Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

Supplier will exclude sales from Participating Entities not utilizing this Contract, even though they may be Sourcewell Participating Entities. The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *

27	Dealer network or other distribution methods.	We do not sell through 3rd parties.	*
28	Service force.	We work with independent service contractors like Dental Fix RX throughout the country to coordinate installations and servicing of equipment.	*
29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	Each account will have a dedicated account manager that works directly for Darby. Orders can be placed through the account manager via phone, fax, email, text and we have arguably the best most customer friendly website at www.darby.com . We also have a great 3rd party procurement partnership with Method USA.	*
30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	Our company prides itself on industry leading customer service. Sourcewell customers can expect a dedicated account manager that will be personally responsible to ensure complete satisfaction of each customer. We also employ a customer care team that serves as a back-up to the account managers and provides immediate service via live chat via www.darby.com or via phone at 800-645-2310. Additionally, our Special Market administrative team can assist with requests for reporting and other ad hoc needs that may arise.	*

33	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	We are able to serve the United States, but we currently do not offer service to Canada.	*
34	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	We anticipate the ability to serve any US based Sourcewell customers.	*
35	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	Due to the significantly increased cost of shipping to Alaska, Hawaii, and Puerto Rico, we reserve the right to pass through some shipping costs as necessary in order to maintain price continuity for all eligible Sourcewell members.	*

Table 7: Marketing Plan

Line Item	Question	Response *
36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	We have a very experienced Special Markets Team that is adept at working with all levels of government, community health, schools, correctional, DSOs, GPOs, and other institutional customers within the dental space. We are already working with a similar organization to Sourcwell where we have divided the states between the team with some flexibility to allow existing customer relationships to follow their preferred account manager. Lastly, we would like to collaborate with Sourcwell to develop a marketing plan that reaches members with a continuity of messaging. Ideally dual branded communications highlighting the benefits they receive as a member and how to take best advantage of those offerings.
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Our Social Media priority is branding and awareness of the abilities Darby Dental Supply has to serve our customer base. We do some marketing of various programs highlighting products, categories and brands as well. However, our internal use of technology to better anticipate our customers needs and to provide pertinent products and services based on their practice needs is excellent. We have a significant internal reporting capabilities to ensure our customer communication is tailored and effective.
38	In your view, what is Sourcwell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcwell-awarded contract into your sales process?	Our expectation is that Sourcwell will provide regular updates to Darby with their current membership and will provide information about Darby's ability to serve their needs as well as contact information for our Special Markets Team. We would also expect to be included in any ancillary bid and RFP opportunities conducted by Sourcwell membership.
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	There are a number of e-procurement options that are currently sending business through Darby, but our preferred partner is Method USA as we have been able to confirm that they provide current and accurate pricing and product availability through their marketplace which avoids price discrepancies on purchase orders.

Table 8: Value-Added Attributes

Line Item	Question	Response *
40	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	As a distributor, we often facilitate specific product training through the manufacturer as the subject matter expert on their own products and equipment.
41	Describe any technological advances that your proposed products or services offer.	Our website has our products organized in a way to display a family of products together (i.e. various refills, intro kits, mixing tips) and additionally provides pictures and descriptions as well as links to the manufacturers websites for additional details. This provides a great resource for customer to self-guide their research into products if they so choose. We also have enhanced capabilities in our sales reporting, including the ability to provide custom reporting as per our individual customer need.
42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	At this time we do not have a customer facing "green" initiative, but we are always expanding our offerings of green and recycled products when possible.
43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	Not applicable at this time.
44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	We are currently considered an "other than small" business.
45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	As a privately owned distributor with a customer centric focus, we have a nimbleness to respond and adapt to customer needs. Fortunately, we are also one of the largest dental distributors in the United States which enables us to have an extensive selection of products and services. Combine these attributes with our inside sales business model and we believe we provide an industry leading value to dental practices across the country.

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
46	Do your warranties cover all products, parts, and labor?	We rely on the manufacturer provided warranties for each product. This is per industry norm.	*
47	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	All products should be used and maintained as per the manufacturer specified guidelines. Usage outside of those guidelines can certainly limit or void any stated warranties.	*
48	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	This coverage would be dependent on the product sold.	*
49	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	We do not directly employ an equipment service team at Darby. Instead we work with independent service providers in all 50 states, but there will be gaps in geographic coverage particularly in rural areas.	*
50	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	As standard practice, we rely on the warranty from the OEM, but we will look at any warranty issue and work with all parties to come to a fair resolution that satisfies our customer.	*
51	What are your proposed exchange and return programs and policies?	At this time PDMA products are non-returnable due to pedigree concerns, but we allow the return of almost any other sealed, unopened item within 90 days.	*
52	Describe any service contract options for the items included in your proposal.	As we do not employ an equipment service team, we do not currently offer any service contract options.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
53	Describe your payment terms and accepted payment methods.	Our typical payment terms are NET30 and we accept payment via ccard, check, and wire.	*
54	Describe any leasing or financing options available for use by educational or governmental entities.	We are open to considering financing options for large equipment on a case-by-case basis.	*
55	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	We typically accept Purchase Orders as received by our institutional customers as long as they have payment terms specified. We do not need or provide a specific format for customers to order from Darby.	*
56	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Yes. There is currently no additional cost to use a P-Card as a payment option.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcwell Price and Product Change Request Form.

Line Item	Question	Response *	
57	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcwell discounted price) on all of the items that you want Sourcwell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	We propose to use a 15% discount off MSRP as our ceiling price, but in interests of maintaining a very competitive price point, we will be offering many key products at a percentage over current wholesale cost with the understanding that would not exceed our ceiling price. We believe the average price discount will exceed 20% off MSRP. With 50,000 products available from 500 different manufacturers, there will be a handful of exceptions but those should account for less than 1% of products sold.	*
58	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	We would offer Sourcwell members a minimum discount of 15% off MSRP, with range of discount between 10-50% and an average discount of approximately 20%. With 50,000 products available from 500 different manufacturers, there will be a handful of exceptions but those should account for less than 1% of products sold.	*
59	Describe any quantity or volume discounts or rebate programs that you offer.	We will regularly provide quantity and volume discounts depending on the selected product. This will most often occur when there are either additional discounts or cost efficiencies with regard to shipping.	*
60	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	We would have a minimum discount set for all products, but in effort to provide a more competitive price we would prefer to quote sourced products based on each individual opportunity.	*
61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Additional costs for inspections, installations, training, calibrations, and other costs associated with some equipment will most often not be included in the product pricing. Sales of products that require these additional costs will typically be handled with a pricing proposal from our Equipment Sales Team that will be done with best efforts to estimate the total customer cost of the sale.	*
62	If freight, delivery, or shipping is an additional cost to the Sourcwell participating entity, describe in detail the complete freight, shipping, and delivery program.	Shipping will be free for standard orders over \$250. Orders less than \$250 will be subject to a \$5.95 per order fee. Shipping on capital equipment will be dependent on the product(s) and destination.	*
63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	We reserve the right to pass-through actual shipping costs as necessary for orders to Alaska, Hawaii, and Puerto Rico.	*
64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	We are able to set up auto-ships of products that customers anticipate needing on a regular interval.	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
65	b. the same as the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Darby has significant experience in self-auditing as we have had many long-term partnerships with GPOs that require reporting and remuneration for the purchases of their memberships. These groups also have custom pricing programs with specific partner relationships that allow for additional price discounts that we then offer to their membership. We already have all the necessary programing and reporting capabilities and would only require an accurate membership list from Sourcewell for your participating entities. We would attach a specific Sourcewell identifier for each member and could produce accurate and detailed reporting based on all the purchases of those customers.
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Our success would be measured primarily by two barometers. Initially, the best measurement would be the growth of newly active purchasing customers and with time we would want to make sure our marketshare of the estimated annual \$25M was commensurate with the number of preferred vendors selected.
68	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	We propose a 2% administrative fee paid to Sourcewell for purchases made by members where the purchases are generated from the Sourcewell contract. Darby would exclude sales from customers where Darby has existing relationships or contracts that are the primary driver of the sales by that entity.

75	Explain how your company can provide local technical services support for all agencies purchasing through the resulting contract(s).	Darby TechForce delivers tailor-made, dental-specific technology solutions that work for dental practices and the people in them. From desktop support to network security, installations and integrations, we streamline the technical aspects of your practice to keep systems running safely and smoothly.	*
76	If applicable, explain how you process free goods claims on behalf of your customers.	Free goods offers are displayed on our website at www.darby.com and each customer can also select the specific item they would prefer as a free good and Darby submits these requests automatically to the manufacturer on their behalf. In many cases, the free goods actually ship with the order as well. Since we also have a dedicated account manager for each customer, if a customer is eligible for a free good but perhaps was not aware, they can also review the orders and follow up with the customer to communicate an eligible offer.	
77	What percentage of your orders are shipped the same-day?	Well over 90% of our orders ship the same day they are placed. As a general guideline, most orders processed by 4pm ship the same day they are placed.

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.
3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.
4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.
5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.

Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.
9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.
10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
11. Proposer its employees, agents, and subcontractors are not:
 1. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: <https://www.treasury.gov/ofac/downloads/sdnlist.pdf>;

by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal.
