vermeer. Since 2016, Vermeer has proudly included a section within our website dedicated to describing the benefits of Sourcewell, cooperative purchasing and promoting Vermeer's inclusion in the Sourcewell family of awarded vendors. We reference resources directly from Sourcewell to support this content, including the "The Sourcewell Advantage" video to quickly describe the benefits and to build awareness and comfort for the viewers.</p> <p>In developing the page content for Vermeer.com, we utilized strategic keywords based on common terminology around the cooperative buying process. By including this in our page copy, it will help to capture the audience searching for cooperative buying solutions on equipment buying and drive that search traffic to this page: https://www.vermeer.com/na/equipment/financing/government-solutions</p> <p>See Document: Marketing</p> <p>In addition to the dedicated page currently on Vermeer.com for Sourcewell information, Vermeer will be adding information on each specific product page for applicable models to direct customers back to the Sourcewell page on Vermeer.com. This will increase awareness of not only Sourcewell, but let customers know during their research phase that the model can be purchased through a Sourcewell contract.</p>
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>As mentioned above, we have a significant Sourcewell presence on Vermeer.com and will continually monitor our effectiveness in driving traffic to our pages through search engine optimization. We have a dedicated Sourcewell e-mail available for members that goes directly to Vermeer's Sourcewell support team. We are continually increasing our search engine marketing efforts and will begin adding more Sourcewell and public sector cooperative purchasing terms into our ad sets moving forward to further increase awareness. In addition, we will also use our primary social channels (Vermeer Tree Care Facebook page with over 46,000 followers TreeViews.com blog) to further drive awareness of our Sourcewell contract.</p> <p>We will continue to share customer's stories highlighting those customers who have utilized Sourcewell contracts to purchase their Vermeer equipment. We are also actively working on better aligning with our sales team to be alerted of products purchased through the Sourcewell contract so we can look for more opportunities to share more stories throughout the year. Within our blogs, we can tag these customer stories with Sourcewell terminology to make it easier to search for and raise awareness; then link to these stories to our informational page on Vermeer.com enhance credibility.</p> <p>As an example, Vermeer featured a customer story on our blog and shared to our Facebook page about the purchase of a horizontal grinder using a Sourcewell contract. This post reached over 12,000 people, received over 130 likes and was shared 17 times. As we continue to hear of customers who take advantage of the Sourcewell opportunity with Vermeer, we will continue to endorse those stories on our social channels and utilize them as testimonials to the value of purchasing Vermeer equipment through Sourcewell.</p>

38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	<p>We view Sourcewell as the industry leader within the Cooperative Purchasing industry, which is the role we desire Sourcewell to maintain. We look to Sourcewell to continue to build awareness and acceptance among public procurement professionals, and we appreciate the tradeshow presence that Sourcewell has been committed to providing. We also look to Sourcewell to keep the vendor community informed on pending legislation, as well as any legal challenges relating to cooperative purchasing across US and Canada. The information provided on sourcewell-mn.gov is a helpful resource for both members and vendors, and to promote our contract and display current information on a Vermeer landing page.</p> <p>The contract administrator and contract administration specialist roles at Sourcewell are invaluable to the vendor from the Contract Launch and VBM to the report requests and weekly membership updates. We look to the contract administrator for assistance when we need government-to-government conversations, additional training whether it be a University, Sales Accelerator event or a vendor training event. In addition to all the support provided through trade shows and overall passion for Sourcewell, Vermeer will do its part through utilizing these great people resources and building upon existing relationships. We will promote the services that they provide to our dealership network. We will utilize the Sourcewell marketing materials at applicable trade shows.</p> <p>At Vermeer, our Sourcewell contracts are placed as our main go-to-market strategy in the public sector. We have integrated Sourcewell into our company culture, and continue to invest in training and support resources available to and for our dealers. Along with a dedicated internal governmental department, Vermeer has partnered with GST - Government Solutions Team, LLC as an additional support resource. GST specializes in providing factory sponsored, focused efforts to increase dealers' confidence and competency related to Sourcewell, and travels out in territories to encourage and mentor salespeople and governmental fleet customers about Sourcewell. GST helps our dealers overcome customers' objections to using Sourcewell as a buying method. Our investment in GST is another example of Vermeer's commitment to doing all we can to make our Sourcewell contracts successful.</p>
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Vermeer is currently considering the feasibility of implementing an E-procurement and E-marketplace system.

40	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Vermeer provides product training for operation and maintenance on our entire product line. The training is standard and is included with each new product delivered. Local dealers will conduct overview sessions or one on one reviews with operators. New product introductions and training programs are performed on a regular basis, for both existing and prospective customers. Offering localized ongoing training and support is another benefit of having long term dedicated dealers and specialists throughout the United States.
41	Describe any technological advances that your proposed products or services offer.	Vermeer is considered to be the innovator within the industry creating newer, more efficient products. We are continuously developing environmental and economic features in our products. Each product has its own features and benefits. Life cycle costs and safety are the key drivers used during the engineering and enhancement of all our products. Vermeer has designed many safety features into our products and makes them standard, not optional, features in all our products. The Vermeer website provides extensive product information and can be cross referenced by equipment type, i.e., construction or environmental and by industry (gas, electric, etc.). This provides the members with information that is specific to their application and helps make the purchasing decision more efficient. A local Vermeer dealer can be located using the "Dealer Locator" feature on the website.
42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>Vermeer has developed and implemented an Environmental Management System (EMS) that has been recognized by the U.S. EPA, the IDNR, and the Governor's office as an industry model for environmental excellence. Key elements of our Environmental Management System include:</p> <p>Corporate Vision – Following the "Stewardship Principle" of our "4-P Philosophy" we are committed to being good stewards of our resources by being "Resource Smart." Our desire is more than just being compliant; it's going above and beyond compliance to ensure that our activities and products have a positive impact on the global environment we all share. That's not only in our company efforts but also what our company is developing as a part of our products.</p>

Energy Reduction – Vermeer has committed to reduce our energy footprint by 25% by 2025 by partnering with the US Department of Energy’s Better Plants Program.

A 870kW solar field was installed and in operation in 2016 which will provide approximately 5% of Vermeer’s total electrical usage.

Lighting technology has been upgraded in several locations to energy efficient LEDs as well as motion sensors and variable lighting depending on the time of day and natural light.

Resource Conservation is achieved in three ways...Reduction...Reuse...and...Recycling. Multiple resource conservation initiatives have been implemented both internally and externally to positively impact each of these conservation mechanisms.
In 2021, more than 76% of our waste was recycled.

About 3000 pounds of organic waste is composted every month.

Since a 2006 baseline year, Vermeer has reduced water usage by 40 percent.

Pollution Prevention – Vermeer has implemented multiple layers of pollution prevention mechanisms across our campus to minimize risk of environmental pollution from our operations. Recent additions include:

Our manufacturing and assembly factories have been upgraded with state-of-the-art steel cutting laser equipment and emission filtration devices which have resulted in a 42 percent decrease in particulate air emissions.

All shot blasting of parts and machines is done in an enclosed area and controlled with pollution control equipment.

Vermeer utilizes LEAN manufacturing principles and promotes Kaizen training and events to reduce waste and build efficiencies in the manufacturing process.

Community Outreach – is the very essence of what environmental stewardship is about. Examples of Vermeer’s Community outreach efforts include:

Annual waste collection days during Earth Day for the local community.

Environmental education grants

Environmental Educational Tours and Programs (Teachers / Students / Community)

Support volunteerism for disaster clean-up and recovery efforts

Environmental Internships

Partnerships with colleges for technical educational programs that benefit the environment.

Product Innovation – Vermeer is driven to support our customers, local communities, and global nations, with exciting new products that enable them to be successful in the current and newly emerging recycling and resource conservation markets such as:

- Bio-waste conversion to energy and ethanol
- Geothermal applications
- Wind energy
- Water quality
- Waste processing and composting

Vermeer products are currently being used to install and maintain emerging alternative energy sources which reduce our reliance on fossil fuel power. The Vermeer line of organic recycling equipment – including whole tree chippers, horizontal and tub grinders, and compost turners – process organic waste quickly and efficiently, so that it can be turned into useful end product, and our utility installation products help bring energy sources to the grid. Whole tree chippers and horizontal and tub grinders are being used to process wood waste into biomass for power generation facilities.

From soil amendment to erosion control, compost is utilized in a variety of applications and plays an important role in today’s world. Vermeer compost turners introduce oxygen into the compost pile, helping speed the decomposition process.

Horizontal directional drills are being used to help install loops for residential geothermal heat pump systems, while trenchers and directional drills are helping to bring wind energy from the farm to the grid. For the installation of commercial solar fields, Vermeer offers a solution in the PD10 pile driver for fast, easy installation of solar panels.

Innovations in Vermeer products help reduce environmental impact, with features such as

		<p>Ecolde™ engine control system on select brush chippers that monitors engine inactivity to help reduce fuel consumption and noise.</p> <p>Vermeer is puts environmental stewardship into the design and manufacturing of its products. Some recycled steel is being used in our products, and we're exploring ways to integrate more recycled plastics and rubber components. We've also made a conscious effort to begin incorporating engine hoods and shields made from recycled ABS plastic into some of our product designs. In addition, our manufacturing and assembly factories have been upgraded with state-of-the-art steel cutting laser equipment and emission filtration devices which have resulted in a 42 percent decrease in particulate air emissions.</p> <p>Future Goals – Our continued efforts to minimize waste and conserve natural resources will ensure our operations remain environmentally sustainable. The focus will be:</p> <p>Continue to focus on energy improvements to meet or exceed our 25% goal for reduction in electrical usage.</p> <p>Complete a water usage analysis and set new goals for reductions and reuse.</p> <p>Develop a longer-term sustainability process by reviewing and selecting a sustainability partner or tool to help plan and drive our next steps.</p>
43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	None
44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	<p>Vermeer has a small business partner who is certified HUBZone, certified Service-Disabled Veteran Owned Small Business (SDVOSB). With this program, agencies can purchase equipment for their underground/specialty excavation needs within the small business set aside parameters. This program will incorporate a third party and any fees associated with that third party.</p> <p>Mary Andringa, daughter of Vermeer's founder Gary Vermeer has been involved in the business since 1982. Mary has served in many leadership roles including CEO and currently Chair of the Board. Mary has been a passionate ambassador for manufacturing, continuous improvement and global trade. One of 18 private sector members of President Obama's Export Council, representing manufacturing on important trade matters. Served two-year term as chair of the National Association of Manufacturers (NAM), the nation's largest manufacturing association, leading efforts to promote a stronger manufacturing industry. Past member of the Export-Import Bank Advisory Committee. Inducted into Industry Week's Manufacturing Hall of Fame.</p>
45	What unique attributes does your company, your products, or your services offer to Sourcwell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcwell participating entities?	<p>Vermeer Corporation celebrates 7 decades of manufacturing. From modest beginnings, quality product innovations and demand has allowed the company to expand offering in more than 60 countries. Our full line is considered the innovator of quality products within the industry. The reputation of the Vermeer brand allows for typically higher resale of used equipment bringing more value to the governmental agency. Vermeer's product support is among the best in the industry, enabling the equipment investment to last longer, again adding value. Vermeer implements a training program for customers helping to maintain a safe work environment for the operators. Vermeer is the only supplier that can offer such a wide variety of equipment.</p>

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
46	Do your warranties cover all products, parts, and labor?	All materials and labor are covered as described in manufacturer Warranty Statements. See document: Warranty
47	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Standard Warranty is subject to one full year or 1,000 hours, whichever comes first as described in Manufacturer Warranty Statements. Extended warranties for parts and/or labor are available for a variety of terms and hours.
48	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	The Standard warranty repair or replacement must be made at the dealer location as described in manufacturer Warranty Statements. Extended warranties and preventative maintenance programs are available that would include some travel time.
49	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	We have the facilities and technicians available to perform warranty throughout the entire United States and Canada. Sourcewell entities will be provided service/warranty repair in our dealer's shops or on the job site when applicable.
50	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Warranties will be passed on to the original equipment manufacturer.
51	What are your proposed exchange and return programs and policies?	Vermeer routinely accepts trade-ins for new equipment. The value for a specific piece can be discussed with a member and their local Vermeer representative. With the warranty we provide combined with a member's ability to try and/or see a piece of equipment operate in their local area, the need for simply returning or exchanging a product is not generally applicable to the type of equipment we provide.
52	Describe any service contract options for the items included in your proposal.	Service contracts are available for purchase. It is marketed as Confidence Plus® with standard, base, and premium coverage options. See document: Warranty

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
53	Describe your payment terms and accepted payment methods.	Payment Terms are Net 30. Cash, Credit, or Financing and Leasing available.
54	Describe any leasing or financing options available for use by educational or governmental entities.	A variety of leasing programs are available. This includes standard leases as well as leases with different purchase options at the end of the term. Purchase Options using predetermined or fair market values can be used to tailor monthly payments to a member's budget. Rates and terms can vary and be tailored to the members needs and based on their application.
55	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Transaction documents will vary by dealer location, but typically a signed sales order and/or purchase order is acceptable.
56	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	If the P-card is associated with one of the major charge card issuers, then the P-card can be used for parts and service at multiple dealerships. Standard card issuer fees apply.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can

be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
57	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Vermeer is offering percentage discounts for the offering in the Recycling and Repurposing Equipment RFP, up to 10%. There is a pricing list included with the RFP that incorporates the appropriate and stated discount for each unit and options for each model. The price list utilizes model numbers and sales codes rather than SKU numbers. In order to determine total price, the Vermeer dealer will utilize the discounted list price on the price list and provide freight and prep depending on the model. We will continue to work with Sourcewell to refine this method if needed. See document: 050119-VRM Pricing File
58	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	For equipment related to this RFP, discount is up to 10% off of a "list price" similar to MSRP. Due to volatility in the supply chain since 2021 and delayed lead time, pricing can be increased at a maximum of 4% per quarter between the PO being placed and delivery. Price increases are currently determined on a quarterly basis on Jan. 1, April 1, July 1 and Oct. 1. Members should consult with local dealer on the estimated delivery.
59	Describe any quantity or volume discounts or rebate programs that you offer.	Our dealership network has the authority to consider volume discounts, member loyalty and may offer additional discounts at their discretion. Please contact the appropriate Vermeer Dealer or the Vermeer Corporate Accounts Department to discuss.
60	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Sourced goods will be provided through the Vermeer dealership with the following pricing maximums: Cost Plus up to 18% trailers Cost Plus up to 35% all other items
61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Equipment Parts-Vermeer Corporation at 1210 Vermeer Road East in Pella, Iowa is the sole source manufacturer of Vermeer Genuine Parts. The Vermeer dealership network is the sole source distributor for genuine Vermeer parts that are recommended for use on all equipment. The pricing should not exceed the suggested list price. There are some specific local and state taxes that might be included in the acquisition price from the dealer. A few examples are the following: RDO Pacific in Oregon has a state privilege tax of 0.5% on all towable equipment. RDO Vermeer Pacific in California, which is part of the Vermeer dealership network includes the following additional charges: CARB registration fee for any unit with a 50 hp engine and over. CARB is California Air Resources Board. This is government mandated. The dealership begins the registration process as soon as they can because the machine must sit until the registration process is complete or there is risk of being issued a citation. Tire tax of \$1.75 per tire. This is required for anything with tires. Registration fee for units that must be licensed and plated. This is done as a courtesy to the customer. If a customer prefers to take responsibility for this on their own, then the dealer does not charge a registration fee.
62	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	The freight cost for each piece of equipment is determined by the dealer based on the size and distance from the manufacturing location. The member's final price should be determined by using the contract price of the equipment and dealer freight and prep. The freight and prep amount also includes delivery from the dealership to the member.
63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	We have Vermeer dealerships covering Alaska, Hawaii, Canada, as well as throughout the globe. The Vermeer dealer works with Vermeer Corporation's logistics team to ship the product from the manufacturing plant to their location. The dealer then preps and delivers the equipment to the customer.

64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Due to the nature of our product and business model, Vermeer is set up to distribute and deliver through the Vermeer dealership network. The service, longevity, and expertise of this dealership network along with the relationship with Vermeer Corporation is what makes it a unique distribution channel.	*

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Each dealer receives funding from Vermeer Corporation for products sold and delivered to Sourcewell members. To receive this funding the dealer must submit paperwork to the Vermeer Corporate Accounts Department, stating the Sourcewell program was utilized and who was the purchasing member. This paperwork along with submitted equipment registration is used as an accounting tool and in our audit process. Vermeer Corporation supplies marketing materials and schedules training sessions, allowing Vermeer to educate the Vermeer Dealers in the proper use and promotion of the Sourcewell program.	*
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Vermeer has a 14 year sales history with NJPA/Sourcewell with consecutive years of year over year growth. We base our success on the contract by evaluating growth from the previous year, along with dealer engagement with quotes, sales and training.	*
68	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Vermeer Corporation is proposing a 0.75% administrative fee to be paid to Sourcewell when reporting monthly equipment sales. This fee will match up with our other contracts and allow Vermeer Corporation to assume 100% of this fee and will not ask dealers share in the fee as they do currently.	*

Addenda, Terms and Conditions

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.
3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.
4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.
5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.
6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.
7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.
8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.
9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.
10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
11. Proposer its employees, agents, and subcontractors are not:
 1. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: <https://www.treasury.gov/ofac/downloads/sdnlist.pdf>;
 2. Included on the government-wide exclusions lists in the United States System for Award Management found at: <https://sam.gov/SAM/>; or
 3. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated

by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. This signature will not be denied such legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation. - Chad Tousey, Corporate Account Manager, Vermeer Corporation
