### III. GENERAL CONDITIONS FOR PERFORMING WORK

#### A. COMPLIANCE.

1. *Legal and Contractual.* The work will be conducted by the Contractor in strict compliance with this Contract and all applicable federal, state, and local laws, regulations, codes, directives, standards, and specifications; this includes, but is not limited to city building codes, the specific Detailed Scope of Work, and Technical Specifications of a Purchase Order. If the Purchase Order specifies a standard that is different or more stringent than a particular law, code, or regulation, the standard set forth in the Purchase Order will control.
2. *Licenses.* The Contractor must maintain valid and current federal, state, and local licenses, bonds, and permits required for the operation of the business that the Contractor conducts with Sourcewell and Participating Entities. The Contractor will keep these documents properly posted at the Site at all times during the performance of the work.
3. *Permits and Filings.* The Contractor will make the necessary arrangements for and obtain all filings and permits required for the work, including the preparation of all drawings, sketches, calculations and other documents and information that may be required therefor. If the Contractor is required to pay an application fee for filing a project, a fee to obtain a building permit, or any other permit fee to the city, state or some other governmental or regulatory agency, then the amount of such fee paid by the Contractor will be treated as a reimbursable task to be paid a mark-up of 10%. The Contractor will submit a copy of the receipt for payment of such fees. The 10% mark-up will cover all costs over and above the filing and permit fees, including expeditor fees.

B. PUBLIC FACILITIES, IDENTIFICATION, AND SECURITY REQUIREMENTS. The Contractor's employees may be required to perform work at government-owned facilities, including schools. The Contractor's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with the applicable Participating Entity's policies and procedures, and all applicable laws. The Contractor will comply with all identification and security requirements that the Participating Entity may establish.

Contractor's use, in whole or in part, of Gordian's JOC Applications, Construction Task Catalog® and other proprietary materials provided by Gordian for any purpose other than to execute work under this Contract for the Owner is strictly prohibited unless otherwise approved in writing by Gordian. The Contractor hereby agrees to abide by the terms of the following IQCC System License.

#### **IQCC System License**

Gordian hereby grants to the Contractor for the term of this Contract, a non-exclusive right, non-transferable, privilege, and license to Gordian's proprietary IQCC System (comprised of the JOC software applications and support documentation, the CTC, construction cost data, Technical Specifications, training materials, marketing materials and any other proprietary materials provided to Contractor by Gordian (collectively referred to as "Proprietary Information"). The Proprietary Information will be used for the sole purpose of executing Contractor's responsibilities to Sourcewell and the Participating Entities under this Contract ("Limited Purpose"). In the event this Contract expires or terminates as provided herein, or the Gordian's contract with Sourcewell expires or terminates, this IQCC System License will terminate and the Contractor will return all Proprietary Information in its possession to Gordian.

Contractor acknowledges that Gordian will retain exclusive ownership of all proprietary rights to the Proprietary Information, including all U.S. and international intellectual property and other rights such as patents, trademarks, copyrights and trade secrets. Contractor will have no right or interest in any portion of the Proprietary Information except the right to use the Proprietary Information for the Limited Purpose set forth herein. Except in furtherance of the Limited Purpose, Contractor must not distribute, disclose, copy, reproduce, display, publish, transmit, assign, sublicense, transfer, provide access to, use or sell, directly or indirectly (including in electronic form), any portion of the Proprietary Information.

Contractor acknowledges and agrees to respect the copyrights, trademarks, trade secrets, and other proprietary rights of Gordian in the Proprietary Information during and after the term of this Contract, and must at all times maintain complete confidentiality with regard to the Proprietary Information provided to Contractor, subject to federal, state and local laws related to public disclosure. Contractor further acknowledges that a breach of any of the terms of this Contract by Contractor will result in irreparable harm to Gordian for which monetary damages would be an inadequate remedy, and Gordian will be entitled to injunctive relief (without the necessity of posting a bond) as well as all other monetary remedies available at law or in equity. In

the event that it becomes necessary for either party to this IQCC System License to enforce the provisions of this Contract or to obtain redress for the breach or violation of any of its provisions, whether by litigation, arbitration or other proceedings, the prevailing party will be entitled to recover from the other party all costs and expenses associated with such proceedings, including reasonable attorney's fees.

In the event of a conflict in terms and conditions between this IQCC System License and any other terms and conditions of this Contract or any Order, Purchase Order or similar purchasing document (Purchase Order) issued by Sourcewell or a Participating Entity, this IQCC System License will take precedence.

E. REVIEW OF FIELD CONDITIONS. Before submitting a Price Proposal, the Contractor must: carefully study the Detailed Scope of Work, as well as the information furnished by the Participating Entity; take field measurements of any existing conditions related to the work; and observe any conditions at the Site affecting the Price Proposal. Any design errors or omissions, other errors, inconsistencies, or omissions discovered by the Contractor must be reported promptly to the Project Manager. It is recognized that the Contractor's review is made in the Contractor's capacity as a Contractor and not as a licensed design professional. The Contractor is not required to ascertain that the Detailed Scope of Work is in accordance with applicable laws, statutes, ordinances, building codes, and rules and regulations. However, any nonconformity discovered by or made known to the Contractor must be reported promptly to the Project Manager.

F. PERSONNEL. The Contractor will employ competent personnel for the development of the Project's Detailed Scope of Work, the preparation of the Price Proposal and the execution of the work. During the performance of the work, the superintendent assigned to the Project will represent the Contractor, and communications given to the superintendent will be as binding as if given to the Contractor. Important communications must be confirmed in writing. Other communications will be similarly confirmed on written request in each case.

G. SUPERVISION. The Contractor must enforce strict discipline and good order among the Contractor's employees and other persons carrying out the work. The Contractor will supervise and direct the performance of the Detailed Scope of Work, using the Contractor's best skill and attention. The Contractor will be solely responsible for and have control over construction means, methods, techniques, sequences and procedures and for coordinating all portions of the work. If the Detailed Scope of Work gives specific instructions concerning construction means, methods, techniques, sequences or procedures, the Contractor will evaluate the Site safety thereof and, except as stated below, will be fully and solely responsible for the jobsite safety of such means, methods, techniques, sequences or procedures. If the Contractor determines that such means, methods, techniques, sequences or procedures may not be safe, the Contractor will give timely written notice to the Project Manager and will not proceed with that portion of the work without further written instructions from the Project Manager.

The Contractor will be responsible to the Participating Entity for acts and omissions of the Contractor's employees, Subcontractors and their agents and employees, and other persons or entities performing portions of the work for or on behalf of the Contractor or any of its Subcontractors.

The Contractor will be responsible for inspection of portions of work already performed to determine that such portions are in proper condition to receive subsequent work.

H. WORKMANSHIP AND QUALITY. The Contractor may make substitutions only with the written consent of the Project Manager. The Contractor will not permit employment of unfit persons or persons not skilled in the portions of the work assigned to them.

I. SHOP DRAWINGS, PRODUCT DATA, AND SAMPLES.

1. Shop drawings, product data, samples, and similar submittals are not considered as Contract Documents. The purpose of their submittal is to demonstrate for those portions of the Detailed Scope of Work for which submittals are required by the Contract Documents the way by which the Contractor proposes to conform to the information given and the design concept expressed in the Detailed Scope of Work. Submittals that are not required by the Contract Documents may be returned by the Project Manager without action.
2. The Contractor must review for compliance with the Contract Documents, approve and submit to the Project Manager shop drawings, product data, samples and similar submittals required with reasonable promptness and in such sequence as to cause no delay in the work or in the activities of the Participating Entity or of separate contractors. Submittals that are not marked as reviewed for compliance with the Contract Documents and approved by the Contractor may be returned by the Project Manager without action.
3. By approving and submitting shop drawings, product data, samples and similar submittals, the Contractor represents that it has determined and verified materials, field measurements, and field construction criteria related thereto, or will do so, and has checked and coordinated the information contained within such submittals with the requirements of the Detailed Scope of Work and of the Contract Documents.
4. The Contractor must perform no portion of the work for which the Contract Documents require submittal and review of shop drawings, product data, samples, or similar submittals until the respective submittal has been approved by the Project Manager.
5. The work will be performed in accordance with approved submittals except that the Contractor will not be relieved of responsibility for deviations from requirements of the Contract Documents by the Project Manager's approval of shop drawings, product data, samples or similar submittals unless the Contractor has specifically informed the Project Manager in writing of such deviation at the time of submittal and a) the Project Manager has given written approval to the specific deviation as a minor change in the work, or b) a Supplemental Purchase Order or written notice has been issued authorizing the deviation. The Contractor will not be relieved of responsibility for errors or omissions in shop drawings, product data, samples or similar submittals by the Project Manager's approval thereof.
6. The Contractor will direct specific attention, in writing or on resubmitted in shop drawings, product data, samples or similar submittals, to revisions other than those

requested by the Project Manager on previous submittals. In the absence of such written notice the Project Manager's approval of a resubmission will not apply to such revisions.

7. All costs for normal submittal information (shop drawings, cut sheets, performance information, installation or erection drawings, etc.) are included in the CTC line-item costs.
8. The Contractor will not be required to provide professional services which constitute the practice of architecture or engineering unless such services are specifically requested by the Participating Entity and required by the Detailed Scope of Work; or unless the Contractor needs to provide such services in order to carry out the Contractor's responsibilities for construction means, methods, techniques, sequences and procedures, and such services are approved by the Participating Entity. The Contractor will not be required to provide professional services in violation of applicable law. If professional design services or certifications by a design professional related to systems, materials or equipment are specifically required of the Contractor by the Detailed Scope of Work, the Participating Entity will specify all performance and design criteria that such services must satisfy, and the costs associated with such services will be represented by including the appropriate tasks from the CTC. The Contractor will cause such services or certifications to be provided by a properly licensed design professional, whose signature and seal must appear on all drawings, calculations, specifications, certifications, shop drawings and other submittals prepared by such professional. Shop drawings and other submittals related to the work designed or certified by such professional, if prepared by others, will bear such professional's written approval when submitted to the Project Manager. The Participating Entity will be entitled to rely upon the adequacy, accuracy and completeness of the services, certifications or approvals performed by such design professionals, provided the Participating Entity has specified to the Contractor all performance and design criteria that such services must satisfy. The Project Manager will review, approve, or take other appropriate action on submittals only for the limited purpose of checking for conformance with information given and the design concept expressed in the Detailed Scope of Work. The Contractor will not be responsible for the adequacy of the performance or design criteria required by the Detailed Scope of Work. The Participating Entity will have the right to provide, or designate a representative to provide, any architectural or engineering services necessary for completion of the Work.

J. CUTTING AND PATCHING.

1. The Contractor will be responsible for cutting, fitting, or patching required to complete the Detailed Scope of Work or to make its parts fit together properly.
2. The Contractor will not damage or endanger a portion of the work, or fully or partially completed construction of the Participating Entity or separate contractors, by cutting, patching, or otherwise altering such construction, or by excavation. The Contractor will not cut or otherwise alter such construction by the Participating Entity or a separate contractor except with written consent of the Participating Entity and of such separate contractor. The Contractor will not unreasonably withhold from the Participating Entity

or a separate contractor the Contractor's consent to cutting or otherwise altering the work.

K. CLEAN UP.

1. The Contractor will keep the Site and surrounding areas free from accumulation of waste materials or rubbish caused by operations under the Purchase Order. At completion of the work, the Contractor will remove from and about the Site all waste materials, rubbish, Contractor's tools, construction equipment, machinery, and surplus materials.
2. If the Contractor fails to clean up, the Participating Entity may do so, and the cost thereof will be charged to the Contractor.

L. ACCESS TO THE WORK. The Contractor will provide the Project Manager access to the work at all times.

M. SUBCONTRACTORS.

1. The Contractor, as soon as practicable after award of the Purchase Order, will furnish in writing to the Project Manager the names of persons or entities (including those who are to furnish materials or equipment fabricated to a special design) proposed for each portion of the work. The Project Manager will promptly reply to the Contractor in writing stating whether or not, after due investigation, the Contractor has reasonable objection to any such proposed person or entity. Failure of the Project Manager to reply promptly will constitute notice of no reasonable objection.
2. The Contractor will not subcontract with a proposed person or entity with whom the Participating Entity or Project Manager has made reasonable and timely objection. Similarly, the Contractor will not be required to subcontract with anyone with whom the Contractor has made reasonable objection.
3. If the Participating Entity or Project Manager has reasonable objection to a subcontractor proposed by the Contractor, the Contractor will propose another to whom the Participating Entity or Project Manager has no reasonable objection.

N. COORDINATION WITH OTHER CONTRACTORS.

1. The Participating Entity reserves the right to perform construction or operations related to the Purchase Order with the Participating Entity's own forces, and to award separate contracts in connection with other portions of the Project or other construction or operations on the Site.
2. The Participating Entity will provide for coordination of the activities of the Participating Entity's own forces and of each separate contractor with the work of the Contractor, who will cooperate with them. The Contractor will participate with other separate contractors and the Participating Entity in reviewing their construction schedules when directed to do so. The Contractor will make any revisions to the construction schedule

deemed necessary after a joint review and mutual agreement. The construction schedules will then constitute the schedules to be used by the Contractor, separate contractors, and the Participating Entity until subsequently revised.

O. PROPRIETARY RIGHTS, PATENT AND COPYRIGHT INFRINGEMENT.

1. Contractor will defend any action or proceeding brought against Sourcewell or any Participating Entity based on any assertion or claim that the Work, or any part thereof, or the operation thereof or use of the Work or any part thereof, constitutes infringement of any third party proprietary rights, trademark, patent or copyright, now or hereafter issued "Proprietary Rights." Contractor will defend, indemnify and hold harmless Sourcewell or any Participating Entity from and against all damages and costs, including attorney's fees, awarded against Sourcewell or Participating Entity or Contractor in any such action or proceeding. Contractor further agrees to keep Sourcewell and any Participating Entity informed of all developments in the defense of such actions or proceedings.
2. In the event a Participating Entity is enjoined from the completion of the Work, or any part thereof in connection with any claim of infringed proprietary rights, Contractor will at its sole expense take reasonable steps to procure the right or license to operate or use the Work. If Contractor cannot so procure the aforesaid right within a reasonable time, Contractor will then, promptly at Contractor's option and Contractor's expense and in consultation with the Participating Entity, (a) modify the Work so to avoid infringement of any Proprietary Rights; or (b) replace said Work with Work that does not infringe or violate any such Proprietary Rights.
3. Sections 1 and 2 above will not be applicable to any action or proceeding based on infringement or violation of a Proprietary Right (a) relating solely to a particular process or the product of a particular manufacturer specified by the Participating Entity and such processes or products are something other than that which has been offered or recommended by Contractor to the Participating Entity; or (b) arising from modifications to the Work by the Participating Entity or its agents after acceptance of the Work.

P. REQUESTS OF EXTENSION OF TIME.

1. The Purchase Order Completion Time will be extended for such reasonable time as the Project Manager may determine, if the Contractor is delayed at any time in the commencement or progress of the Detailed Scope of Work by:
  - An act or neglect of the Participating Entity or its Project Manager, their employees, or agents
  - A separate contractor employed by the Participating Entity
  - Changes ordered in the work by the Participating Entity
  - Labor disputes or civil unrest
  - Fire
  - Unusual delay in deliveries
  - Unavoidable casualties or other causes beyond the Contractor's control
  - Other causes for which the Project Manager may determine justify a delay

2. The Contractor will not make any claim for damages for the delay in the performance of any Purchase Order occasioned by any act or omission of the Participating Entity, Project Manager, or any of their representatives; and agrees that any such claim will be fully compensated for by an extension of time as provided herein.

Q. PARTIAL OCCUPANCY OF TIME.

1. The Participating Entity may occupy or use any completed or partially completed portion of the work at any stage when it is consented to by the authorized public authorities having jurisdiction over the work. Such partial occupancy or use may commence whether or not the portion is substantially complete, provided the Participating Entity and the Contractor agree in writing to the conditions of such use, including payment and any other required terms. Consent of the Contractor to partial occupancy or use will not be unreasonably withheld.
2. Immediately prior to such partial occupancy or use, the Participating Entity, the Contractor and Project Manager will jointly inspect the area to be occupied or portion of the work to be used in order to determine and record the condition of the work.
3. Unless otherwise agreed upon, partial occupancy or use of a portion or portions of the work will not constitute acceptance of work that does not comply with the requirements of the Contract Documents.

R. PROTECTION OF PERSONS AND PROPERTY. The Contractor must take reasonable precautions for safety of, and will provide reasonable protection to prevent damage, injury, or loss to:

1. Employees on the work and other persons who may be affected thereby;
2. The work and materials and equipment to be incorporated therein, whether in storage on or off the site, under care, custody or control of the Contractor or the Contractor's Subcontractors or sub-subcontractors; and
3. Other property at the Site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of construction.

The Contractor will give notices and comply with applicable laws, ordinances, rules, regulations, and lawful orders of public authorities bearing on safety of persons or property or their protection from damage, injury or loss.

The Contractor will erect and maintain, as required by existing conditions and performance of the Detailed Scope of Work, reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety regulations and notifying Participating Entity and users of adjacent sites and utilities.

When use or storage of explosives or other hazardous materials or equipment or unusual methods are necessary for execution of the work, the Contractor will exercise utmost care and carry on such activities under supervision of properly qualified personnel.

The Contractor will promptly remedy damage and loss (other than damage or loss insured under property insurance required by the Contract Documents) to property caused in whole or in part by the Contractor, a Subcontractor, a sub-subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Contractor is responsible, except damage or loss attributable to acts or omissions of the Participating Entity or Project Manager or anyone directly or indirectly employed by either of them, or by anyone for whose acts either of them may be liable, and not attributable to the fault or negligence of the Contractor. The foregoing obligations of the Contractor are in addition to the Contractor's other obligations included herein.

The Contractor will designate a responsible member of the Contractor's organization at the Site whose duty will be the prevention of accidents. This person will be the Contractor's superintendent unless otherwise designated by the Contractor in writing to the Project Manager.

The Contractor will not permit any part of the construction or Site to be loaded in a manner that endangers safety.

S. HAZARDOUS MATERIALS.

1. If reasonable precautions will be inadequate to prevent foreseeable bodily injury or death to persons resulting from a material or substance, including but not limited to lead based paint, asbestos or polychlorinated biphenyl (PCB), encountered on the Site by the Contractor, the Contractor will, upon recognizing the condition, immediately stop the work in the affected area and report the condition to the Project Manager in writing.
2. The Participating Entity will obtain the services of a licensed laboratory to verify the presence or absence of the material or substance reported by the Contractor and, in the event such material or substance is found to be present, to verify that it has been rendered harmless. Unless otherwise required by the Contract Documents, the Participating Entity will furnish in writing to the Contractor and Project Manager the names and qualifications of persons or entities who are to perform tests verifying the presence or absence of such material or substance or who are to perform the Task of removal or safe containment of such material or substance. The Contractor and the Project Manager will promptly reply to the Participating Entity in writing stating whether or not either has reasonable objection to the persons or entities proposed by the Participating Entity. If either the Contractor or Project Manager has an objection to a person or entity proposed by the Participating Entity, the Participating Entity will propose another to whom the Contractor and the Project Manager have no reasonable objection. When the material or substance has been rendered harmless, the work in the

affected area will resume upon written agreement of the Participating Entity and Contractor. The Purchase Order Completion Time will be extended appropriately.

3. The Participating Entity will not be responsible for materials and substances brought to the Site by the Contractor unless such materials or substances were required by the Detailed Scope of Work.

T. TESTS AND INSPECTIONS.

1. Tests, inspections and approvals of portions of the work required by the Contract Documents or by laws, ordinances, rules, regulations or orders of public authorities having jurisdiction will be made at an appropriate time. Unless otherwise provided, the Contractor will make arrangements for such tests, inspections and approvals with an independent testing laboratory or entity acceptable to the Participating Entity, or with the appropriate public authority. The Contractor will give the Project Manager timely notice of when and where tests and inspections are to be made so that the Project Manager may be present for such procedures.
2. If the Project Manager, Participating Entity, or public authorities having jurisdiction determine that portions of the work require, through no fault of the Contractor, additional testing, inspection or approval, the Project Manager will instruct the Contractor to make arrangements for such additional testing, inspection or approval by an entity acceptable to the Participating Entity, and the Contractor will give timely notice to the Project Manager of when and where tests and inspections are to be made so that the Project Manager may be present for such procedures. Such costs will be at the Participating Entity's expense.
3. If such procedures for testing, inspection or approval reveal failure of the portions of the work to comply with requirements established by the Contract Documents, all costs made necessary by such failure including those of repeated procedures and compensation for the Project Manager's services and expenses will be at the Contractor's expense.
4. Required certificates of testing, inspection or approval will, unless otherwise required by the Contract Documents, be secured by the Contractor and promptly delivered to the Project Manager.
5. If the Project Manager is to observe tests, inspections or approvals required by the Contract Documents, the Project Manager will do so promptly and, where practicable, at the normal place of testing.
6. Tests or inspections conducted pursuant to the Contract Documents will be made promptly to avoid unreasonable delay in the work.

U. PARTICIPATING ENTITY'S RIGHT TO STOP WORK AND COMPLETE WORK. A Participating Entity may order the Contractor to stop the work on any Purchase Order, or any portion thereof, at any time for any reason. If the Contractor has been ordered to stop the work, the

Participating Entity may, without prejudice to other remedies, have the work completed by any available means.

V. SURVIVAL OF WORK. Any Purchase Order issued prior to the expiration of this Contract may survive after the expiration of this Contract. This means work may continue to be performed, payments may be made, and the guarantee period may continue.

W. WARRANTY. All work furnished under this Contract will be guaranteed against defective materials and workmanship, improper performance, and non-compliance with the Contract Documents for a period of one year after final acceptance of the work (Warranty Period); except as otherwise specified in other parts of the Contract Documents, or within such longer period of time as may be prescribed by law or provided by the manufacturer.

During the Warranty Period, the Contractor will repair and replace at Contractor's own expense, all work that may develop defects whether such defects may be inherent in the equipment or materials, in the functioning of the piece of equipment, or in the functioning and operation of pieces of equipment operating together as a functional unit. Any equipment or material that is repaired or replaced will have the Warranty period extended for a period of one year from the date of the last repair or replacement.

If the Contractor fails to repair, replace, rebuild, or restore such defective or damaged work promptly after receiving such notice, the Participating Entity will have the right to have the work done by others and to deduct the cost thereof from the monies owed to the Contractor. If the amount owed is insufficient to cover such costs, the Contractor will be liable to pay such deficiency on demand. The Project Manager's certificate setting forth the fair and reasonable cost of repairing, replacing, rebuilding or restoring any damaged or defective work when performed by one other than the Contractor will be binding and conclusive as the amount thereof upon the Contractor.

The Contractor must obtain all manufacturer's warranties and guarantees of all equipment and materials required by this Contract in the name of the Participating Entity.

#### **IV. SCOPE AND PROCEDURE FOR ORDERING WORK**

A. REGION. The Contractor will primarily perform work in the Region designated at the top of this Contract. However, if the parties agree, the Contractor may work in another area using its awarded Adjustment Factors and appropriate Construction Task Catalog. If a contractor does not have a contract for the area work in which the work is to be performed, but maintains more than one contract with Sourcwell, it will use the contract that results in the lowest price for the Participating Entity.

B. SCOPE. Work will be offered to the Contractor only through an authorized Purchase Order issued in accordance with this Contract. Purchase Orders will contain the Detailed Scope of Work required for the Contractor to complete the Project for a Participating Entity. The Contractor will provide all pricing, management, incidental drawings, shop drawings, samples, documents, work, materials, supplies, parts (to include system components), transportation, plant, supervision, labor, and equipment needed to complete each Purchase Order. The

Contractor will also be responsible for Site safety as well as Site preparation and cleanup during and after construction.

The Contractor is not guaranteed to receive a Purchase Order under this Contract.

C. CONTRACTOR SELECTION METHODOLOGY. After the Participating Entity has developed a draft Scope of Work, it will select a contractor using one of the following methods:

1. *Directly Selecting a Contractor*. Depending upon the procurement requirements of the Participating Entity, it may choose to directly select an available Sourcewell-contracted contractor, or
2. *Use of BidSafe to Select Contractor*. When available for the Project, the Participating Entity may use Gordian's BidSafe to issue a Request for Quotation to two or more contractors in order to determine the award of a Purchase Order. The use of BidSafe will be subject to Gordian's BidSafe requirements.

D. PURCHASE ORDER COMPLETION PROCESS. Upon selection of a contractor as described in Section C. above, the Participating Entity and Gordian will work with the Contractor to complete the following:

1. **JOINT SCOPING MEETING**. The Contractor will attend the Joint Scope Meeting with the Participating Entity and Gordian to discuss, at a minimum:
  - a. The general Scope of Work
  - b. Alternatives for performing the work and value engineering
  - c. Access to the Site and protocol for admission
  - d. Hours of operation
  - e. Staging area
  - f. Requirements for professional services, sketches, drawings, and specifications
  - g. Construction schedule
  - h. Requirement for bonding
  - i. The presence of hazardous materials
  - j. Date on which the Proposal Package is due
2. **DETAILED SCOPE OF WORK**. Upon completion of the joint scoping meeting, Gordian, the Participating Entity, and the Contractor will work together to create a Detailed Scope of Work referencing any sketches, drawings, photographs, and specifications required to document accurately the work to be accomplished. The Detailed Scope of Work will be the basis on which the Contractor will develop its Proposal Package. The Contractor does not have the right to refuse to perform any task or any work in connection with a particular Project.
3. **REQUEST FOR PROPOSALS**. Upon completion of the Detailed Scope of Work, the Participating Entity will issue a Request for Proposal to the Contractor. The Contractor will use Gordian's IQCC System to prepare its Price Proposal.
4. **PROPOSAL PACKAGE CONTENTS**. Upon issuance of the Participating Entity's Request for Proposal, the Contractor will create a Proposal Package that includes:

- a. Price Proposal: The Price Proposal will be based on the following:
- 1) *Pre-Priced Tasks*: Pre-Priced tasks described, and for which a Unit Price is set forth, in the CTC. The Contractor will identify the Task and the quantities required.
  - 2) *Non-Pre-Priced Tasks*: A Non Pre-priced Task is a task that is not in the CTC.
    - a) For Non Pre-Priced Work Performed with the Contractor's Own Forces: The Contractor will submit three independent quotes for all materials to be installed and will provide a breakdown of the labor and equipment costs.

The final price submitted for Non Pre-Priced Tasks will be according to the following formula, and each Non Pre-Priced Task must be supported with the necessary back-up documents including the calculation below:

- i. The hourly rate for each trade classification not in the CTC multiplied by the quantity.
- ii. The rate for each piece of Equipment not in the CTC multiplied by the quantity.
- iii. Lowest of three independent quotes for all materials.

Total Cost for Non-Pre-Priced Tasks performed by contractor's own forces = (i + ii + iii) x Non-Pre-Priced Adjustment Factor.

b) For Non-Pre-Priced Work performed through a Subcontractor: The Contractor must submit three independent bids from Subcontractors. The Contractor may not submit a quote or bid from any supplier or Subcontractor that the Contractor is not prepared to use during the Project. The Participating Entity may require additional quotes and bids if the suppliers or Subcontractors are not acceptable or if the prices are not determined to be reasonable. If the Contractor cannot obtain three quotes or bids, the Contractor will provide this information in writing to the Sourcewell Participating Entity for review and approval.

The final price submitted for Non Pre-Priced Work performed through a Subcontractor will be the lowest of three Subcontractor quotes.

The Total Cost for Non-Pre-priced Tasks performed by Subcontractors = Lowest of Three Subcontractor Quotes X Non-Pre-Priced Task Adjustment Factor.

At the discretion of Gordian, Non-Pre-Priced Tasks, as well as other Tasks, may be added to the CTC during the course of the Contract. Unit prices will be established based on actual quotes from material suppliers and installers and fixed as a permanent Pre-priced Task in the CTC.

Gordian's determination as to whether an item is a Pre-Priced Task or a Non-Pre-Priced Task will be final, binding and conclusive as to the Contractor.

The means and methods of construction will be such as the Contractor may choose; subject however, to the Participating Entity's right to reject means and methods proposed by the Contractor that: Will not produce finished work in accordance with the terms of the Contract; or Unnecessarily increases the price of the Purchase Order when alternative means and methods are available.

- 3) *Additional Costs.* In the event the Contractor is required to work within a secured facility, such as a prison, the Contractor will be paid for the labor time lost as a result of such perimeter inspection, as well as any loss of time resulting from a temporary shut down of the work site required by the facility, such as a temporary shut down to move prisoners.

The value of the Price Proposal will be calculated by summing the total of the calculations for each Pre-Priced Tasks (Unit Price x quantity x Adjustment Factor) plus the value of all Non-Pre-Priced Tasks.

- b. Incidental drawings, sketches, or specification information,
- c. Quantity take-offs supporting all material quantities,
- d. Catalog cuts providing information on materials or products, as specifically requested,
- e. The list of known Subcontractors,
- f. Construction schedule,
- g. Back-up data for any Non-Pre-Priced Tasks (identified above),
- h. Warranty information on special equipment or materials, and
- i. Other such documentation as the Participating Entity may require.

By submitting a Price Proposal to the Participating Entity, the Contractor agrees to accomplish the Detailed Scope of Work in accordance with the Request for Proposal at the price it submits. It is the Contractor's responsibility to include the necessary tasks and quantities in the Price Proposal and apply the appropriate Adjustment Factor(s) prior to delivering it to the Participating Entity. However, when trade jurisdiction rules or small quantities, the cost of a minor task in the Price Proposal is less than the cost of the actual labor and material to perform such task, the Participating Entity may permit the Contractor to be paid for such task as a Non-Prepriced Task, or use Prepriced labor tasks and material component pricing to cover the actual costs incurred. Provided that there is no other work for that trade on the Project or other work for that trade cannot be scheduled at the same time and the final charge does not exceed \$5,000.

E. WAGE RATES AND GOALS REQUIRED BY LAW. If other wage rates are required by law (such as prevailing wage), the Contractor must pay such wages to all workers in accordance with the applicable laws. If the Work is performed in whole or in part using federal funding, then the Davis Bacon Wages for that area will apply.

The wage rates used in the CTC were the prevailing wage rates, if any, in effect at the time the IFB was issued. If prevailing wage rates are revised prior to completion of the Project, the revised rate will apply to this Contract from the effective date of such revision; however, such

revision will not entitle Contractor to any increased compensation under the terms of the Contract.

The Contractor must meet any goals or requirements established by the Participating Entity ordering the work, and/or satisfy the intent of said goals or requirements, with regard to small, local, minority, women, veteran or disadvantaged business enterprises. Additional participation goals may be incorporated into the detailed scope of work.

F. TIME FOR SUBMITTAL OF THE PROPOSAL PACKAGE.

1. The Proposal Package will be submitted by the date indicated on the Request for Proposal. All incomplete Proposal Packages will be rejected. The time allowed for preparation of the Proposal Package will depend on the complexity and urgency of the Project but should average between seven and 14 days. On complex Projects, such as those requiring incidental engineering/architectural drawings and approvals and permits, allowance will be made to provide adequate time for preparation and submittal of the necessary documents.
2. In emergency situations and for Projects requiring immediate completion, the Proposal Package may be required quickly and the due date will be so indicated on the Request for Proposal or, the Contractor may begin work immediately, with the paperwork to follow.
3. If the Contractor fails to meet the deadline for submittal of the Proposal Package, this may be reason to suspend issuance of this particular Purchase Order.
4. If the Contractor requires clarifications or additional information regarding the Detailed Scope of Work in order to prepare the Proposal Package, the request must be submitted so that the submittal of the Proposal Package is not delayed.

G. REVIEW OF THE PROPOSAL PACKAGE.

1. Gordian and/or the Participating Entity will evaluate the Price Proposal by evaluating the nature and number of Tasks proposed against the agreed upon Detail Scope of Work and will determine the reasonableness of approach. Furthermore Gordian or the Participating Entity may compare the Price Proposal to the cost estimate for the Detailed Scope of Work. Gordian or the Participating Entity reserves the right to reject a Price Proposal based on unjustifiable/unsupported (with take off details) quantities and/or Tasks, schedule, inadequate documentation, or for any other reason.
2. If Gordian and/or the Participating Entity finds any part of the Price Proposal unacceptable, Gordian or the Participating Entity may request the Contractor to re-submit its Price Proposal or cancel the Project. The Contractor is expected to submit correct Price Proposals the first time. Adjustments to the Price Proposal may occasionally need to be made after review by Gordian and the Participating Entity. In that event, Gordian may permit the Contractor to submit the first Price Proposal and a second Price Proposal for each Purchase Order.

3. Additionally, Gordian and/or the Sourcewell Participating Entity will evaluate all other components of the Proposal Package and may request revisions thereto.
4. Requested revisions to any and all of the Proposal Package components should be made by the Contractor and resubmitted in no more than three working days. If after the second review by Gordian and/or the Participating Entity, Gordian and/or the Participating Entity finds requested revisions to the Proposal Package that were not made, this may be reason to suspend that particular Purchase Order.
5. Failure by the Contractor to submit Proposal Packages, and revisions thereto, in a timely manner (within time frames described above) is grounds for suspension of all future Purchase Orders.
6. The Participating Entity reserves the right to obtain Price Proposals from any or all of the contractors awarded an IQC contract.
7. If the Contractor continues to submit Price Proposals that are rejected by Gordian, Sourcewell may declare the Contractor in default and initiate termination of the Contract.

H. DELIVERY OF THE PROPOSAL PACKAGE. After Gordian reaches an agreement with the Contractor on the Proposal Package and any requested revision thereto, if applicable, Gordian will assemble and deliver the Proposal Package for the Participating Entity's consideration.

If the Contractor submits a Proposal Package with inaccurate Adjustment Factors, the Contractor waives all rights to any further compensation above the Purchase Order Price submitted in the Proposal Package.

The Contractor cannot delay submission of the Proposal Package past the due date to take advantage of a scheduled update of the Adjustment Factors. In that event, the Contractor must use the Adjustment Factors that would have been in effect without the delay.

I. REVIEW OF THE PROPOSAL PACKAGE BY THE PARTICIPATING ENTITY AND ISSUANCE OF PURCHASE ORDER.

1. The Participating Entity will evaluate the entire Proposal Package.
2. The Participating Entity may reject a Proposal Package for any reason.
3. The Participating Entity may request changes to or clarifications of any part of the Proposal Package. A Participating Entity may also require a certificate of insurance or labor, material payment, or performance bonds. The Contractor and Gordian will work together to make any requested revisions in a timely manner and resubmit a revised Proposal Package.
4. Upon approval of the Proposal Package by the Participating Entity, the Participating Entity may issue a signed Purchase Order, Notice of Award, or similar document accepting the Contractor's offer. The document will include:

- a) Reference to the Detail Scope of Work
- b) The Purchase Order Price
- c) Start date, Purchase Order Completion Time (duration) and completion date
- d) Whether liquidated damages will apply

5. Once the Contractor accepts the Purchase Order, the Contractor may not refuse to perform the work. Such actions may be grounds for termination of this Contract or other disciplinary action at the option of Sourcewell.
6. If performance and payment bonding is required, or if a separate and/or special insurance certificate is required, the Contractor will deliver such requirement to the Participating Entity within 10 days of notification of the requirement.
7. Within two business days of receipt of a Purchase Order from an Agency, the Contractor must provide notification to Gordian by forwarding a copy of the Purchase Order to Gordian.
8. Within two business days of receiving initial payment from an Agency, the Contractor must provide notification to Gordian of the initial payment by forwarding a copy of the submitted invoice to Gordian.

J. CHANGES TO THE SCOPE OF WORK.

1. The Participating Entity reserves the right to make, in writing, at any time during the work, changes in the Detailed Scope of Work as are necessary to satisfactorily complete the Project, and to delete in whole or in part, or to add to, the Detailed Scope of Work. Such changes, deletions, or additions will not invalidate the Contract or the Purchase Order nor release the surety, if any, and the Contractor agrees to perform the work as altered.
2. All changes, deletions, and additions to the Detailed Scope of Work will be reflected in a Supplemental Purchase Order developed and priced in accordance with the procedure for developing and approving all Price Proposals.

K. PUNCH LIST COMPLETION.

1. The Contractor understands and agrees that time is of the essence in closing out the work of each Purchase Order under this Contract. Upon Substantial Completion of the work, the Punch List will be transmitted to the Contractor from the Participating Entity. The Contractor agrees to begin performance of Punch List Work immediately after receipt of the Punch List.
2. Failure of the Contractor or its Subcontractors to begin the Punch List Work within three business days after receipt of the Punch List will be construed as failure to prosecute the work of the Contract.
3. Punch List Work will be continuously prosecuted once begun and completed within 30 Days from the receipt of the Punch List. Should the Contractor fail to complete the Punch

List within this period of time, the liquidated damages as identified in by the Participating Entity's Purchase Order will apply.

L. BONDS: PAYMENT AND PERFORMANCE OR MATERIAL AND WORKMANSHIP. If required by the Participating Entity for a particular Purchase Order, the Contractor will deliver a Labor and Material Payment Bond and a Performance Bond in the amount of such Purchase Order. If required by the Participating Entity for a particular Purchase Order, the Contractor will deliver Material and Workmanship Bonds in the amount required by the Participating Entity. The bonds must be in a form, and executed by a surety, acceptable to the Participating Entity. The bonds must be received before the Notice to Proceed will be issued. The Contractor will be compensated for the cost of the bonds up to 2% of the Work Order Price through the Reimbursable Fee work task in the Construction Task Catalog. The Contractor will apply a 1.1000 Adjustment Factor to the Reimbursable Fee work task rather than applying the Contractor's competitively bid Adjustment Factor.

M. TERMINATION OF ORDERS. Participating Entities may terminate a Purchase Order, in whole or in part, immediately upon notice to the Contractor in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the work
2. Federal or state laws or regulations prohibit the work
3. The Contractor commits any material breach of this Contract or Purchase Order

N. PURCHASE ORDER GOVERNING LAW AND VENUE. The governing law and venue for any action related to a Participating Entity's Purchase Order will be determined by the Participating Entity.

## **V. ADJUSTMENT FACTORS AND PAYMENTS**

A. PREVAILING WAGE RATES AND PARTICIPATION REQUIREMENTS. When applicable, the Contractor will be responsible for paying prevailing wages to all workers in accordance with the applicable laws; and the wage rates in the CTC will be the prevailing wage rates. If the state in which the work is located revises its prevailing rate of hourly wages prior to completion of the Project, the revised rates will apply to this Contract from the effective date of the revision; however, any such revision will not entitle the Contractor to any increased compensation under the terms of this Contract.

If other wage rates are required by law, the Contractor must pay those wages to all workers in accordance with the applicable laws. If the Purchase Order is performed in whole or in part using federal funding, then the Davis Bacon Wages for that area will apply.

B. CONSTRUCTION TASK CATALOG (CTC) UPDATE. Prior to the annual update of the Construction Task Catalog, Gordian must submit a request in written format by completing the Price and Product Change Request Form and signed by an authorized Gordian representative. A complete

restatement of pricing must be submitted to Sourcewell in which all changes are subject to review and approval by Sourcewell. The CTC issued with this Solicitation will be in effect for the first year of the Contract, then it will be automatically updated in eGordian annually on the anniversary date of this Contract. The updated CTC will only apply to Work Orders issued after the annual renewal anniversary, and will have no impact on Work Orders issued prior to its update.

C. MATERIAL PRICE SPIKE ADJUSTMENT. A “major spike” in material price is defined as a spike in a specific material cost of more than 25% above the cost of that material on the date the CTC was issued.

1. In the event a major spike occurs in a specific material cost, Contractor may submit a request for a price modification to a Unit Price or individual Job Order. In order to initiate such a request, Contractor must:
  - a. Identify the specific material that has experienced a major spike;
  - b. Identify Pre-priced Task(s) or Job Orders that require the material experiencing a major spike; and,
  - c. Demonstrate that the spike exists by submitting a minimum of three quotes on material supplier letterhead to show that the current price meets the “major spike” definition above.
2. The Participating Entity, after review of a request, may elect to adjust the Unit Price or Job Order by considering it a Non-Pre-Priced item. The adjustment will be for the difference between the material cost at the time the CTC was issued multiplied by the quantity stated in the Job Order. The adjustment will not include any other markup, and the Non-Pre-Priced adjustment factor will not apply.
3. Participating Entity, at its option, may also determine that a drastic decrease in a material cost warrants the same Non-Pre-Priced adjustment downward in the Unit Price or a Job Order.

D. PARTIAL PAYMENTS.

1. The Contractor may submit a monthly Application for Payment for Work completed to date. The Contractor will submit Certified Payroll Records, and such other supporting documentation as may be required by the Project Manager. The Contractor may be required to submit Certified Payroll Records online. The Project Manager will inspect the work within a reasonable time and the Participating Entity will make partial payments to the Contractor based on the approved value of completed work.
2. As permitted by the law or policy of the Participating Entity, the Participating Entity may withhold retainage per purchase order until completion of the Project.
3. The Contractor must promptly pay each Subcontractor, upon receipt of payment from the Participating Entity, out of the amount paid to the Contractor on account of such

Subcontractor's portion of the work, the amount to which said Subcontractor is entitled, reflecting percentages actually retained from payments to the Contractor on account of such Subcontractor's portion of the work. The Contractor will, by appropriate agreement with each Subcontractor, require each Subcontractor to make payments to its sub-Subcontractors in a similar manner.

E. FINAL PAYMENTS.

1. The Contractor will notify the Project Manager when the Detailed Scope of Work is complete and ready for final inspection. The Project Manager will promptly make such inspection. If the Project Manager finds the Detailed Scope of Work complete and all final documentation submitted, the Project Manager will notify the Contractor that a final Application for Payment may be submitted.
2. The Contractor may then submit a final Application for Payment. The Contractor will submit Certified Payroll Records and such supporting documentation as may be required by the Project Manager. The Participating Entity will make final payment to the Contractor.
3. Acceptance of final payment by the Contractor, a Subcontractor or material supplier will constitute a waiver of claims by that payee except those previously made in writing and identified by that payee as unsettled at the time of final Application for Payment.

Unless otherwise agreed with Gordian, Contractor shall make progress payments for the administrative fee in proportion to the percentage of construction completed to be invoiced at milestones reasonably established by Gordian. Contractor shall pay all Gordian invoices within thirty (30) days of date of invoice and payment will be sent as specified by Gordian. Administrative Fees not paid by the specified deadline shall bear an interest rate of 1.5% per month until paid.

The Contractor shall keep Gordian reasonably informed of the construction status of each active construction project, which shall include responding to Gordian inquiries regarding construction status within 5 days. Additionally, the Contractor shall:

- Within two business days of receipt of a Purchase Order from an Agency, the Contractor must provide notification to Gordian by forwarding a copy of the Purchase Order to Gordian.
- Within two business days of receiving initial payment from an Agency, the Contractor must provide notification to Gordian of the initial payment by forwarding a copy of the submitted invoice to Gordian.

**Sourcewell designates Gordian as its contract administrator. The Administrative Fee payments must be made payable to The Gordian Group and sent to the following address:**

PO Box 74008498  
Chicago, IL 60674-8498**

In order to audit this section, Sourcewell or Gordian may request records from the Contractor for all work performed under this Contract. If a discrepancy exists between the actual activity and the Administrative Fees paid, Gordian will provide written notification to the Contractor of the discrepancy and allow the Contractor 10 days from the date of notification to resolve the discrepancy. In the event the Contractor does not resolve the discrepancy to the satisfaction of Sourcewell or Gordian, Sourcewell or Gordian reserve the right to engage a third party to conduct an independent audit of the Contractor's records. In the event the Contractor is found not to be in compliance with this Contract, the Contractor will reimburse Sourcewell or Gordian for the cost and expense related to such audit.

In the event the Contractor is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any bid or proposal submitted by the Contractor to a Sourcewell or a Participating Entity. In the event this Contract is cancelled by either party prior to the Contract's expiration date, the administrative fee payment will be due

no more than 30 days from the cancellation date.

C. TAXES. The Contractor will pay all sales, consumer, use and other similar taxes required by law for which a valid exemption does not exist. If the Contractor is required to pay sales tax on non-exempt material, equipment, services, or other items purchased in connection with a Purchase Order, the Member will reimburse the Contractor for such tax, without mark-up, provided the Contractor submits the appropriate documentation therefore. Should Gordian, or any applicable tax authority, conclude that any sales and/or use tax shall be imposed on any part of the of the transactions contemplated herein, said tax shall be collected from the Job Order Contractor, in addition to the fees set forth herein, and remitted by Gordian.

As it relates to this Contract, or any of the Contractor's efforts to secure this Contract or any of the work that may be offered or assigned hereunder, the Contractor is prohibited from offering or giving gratuities or favors, of any form, to Sourcewell, Gordian, or Participating Entities, including any of their representatives or agents.

Sourcewell may immediately cancel this Contract and notify proper authorities in the event Sourcewell determines that the Contractor or any of its agents offered or gave gratuities or favors of any form, including but not limited to: entertainment, gifts, cash, promise or

forgiveness, or any other form of gratuity or favor to any employee or agent of Sourcewell, Gordian, or the Participating Entity.

#### **IX. LIABILITY**

- Terminate this Contract or any portion thereof, including any orders issued against the Contract.

C. LIQUIDATED DAMAGES. The Participating Entity may assess liquidated damages for each day after the Purchase Order Completion Time in the Detailed Scope of Work is not complete. It is understood and agreed by and between the Contractor, Sourcewell, and the Participating Entity, that time is of the essence in all matters relating to Liquidated Damages.

The liquidated damages will be determined on a Purchase Order by Purchase Order basis.

4. *Umbrella Insurance.* During the term of this Contract, the Contractor will maintain umbrella coverage over Workers' Compensation, Commercial General Liability, and Commercial Automobile.

Minimum Limits:

- \$2,000,000

5. *All Risk and Builders Risk Insurance.* Where specifically required in the Detailed Scope of Work, the Contractor will provide, before the Purchase Order is issued, Builders' Risk Insurance in an amount at least equal to the Purchase Order Price in a form and by a carrier acceptable to the Participating Entity. Minimum Limits:

- \$2,000,000 per occurrence

The cost of Pollution Liability Insurance is included in the Unit Prices and will not be reimbursed separately.

Failure of the Contractor to maintain the required insurance will constitute a material breach entitling Sourcewell to immediately terminate this Contract for default, or the Participating Entity cancel the Purchase Order for default.

If at any time any of the above-required insurance policies should be cancelled, terminated, or modified so that insurance is not in effect as above required, then, if Sourcewell will so direct, the Contractor will suspend performance of the work. If the work is suspended, no extension of time to complete the work will be due. If the work is not suspended, then Sourcewell or the Participating Entity may, at its option, obtain insurance affording coverage equal to that above required, the cost of such insurance to be payable by the Contractor.

Should the awarded Contractor retain a Subcontractor to perform any of the services mentioned herein, it is the Contractor's responsibility to ensure that the Subcontractor(s) maintains the same types of insurance coverage in accordance with the requirements and amounts indicated herein.

B. CERTIFICATES OF INSURANCE. Prior to commencing under this Contract, the Contractor must furnish to Sourcewell a certificate of insurance, as evidence of the Workers' Compensation, General Liability, Commercial Automobile, and Umbrella insurance required under this Contract. All policies must include there will be no cancellation, suspension, non-renewal, or reduction of coverage without 30 days' prior written notice to the Contractor.

Failure to request certificates of insurance by Sourcewell, or failure of the Contractor to provide certificates of insurance, in no way limits or relieves the Contractor of its duties and responsibilities in this Contract.

C. ADDITIONAL INSURED ENDORSEMENT AND PRIMARY AND NON-CONTRIBUTORY INSURANCE CLAUSE. The Contractor agrees to list Sourcewell and its Participating Entities, including their officers, agents, and employees, as an additional insured under the Contractor's commercial general liability insurance policy with respect to liability arising out of activities, "operations," or "work" performed by or on behalf of the Contractor, and products and completed operations of the Contractor. The policy provision(s) or endorsement(s) must further provide that coverage is primary and not excess over or contributory with any other valid, applicable, and collectible insurance or self-insurance in force for the additional insureds.

D. WAIVER OF SUBROGATION. The Contractor waives and must require (by endorsement or otherwise) all its insurers to waive subrogation rights against Sourcewell and other additional insureds for losses paid under the insurance policies required by this Contract or other insurance applicable to the Contractor or its subcontractors. The waiver must apply to all deductibles and/or self-insured retentions applicable to the required or any other insurance maintained by the Contractor or its subcontractors. Where permitted by law, the Contractor must require similar written express waivers of subrogation and insurance clauses from each of its subcontractors.
