

## Global Environmental Products #062425-GEP

Pricing for contract #062424-GEP offers Sourcewell participating agencies the following discounts:

- 5% discount off list price
- In addition to the discount off MSRP, Sourcewell participating entities can also qualify for a volume discount applicable to order size. The size of discount is dependent on volume and product type.
- Global Environmental Products will impose a temporary surcharge for tariff/duties and fees for all Global models as a result of tariffs and duties. This would apply to all models currently listed on the existing Global contract #062425-GEP, for all products, that Global currently offers to our customers. This will apply to all Global, Titan Leaf Solutions, and Rasco machines. Global's increase will range up to 15%, depending on the model(s) and powertrains, with full intentions of remaining as fair and competitive as possible with our customers. The "range" is a result of some models utilizing materials imported from China, such as batteries, semiconductors, etc., and extends to bodies imported into the United States where large tariffs and duties now apply. This would be visible on each quotation as an individual line item, where the percentage will be noted. This will show on our quotations as a line-item labeled "Tariff/Duties Surcharge - X%. This will be valid through April 30th, 2026.
