1. TERM OF CONTRACT

A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below.

EXPIRATION DATE AND EXTENSION. This Contract expires August 18, 2027, unless it is cancelled sooner pursuant to Article 22. This Contract allows up to three additional one-year extensions upon the request of Sourcewell and written agreement by Supplier. Sourcewell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

B. **SURVIVAL OF TERMS.** Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. **SALES TAX.** Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. **HOT LIST PRICING.** At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

Typically, a Participating Entity will issue an order directly to Supplier or its authorized

subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted

price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Line Item	Question	Response *
22	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response. 25	Describe any quantity or volume discounts or rebate programs that you offer.	We do not offer any volume discounts at this time.
26	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". Accessory items such as lighting systems, doors and ventilation fans are sourced from a variety of vendors whom we have strong relationships with. These items will be broken out as line items on our formal quotation along with their associated costs.
27	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Freight and installation services are not included on our pricelist. Both of these items are job / location specific and will be quoted on a job by job basis.
28	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program. Table 6: Audit and Administrative Fee

Line Item	Question	Response *

Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Our SOAR process (Sales Order Acceptance and Review) is the first thing each new order goes through, This is our way of making sure we understand the customer's expectations and in the case of Sourcewell projects, this would become our self audit process.

SOAR process (see above) Budget review and acceptance (pricing) Assignment to a project manager Weekly production meetings (ship dates and key milestone date establishment)

66	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	Our marketing strategy for this contract is to target municipalities (especially in northern tier states with snow) who are in need of salt sheds or municipal storage facilities.
67	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>Rubb Building Systems has a secure CRM system which stores the digital data we hold for customers, including would-be clients who are members of Sourcewell. This data would only be used/processed within the relevant legal frameworks and with marketing consent. This enhances marketing effectiveness by respecting the clients' marketing preferences, while developing and providing information relevant to their needs, when they need it. Rubb internally manages and controls our Website and all its content. Rubb also self-manages our Social Media channels(Facebook, Twitter, LinkedIn, YouTube, and Instagram). Upon being contracted by Sourcewell, Rubb would develop "closed" Social Media channels dedicated to Sourcewell membership and run campaigns based on member requirements and learned preferences.</p> <p>Rubb operates in a "continuous improvement" environment. We use our technology and gather data with the ongoing goal of improving the customer journey. Once contracted by Sourcewell Rubb would set up a system to separately manage all Sourcewell customer/member data.</p>
68	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	A Sourcewell contract will be another valuable tool in our sales kit. After our sales force is fully briefed on the mechanics of Sourcewell, we can begin the process of educating your members and our customers so they understand the benefits of using this contract vehicle. Namely, giving our customers the opportunity to bypass the formal bidding process, shortening up the bid cycle time and affording them the opportunity to purchase what they want. We envision a targeted campaign to market our salt and sand storage buildings along with Rubb's multi-purpose storage facilities to municipalities and individual states.
69	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Because Rubb structures are somewhat customized and must meet local building codes it is vital that all orders go through the sales team.

70	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Upon installation of a Rubb building we offer a “preventative maintenance and basic repair” training whereby we show the POC how to best maintain and perform basic repairs. This training is free. Of course the Rubb Service Department is always available to answer questions and provide guidance on any issues.
71	Describe any technological advances that your proposed products or services offer.	Rubb has patented the Thermohall insulation system (see attached) which is the most efficient and effective building insulation system on the market. Essentially Themohall is an air-tight thermal blanket which envelops the structure thus greatly reducing condensation and air infiltration. This has become a true “game-changer” for Rubb and its customers. Rubb is also able to incorporate solar energy into the mechanical system of our buildings.
72	Describe any “green” initiatives or Environmental, Social, and Governance (ESG) values that relate to your company or to your products or services, and include a list of the certifying agency for each.	See attached above on Rubb’s ability to integrate solar heat/energy into our buildings. Rubb strives to ensure that our structures are fully reusable across the sectors we serve. We are also working on achieving 100 per cent recyclability for all materials used. Rubb facilities, temporary or permanent, can be relocated, adapted, expanded or dismantled and stored for future operations to suit changing logistical needs. They can also be sold to new users if no longer required by the existing owners. Rubb participates and is the North American storage repository for the Taxyloop PVC recycling program.
73	Discuss your proposed product line in terms of sustainability and recycling.	There are two components to our buildings: the galvanized steel frame and the fabric cover. The steel frame is easily recycled at the end of the building's life (50 - 60 years or more). There are various recycling programs that we use for the fabric cover...one is called Taxyloop for example.
74	Identify any third-party issued eco-labels, ratings, ESG scores, or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	None
75	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	None
76	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	Rubb has, at its core, dedication to excellence and integrity in engineering. <ul style="list-style-type: none"> • Rubb buildings are code compliant and are continually improving to incorporate sustainability. • Rubb represents a “greener” choice with eco-friendly benefits such as low energy costs, low or no maintenance, re-usability and fully re-cyclable. • A Rubb building is a good long term investment. We represent the best overall cost of ownership value in the market. Rubb buildings are built to last. • Rubb’s after sale care is best in class. Over 80% of our business comes from existing customers. • Rubb uses the best products available. From best in class Serge-Ferrari 28oz PVC to hot dip galvanized steel. No substitute for quality • We’ve been providing building solutions for 35 years in US and nearly 50 years globally.

Addenda, Terms and Conditions

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.

The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. 4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.
5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.

Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.

Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
11. Proposer its employees, agents, and subcontractors are not:
 1. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: <https://www.treasury.gov/ofac/downloads/sdnlist.pdf>;
