

IFB #VA-030326
Invitation for Bids
for
Indefinite Delivery-Indefinite Quantity
Construction Contracts
in the
Commonwealth of Virginia

Bid Due Date: March 3, 2026, 4:30 p.m., Central Time

Sourcewell, a State of Minnesota local government entity and public agency, is issuing this Invitation for Bids (IFB) on behalf of its participating entities to create indefinite delivery-indefinite quantity construction (IDIQ) contracts that may be used by those participating entities for projects related to construction or the repair, alteration, modernization, or renovation of buildings, structures, or other real property.

This IFB consists of the following parts:

1. Invitation for Bids, including Map of Regions
2. Template IDIQ Construction Contract
3. IDIQ Contract General Terms and Conditions
4. Construction Task Catalog(s)
5. Technical Specifications

A full copy of the IFB can be found on the Sourcewell Procurement Portal (<https://proportal.sourcewell-mn.gov>), and only bids submitted through the Sourcewell Procurement Portal will be considered. Bids are due no later than March 3, 2026, at 4:30 p.m. Central Time, and late bids will not be considered. To attend the pre-bid conference on February 10, 2026, register on the Sourcewell Procurement Portal (<https://proportal.sourcewell-mn.gov>).

Solicitation Schedule

Notice of Solicitation Published:	January 27, 2026
Pre-bid Conference:	February 10, 2026, 10:00 a.m., Central Time
Question Submission Deadline:	February 24, 2026, 4:30 p.m., Central Time
Bid Due Date:	March 3, 2026, 4:30 p.m., Central Time Late responses will not be considered.
Opening:	March 3, 2026, 4:30 p.m., Central Time See Article VII. G. for more information.

I. ABOUT SOURCEWELL AND ITS PARTICIPATING ENTITIES

Sourcewell is a State of Minnesota local government agency and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that facilitates a competitive public solicitation and contract award process for the benefit of its participating entities across the United States. Sourcewell's solicitation process complies with State of Minnesota law and policies.

Sourcewell's participating entities in the Commonwealth of Virginia may include:

- Federal and state government
- Cities, towns, and counties/parishes
- Education service cooperatives
- K-12 and higher education
- Tribal government
- Some nonprofits
- Other public entities

Additionally, pursuant to 10 U.S.C. § 2679, United States Department of Defense authorized installations may access Sourcewell's awarded IDIQ contracts through an Intergovernmental Support Agreement with Sourcewell. All transactions completed through this Intergovernmental Support program are directly facilitated by Sourcewell and may be subject to additional terms and conditions.

For a listing of current participating entities visit Sourcewell's website: <https://www.sourcewell-mn.gov/sourcewell-for-vendors/agency-locator>.

II. INDEFINITE DELIVERY-INDEFINITE QUANTITY CONSTRUCTION PROGRAM

Sourcewell is soliciting bids for its IDIQ construction program. IDIQ contracting offers participating entities access to competitively solicited and awarded contracts for projects related to construction or the repair, alteration, modernization, or renovation of buildings, structures, or other real property.

Sourcewell has engaged The Gordian Group, Inc. (Gordian) to provide management of its IDIQ construction program. In this role, Gordian provides support to Sourcewell in the administration of the program, including: preparing Construction Task Catalogs and related technical specifications, providing information management systems and licenses to contractors, training to contractors, administering fee collection, consulting services to Sourcewell, and assisting with proposal package or work order development. Participating Entities access Sourcewell IDIQ contracts resulting from this IFB through relevant purchasing authority, and work directly with Contractors awarded through this IFB.

Under IDIQ, an awarded Contractor furnishes management, labor, materials, equipment, and incidental design support needed to perform the work. Details of the program's operation can be found within the Contract, and General Terms and Conditions document included in this IFB.

III. REQUIRED BIDDER QUALIFICATIONS

In determining a Bidder's responsibility and ability to perform under a Contract, Sourcewell has the right to investigate and request information concerning the financial condition, experience record, personnel, equipment, facilities, principal business location and organization of the Bidder, the Bidder's record with environmental regulations, and the claims and litigation history of the Bidder. Sourcewell reserves the right to verify the Bidder's information and may request clarification from a Bidder.

- A. A Bidder's business must be normally engaged in performing the type of work specified within this IFB and must have adequate organization, facilities, equipment, and personnel to ensure prompt and efficient service to a Sourcewell participating entity (as solely determined by Sourcewell).
- B. Bidders responding to a General Construction solicitation must be willing and capable of providing all or a majority of the various types of construction work as specified in the Construction Task Catalog either through its own forces or by using subcontractors.
- C. Bidders responding to **Mechanical/HVAC, Roofing and Weatherproofing, Electrical, and Site/Civil** solicitations must perform at least **51%** of all contracted work with its own organization and forces. The percentage calculation does not include field superintendents or office management personnel.

IV. BID OVERVIEW AND PREPARATION INSTRUCTIONS

- A. REQUESTED INDEFINITE DELIVERY-INDEFINITE QUANTITY CONSTRUCTION SERVICES. The IDIQ services specified include General Construction, Mechanical/HVAC, Roofing and Weatherproofing, Electrical, and Site/Civil. At this time, no specific projects have been identified; work and work volume from any resulting contract are not guaranteed. Specific description of work and summary of duties for each category of construction can be found in the Technical Specifications.
- B. PREPARATION INSTRUCTIONS. Strict compliance with the following instructions is required for properly preparing a bid. Before submitting a bid, it is the responsibility of each Bidder to:
- 1) Examine the IFB Documents thoroughly;
 - 2) Consider all applicable federal, state and local laws, regulations, ordinances, and procurement codes that may affect costs, progress, performance, or furnishing of a participating entity's work; and,
 - 3) Notify Sourcewell of all conflicts, errors, or discrepancies in the IFB Documents of which Bidder knows.

The submission of a Bid constitutes a representation by the Bidder to Sourcewell that it has complied with the above requirements and that, without exception, its Bid is premised upon performing and furnishing the Work required by this IFB.

Bidders should include all relevant information in its bid. Sourcewell cannot consider information that is not provided in the bid.

- C. ESTIMATED CONTRACT VALUE AND USAGE. Based on past volume of similar contracts, the estimated annual value of each contract resulting from this IFB is \$4M for General Construction and \$2M for Mechanical/HVAC, Roofing and Weatherproofing, Electrical, and Site/Civil. Sourcewell anticipates considerable activity under the contract(s) awarded from this IFB; however, work and work volume from any resulting contract are not guaranteed.

V. BID PRICING

- A. CONSTRUCTION TASK CATALOG AND ADJUSTMENT FACTOR. In order to evaluate bid pricing and retain consistency within contract pricing, Sourcewell uses Gordian's proprietary Construction Task Catalog (CTC). The CTC is a comprehensive listing of specific repair and construction related Tasks, together with a specific unit of measurement and a pre-set unit price (Unit Price). All Unit Prices within the CTC are based on local labor, material, and equipment prices for the direct cost of construction.

Under this IFB, Bidders will offer price adjustments (Adjustment Factors) that will be applied to CTC Unit Prices. The Adjustment Factors represent either an increase to the preset Unit Prices (such as 1.1000) or a decrease from the preset Unit Prices (such as 0.9800).

A participating entity's cost for a specific task will be determined by multiplying the preset Unit Prices by the appropriate quantities and by the appropriate Adjustment Factor (e.g., specific task cost = preset unit price in CTC * quantity needed * Adjustment Factor).

- 1) Each Bidder must submit five Adjustment Factors to be applied to every task in the CTC. The bid must be either an adjustment "decrease from" (e.g. 0.9800) or "increase to" (e.g. 1.1000) the Unit Prices listed in the CTC.
- 2) The Bidder's Adjustment Factors must include all of the Bidder's direct and indirect costs. This includes, but is not limited to, its costs for overhead, profit, bond premiums above the reimbursable amount, insurance, mobilization, purchase order proposal development, and all contingencies in connection therewith. See pages 00-1 – 00-6 of the CTC for a complete explanation of what is and is not included in the Unit Prices. Note, where applicable, the bidder must comply with all applicable prevailing wage laws. The wage rates in the CTC were current at the time these IFB Documents were issued.
 - a. *The first Adjustment Factor* will be applied to work to be accomplished during Normal Working Hours and are performed on projects that **do require** prevailing wage rates.
 - b. *The second Adjustment Factor* will be applied to work to be accomplished during Other Than Normal Working Hours and are performed on projects that **do require** prevailing wage rates.
 - c. *The third Adjustment Factor* will be applied to work to be accomplished during Normal Working Hours and performed on Projects that **do not require** prevailing wage rates.
 - d. *The fourth Adjustment Factor* will be applied to work to be accomplished during Other Than Normal Working Hours and performed on Projects that **do not require** prevailing wage rates.
 - e. *The fifth Adjustment Factor* will be for work tasks not identified in the Construction Task Catalog. IQCC includes a provision for establishing of prices for Work requirements which are within the general scope of IQCC but were not included in the CTC at the time of Contract award. These Tasks are referred to as "Non Pre-priced Tasks (NPP)." NPP Tasks may require new specifications and drawings and may subsequently be incorporated into the CTC. The bidders will offer an Adjustment Factor to be applied to the actual material, equipment, and labor cost for NPP work Tasks.

- 3) Adjustment Factors may be specified to the fourth decimal place. For example:

1	.	1	0	0	0
---	---	---	---	---	---

Or

0	.	9	8	0	0
---	---	---	---	---	---

- 4) For bid evaluation purposes only, the following weighing of the Adjustment factors will be used to determine the Combined Adjustment Factor. Complete the following information within the Sourcwell Procurement Portal:

Adjustment Factors	Weight
NORMAL WORKING HOURS- PREVAILING WAGE RATE PROJECTS	35%
OTHER THAN NORMAL WORKING HOURS- PREVAILING WAGE RATE PROJECTS	10%
NORMAL WORKING HOURS- NON-PREVAILING WAGE RATE PROJECTS	35%
OTHER THAN NORMAL WORKING HOURS- NON-PREVAILING WAGE RATE PROJECTS	10%
NON-PRE-PRICED	10%

B. ADMINISTRATIVE FEES. Awarded contractors must pay an administrative fee in exchange for the administration of the contracts by Sourcwell and Sourcwell’s contract administrator, Gordian. The bidder must include the administrative fee in calculating the Contractor’s Adjustment Factors.

Detailed information about Sourcwell’s administrative fee can be found in Article VII. B of the General Terms and Conditions.

VI. CONTRACT AND LICENSURE

A. AGREEMENT. Bidders awarded a contract will be required to execute the Contract including its General Terms and Conditions attached to this IFB.

B. LICENSURE. Bidders awarded a contract are solely responsible for demonstrating any required licensure under applicable federal, state, or local laws to complete any work conducted under this contract. Sourcwell Participating Entities may request current documentation in support of required licensure on any work procured through this contract. Sourcwell makes no representations as to the validity and currentness of required licensure of awarded Bidders. Sourcwell does require Bidders to submit a description of their current licensure(s) within the IFB Questionnaire. Failure to provide required information will result in a non-responsive determination.

VII. BIDDING PROCESS

A. PRE-BID CONFERENCE. Sourcwell will hold a non-mandatory pre-bid conference via webcast on the date and time noted in the Solicitation Schedule and on the Sourcwell Procurement Portal. The purpose of this conference is to allow potential bidders to ask questions regarding this IFB. Information about the webcast will be sent to all entities that have registered for this solicitation opportunity through their Sourcwell Procurement Portal Vendor Account. Pre-bid conference attendance is optional but highly encouraged.

B. QUESTIONS REGARDING THIS IFB AND ORAL COMMUNICATION. Any questions regarding this IFB must be submitted through the Sourcwell Procurement Portal. The deadline for submission of questions is found in the Solicitation Schedule and on the Sourcwell Procurement Portal. Answers to questions will be issued through an addendum to this IFB. Repetitive questions will be summarized into a single answer and identifying information will be removed from the submitted questions.

All questions, whether specific to a Bidder or generally related to the IFB, must be submitted using this process. Do not contact individual Sourcwell staff (or any representative of Gordian) to ask questions or request information as this may disqualify the Bidder from responding to this IFB. Sourcwell will not respond to questions submitted after the deadline.

C. ADDENDA. Sourcwell may modify this IFB; however, no Addenda will be issued later than 5 days prior to the Bid Due Date, except an Addendum that withdraws or postpones this IFB. Addenda issued by Sourcwell become a part of the IFB and will be delivered to potential Bidders through the Sourcwell Procurement Portal. Sourcwell accepts no liability in connection with the delivery of any addenda.

Before a bid will be accepted through the Sourcwell Procurement Portal, all addenda, if any, must be acknowledged by the Bidder by checking the box for each addendum. It is the responsibility of the Bidder to check for any addenda that may have been issued up to the solicitation due date and time.

If an addendum is issued after a Bidder submitted its Bid, the Sourcwell Procurement Portal will WITHDRAW the submission and change the Bidder's Bid status to INCOMPLETE. The Bidder can view this status change in the "MY BIDS" section of the Sourcwell Procurement Portal Vendor Account. The Bidder is solely responsible to check the "MY BIDS" section of the Sourcwell Procurement Portal Vendor Account periodically after submitting its Bid (and up to the Bid due date). If the Bidder's Bid status has changed to INCOMPLETE, the Bidder is solely responsible to:

- 1) make any required adjustments to its bid,
- 2) acknowledge the addenda, and
- 3) ensure the re-submitted bid is received through the Sourcwell Procurement Portal no later than the Bid Due Date and time shown in the Solicitation Schedule above.

D. BID SUBMISSION. Bidder's complete bid must be submitted through the Sourcwell Procurement Portal no later than the date and time specified in the Solicitation Schedule and on the Sourcwell Procurement Portal. Any other form of bid submission, whether electronic, paper, or otherwise, will not be considered by Sourcwell. Late bids will not be considered. It is the Bidder's sole responsibility to ensure that the bid is received on time. To ensure receipt of the latest information and updates via email regarding this solicitation, or if the Bidder has obtained this IFB from a third party, the onus is on the Bidder to create a Sourcwell Procurement Portal Vendor Account and register for this solicitation opportunity.

Within the Procurement Portal, all bids must be digitally acknowledged by an authorized representative of the Bidder attesting that the information contained in the bid is true and accurate. By submitting a bid, Bidder warrants that the information provided is true, correct, and reliable for purposes of evaluation for potential contract award. The submission of inaccurate, misleading, or false information is grounds for disqualification from a contract award and may subject the Bidder to remedies available by law.

It is recommended that Bidders allow sufficient time to upload the bid and to resolve any issues that may arise. The time and date that a bid is received by Sourcwell is solely determined by the Sourcwell Procurement Portal web clock. In the event of problems with the Sourcwell Procurement Portal, follow the instructions for technical support posted in the portal. It may take up to 24 hours to respond to certain issues.

Upon successful submission of a bid, the Portal will automatically generate a confirmation email to the Bidder. If the Bidder does not receive a confirmation email, contact Sourcwell's support provider at

E. GENERAL BID REQUIREMENTS. Bids must be:

- In substantial compliance with the requirements of this IFB or it will be considered nonresponsive and be rejected
- Complete—a bid will be rejected if it is conditional or incomplete
- Submitted in English
- Valid and irrevocable for 180 days following the Bid Due Date

Any and all costs incurred in responding to this IFB will be borne by the Bidder.

F. BID MODIFICATION WITHDRAWAL. A submitted bid may not be modified, withdrawn, or cancelled by the Bidder for a period of 180 calendar days following the time and date designated for the receipt of bids. Prior to the deadline for submission of bids, any bid submitted may be modified or withdrawn through the Sourcewell Procurement Portal.

G. OPENING. The Opening of Bids will be conducted electronically through the Sourcewell Procurement Portal. A list of all Bidders will be made publicly available in the Sourcewell Procurement Portal after the Bid Due Date, but no later than the Opening time listed in the Solicitation Schedule.

To view the list of Bidders, verify that the Sourcewell Procurement Portal opportunities list search is set to “All” or “Closed.” The solicitation status will automatically change to “Closed” after the Bid Due Date and Time.

VIII. EVALUATION AND AWARD

A. EVALUATION. Only responsive bids will be evaluated. A responsive bid must have been submitted on time and materially satisfy all mandatory requirements identified in this IFB. Deviations or exceptions stipulated in Bidder’s response, while possibly necessary in the view of the Bidder, may result in disqualification.

B. AWARD(S). It is the intent of Sourcewell to award each Contract to the lowest, responsive, responsible Bidder(s) based on the Combined Adjustment Factor as calculated by Sourcewell within each Region.

C. CONTRACT TERM. The term of the resulting contract(s) awarded by Sourcewell under this solicitation will be one year. Sourcewell and Contractor may agree to up to three additional one-year extensions. Sourcewell retains the right to consider additional extensions beyond four years as required under exceptional circumstances.

A Bidder will not be awarded more than one same scope Contract within any Region. The maximum number of contracts to be initially awarded by geographic region and contract type are reflected in the tables below:

All Regions:	
General Construction	10 Contracts
Mechanical/HVAC	4 Contracts
Roofing and Weatherproofing	4 Contracts
Electrical	3 Contracts
Site/Civil	3 Contracts

Sourcewell reserves the right to award additional contracts from this solicitation, above the stated maximum number, if it is determined to be in the best interests of Sourcewell and participating entities, for a period of 180 Days (or longer, if mutually agreeable to both the bidder and Sourcewell).

Sourcewell retains the right to waive any informality in a Bidder's response. Sourcewell reserves the right to reject all bids and advertise again if, in Sourcewell's opinion, the bids received do not meet or exceed the minimum needs and expectations of Sourcewell and its participating entities. Sourcewell reserves the right to award additional Contracts from this solicitation up to 180 calendar days after the close of the IFB.

Competitive Range. If Sourcewell receives a wide margin of bid Adjustment Factors, either too high or too low, then the Sourcewell Bid evaluation committee may establish a Competitive Range for the IFB. If it is determined that a Bidder's Combined Adjustment Factor is too far outside the Competitive Range, then the Bidder can be removed from consideration. The Bidder will be notified that it was determined to be outside the Competitive Range after award of the contracts.

Unbalanced Bid. A Bid may be removed from consideration if it is determined that the Bidder has mathematically unbalanced its Bid to gain a competitive advantage. The Bid will be considered to be unbalanced if any Adjustment Factor is found to not cover the contractor's reasonable actual cost. Those costs would include a reasonable prorated share of its anticipated profit, overhead cost, and other indirect costs that the bidder anticipates for the performance of the work as determined by the Sourcewell Bid Review Committee.

Other Than Normal Working Hours Adjustment Factors. A Bidder's Other Than Normal Working Hours Adjustment Factors must be higher or equal to its Normal Working Hours Adjustment Factors.

Non-Pre-Priced Adjustment Factors. A bidder's Non-Pre-Priced adjustment factor must not be lower than 1.0000.

IX. ASSIGNMENT OF WORK

See the Contract, and General Terms and Conditions for a detailed description of how work will be assigned.

X. PROTESTS OF AWARDS

Any protest made under this IFB by a Bidder must be in writing, addressed to Sourcewell's Executive Director, and delivered to the Sourcewell office located at 202 12th Street NE, Staples, MN 56479. All documents that comprise the complete protest package must be received no later than 10 calendar days following Sourcewell's notice of contract award(s) or non-award and must be time stamped by Sourcewell no later than 4:30 p.m., Central Time.

A protest must allege a procedural or technical defect, with supporting documentation. A request for re-evaluation of a bid's content will not be entertained.

A protest must include the following items:

- The name, address, and telephone number of the protester
- The original signature of the protester or its representative
- Identification of the solicitation by IFB number
- A precise statement of the relevant facts
- Identification of the alleged breakdown in procedure or technical issues

- Identification of the legal or factual basis
- Any additional supporting documentation
- Protest bond in the amount of \$20,000, except where prohibited by law or treaty

Protests that do not address these elements will not be reviewed.

XI. RIGHTS RESERVED

This IFB does not commit Sourcewell to award any contract, and a bid may be rejected if it is nonresponsive, conditional, incomplete, conflicting, or misleading. Bids that contain false statements or do not support an attribute or condition stated by the Bidder may be rejected.

Sourcewell reserves the right to:

- Modify or cancel this IFB at any time
- Reject any and all bids received
- Reject bids that do not comply with the provisions of this IFB
- Independently verify any information provided in a Bid
- Disqualify any Bidder that does not meet the requirements of this IFB, is debarred or suspended by the United States or Canada, State of Minnesota, participating entity's state; has an officer, or other key personnel, who have been charged with a serious crime; or is bankrupt, insolvent, or where bankruptcy or insolvency are a reasonable prospect;
- Waive or modify any informalities, irregularities, or inconsistencies in the bids received
- Clarify any part of a bid
- Award a contract if only one responsive bid is received if it is in the best interest of participating entities
- Award a contract to one or more Bidders if it is in the best interest of participating entities

XII. DISPOSITION OF BIDS

All materials submitted in response to this IFB will become property of Sourcewell and will become public record in accordance with Minnesota Statutes Section 13.591. It is the Bidder's responsibility to clearly identify any data submitted that it considers to be protected. Bidder must also include a justification for the classification citing the applicable Minnesota law.

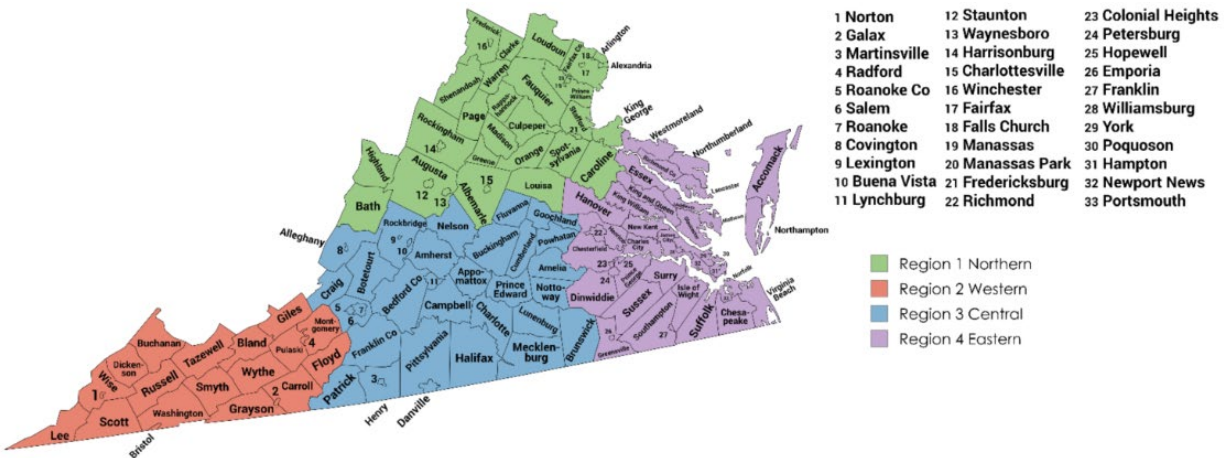

Sourcewell will not consider the prices submitted by the Bidder to be confidential, proprietary, or trade secret materials. Financial information, including financial statements, provided by a Bidder is not considered trade secret under the statutory definition.

The Bidder understands that Sourcewell will reject bids that are marked confidential nonpublic, either substantially or in their entirety.

Addendum No. 1

Solicitation Number: IFB VA-030326

Solicitation Name: Indefinite Delivery Indefinite Quantity Construction - Virginia

Consider the following Question(s) and Answer(s) to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

Will projects from these contracts be direct awarded to individual contract awardees?

Answer 1:

Contracts awarded from this IFB will be made directly to contractors. Sourcewell participating entities can then choose to complete a project with awarded contractors using the Sourcewell contract. Use of Sourcewell contracts is voluntary, and participating entities retain the right to obtain similar services from other sources.

Question 2:

Good morning, We provide soundproofing products and services such as acoustical wall and ceiling panels that are manufactured in the U.S.

My question is i do not see a section just for this line item to see if we fit your needs.

Could someone let me know if we are a match for this service

Thank you

Answer 2:

Sourcewell will not pre-qualify any products or services. It is left to the bidder's discretion to submit a bid on the trade(s) that it best determines to align with their organization. Sourcewell utilizes a competitive, solutions-based solicitation approach that is NOT based on detailed specifications or specific opportunities.

Question 3:

The 'Sample Contract' has a section that states ' The Contractor [TBD – has/has not] agreed to perform work outside the Region'. Does outside this region include outside of Virginia itself? Thank you!

Answer 3:

Refer to Table 4: Agreement to Work Outside Geographic Region in step two of the bid submission process within the procurement portal. There are times that a Contractor may be asked to perform work for Sourcewell Participating Entities that have facilities in areas outside of the geographic region. By agreeing, the Bidder is saying that they will consider performing work in such areas in the Commonwealth or other States. The Contractor will have the option to decline Projects outside of the Geographic Region if they so desire. Ultimate ability to use a contract is determined by the participating entity.

End of Addendum

Acknowledgement of this Addendum to IFB VA-030326 posted to the Sourcewell Procurement Portal on 01/29/2026, is required at the time of proposal submittal.

2/2/2026

Addendum No. 2

Solicitation Number: IFB VA-030326

Solicitation Name: Indefinite Delivery Indefinite Quantity Construction - Virginia

Consider the following Question(s) and Answer(s) to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

If awarded, must we provide service to the Virginia regions shown in the IFB documents? Or do we have the option of providing service only to geographical regions or states other than Virginia?

Answer 1:

The area in which Sourcewell is seeking to establish contracts with this solicitation is in the Commonwealth of Virginia.

Question 2:

Good morning, We provide soundproofing products and services such as acoustical wall and ceiling panels that are manufactured in the U.S.

My question is i do not see a section just for this line item to see if we fit your needs.

Could someone let me know if we are a match for this service

Thank you [sic]

Answer 2:

Although the CTC does not list a standalone category for soundproofing or acoustical panels, these products and installation services are generally covered under the Finishes section of the CTC, or they can be submitted as Non-Pre-Priced (NPP) items when not explicitly listed.

The contract types for this solicitation include the following: General Construction, Mechanical/HVAC, Roofing and Weatherproofing, Electrical, and Site/Civil. If your services align with any of these categories, you may be a match for this opportunity.

End of Addendum

Acknowledgement of this Addendum to IFB VA-030326 posted to the Sourcewell Procurement Portal on 2/2/2026, is required at the time of proposal submittal.

02/04/2026

Addendum No. 3

Solicitation Number: IFB VA-030326

Solicitation Name: Indefinite Delivery Indefinite Quantity Construction - Virginia

Consider the following Question(s) and Answer(s) to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

Who pays the 7.5% fee the contractor or owner

Answer 1:

Detailed information about Sourcewell's administrative fee can be found in Article VII. B of the General Terms and Conditions.

Question 2:

What fee does the purchaser pay and to who

Answer 2:

Refer to Answer 1.

Question 3:

Virginia entities are under a mandate to use EVA. Does this contract take that into consideration or does EVA go away?

Answer 3:

This Sourcewell solicitation is separate and independent of any solicitation posted to the Commonwealth of Virginia's eVA marketplace website. Ultimate ability to use a contract is determined by the participating entity.

End of Addendum

Acknowledgement of this Addendum to IFB VA-030326 posted to the Sourcewell Procurement Portal on 02/04/2026, is required at the time of proposal submittal.

02/06/2026

Addendum No. 4

Solicitation Number: IFB VA-030326

Solicitation Name: Indefinite Delivery Indefinite Quantity Construction - Virginia

Consider the following Question(s) and Answer(s) to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

We are an SBA-certified SDVOSB wholesale distributor to federal, state, and local government. We provide healthcare furniture, durable medical equipment, industrial equipment / hardware / supplies / tools, and enterprise IT hardware. We hold several long-term federal contracts for healthcare furniture, durable medical equipment, and industrial goods. Is Sourcewell looking for suppliers as well as construction contractors? We are a state-certified Texas VethUB, which can be beneficial for Texas state-sponsored business opportunities, especially those in higher education and healthcare.

Answer 1:

This Sourcewell solicitation is seeking to establish Indefinite Delivery, Indefinite Quantity construction contracting services in the Commonwealth of Virginia. Sourcewell conducts other solicitations for different categories throughout the year. Prospective suppliers are encouraged to sign up for automated solicitation notices by selecting applicable NAICS codes within their procurement portal account. Upcoming solicitations can be viewed on the portal by toggling the drop-down menu from "open" to "planned."

End of Addendum

Acknowledgement of this Addendum to IFB VA-030326 posted to the Sourcewell Procurement Portal on 02/06/2026, is required at the time of proposal submittal.

02/10/2026

Addendum No. 5

Solicitation Number: IFB VA-030326

Solicitation Name: Indefinite Delivery Indefinite Quantity Construction - Virginia

Consider the following Question(s) and Answer(s) to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

If we are selected for this contract and asked to bid on a project, how long do we have to submit a proposal and start the work after award of a purchase order?

Answer 1:

Proposal and work timelines are determined by the Participating Entity based on the urgency and scope of each project. Upon receiving a Request for Proposal (RFP), the selected contractor will promptly participate in a Joint Scope Meeting, develop the Detailed Scope of Work, submit a complete Price Proposal, schedule, and all required documentation within the timeframe established at the Joint Scope Meeting. Once the Purchase Order and Notice to Proceed are issued, the contractor will prepare and mobilize immediately or within any agreed upon schedule the Owner specifies.

Question 2:

Should we include the bond fee (2%), and Gordian fee (7.5%) in our adjustment factor?

Answer 2:

Refer to IFB Section V. Bid Pricing and to "Using the Construction Task Catalog" section immediately following the table of contents in the CTC. The 7.5% administrative fee must be included in your adjustment factors at time of submission.

Question 3:

Can you give me an example of a reimbursable fee that we will apply the 1.10 adjustment factor to?

Answer 3:

Examples of when to use the reimbursable fee are for when bonds or permits are required. As an example, when a Participating Entity requires payment, performance, or workmanship bonds for a Work Order, the contractor must purchase those bonds before receiving the Notice to Proceed. Because the bonds are a necessary and legitimate project expense, the contractor is reimbursed for their cost, up to 2% of the Work Order Price, using the "Reimbursable Fee" task in the Construction Task Catalog. Instead of applying the contractor's normal competitively bid Adjustment Factor, this reimbursement line uses a fixed 1.1000 Adjustment Factor, which ensures the contractor is repaid for the bond expense without adding their full markup. This structure fully compensates the contractor for required bond costs while protecting the owner from excessive overhead or profit applied to those costs.

Question 4:

Are bid bonds required for this solicitation?

Answer 4:

On a per project basis, bonds may be required by the Participating Entity. Refer to General Terms and Conditions, specifically article IV, L, Bonds: Payment and Performance or Material and Workmanship.

Question 5:

In section 10 14 63 there is mention of Electronic Message Signage I have been looking through the document for specifications as to if this would be a good fit for my company but could not find any more information. Now there are 15,000+ pages so maybe I am missing it. Could you please supply some more information on this section? Mainly would like to know if this is in reference to a trailerbased Message Sign/Board like the ones on the side of the road during construction, or if it is referring to a large overhead electronic board usually found on the highway showing traffic messages.

Answer 5:

While section 10 14 63 of the CTC references Electronic Message Signage, the primary intent of this solicitation is to establish construction contracting services primarily related to general construction, mechanical/HVAC, Roofing and Weatherproofing, Electrical, and Site/Civil. Particular portions or aspects of a project may require the use of electronic message signage at which point this section of the CTC may be used.

Question 6:

When will the awarded contractors get notified, they were selected for this RFP?

Answer 6:

The review process will take approximately 30 days after which ALL respondents, both awarded and non-awarded, will receive an email notification. Sourcewell reserves the right to extend this timeline in its sole discretion.

End of Addendum

Acknowledgement of this Addendum to IFB VA-030326 posted to the Sourcewell Procurement Portal on 02/10/2026, is required at the time of proposal submittal.

02/11/2026

Addendum No. 6

Solicitation Number: IFB VA-030326

Solicitation Name: Indefinite Delivery Indefinite Quantity Construction - Virginia

Consider the following Question(s) and Answer(s) to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

Can a copy of or link to the pre-bid video conference (IFB VA-030326) from February 10th be provided to the bidders?

Answer 1:

A link to the pre-bid conference recording as well as the presentation slides were emailed to all registered plan takers on 2/10/2026. In addition, the link and slides have been posted to the documents section of the bid details page.

Question 2:

We are a mechanical contractor and would like to bid on a contract that allows for HVAC maintenance, repairs, and replacement. Our company serves Virginia, West Virginia and North Carolina. Is this the right agreement for us to bid on?

Answer 2:

Sourcewell is unable to advise on which solicitations a potential supplier should bid. Sourcewell is seeking to establish contracts with this solicitation in the Commonwealth of Virginia and is soliciting bids for the following trades: General Construction, Mechanical/HVAC, Roofing and Weatherproofing, Electrical, and Site/Civil.

End of Addendum

Acknowledgement of this Addendum to IFB VA-030326 posted to the Sourcewell Procurement Portal on 02/11/2026, is required at the time of proposal submittal.

2/25/2026

Addendum No. 7

Solicitation Number: IFB VA-030326

Solicitation Name: Indefinite Delivery Indefinite Quantity Construction - Virginia

Consider the following Question(s) and Answer(s) to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

In Step 4, is it acceptable for the company point of contact preparing and submitting the proposal to electronically sign on behalf of the company's authorized representative or does the authorized representative signing the proposal have to prepare and submit the proposal from their own Sourcewell account?

Answer 1:

Sourcewell cannot advise a bidder on how to complete the response. Each bidder, in its discretion, must prepare and submit the bid in a manner that aligns with its business methods and policies. The entire bid package is to be submitted under the same supplier account within the portal.

Question 2:

Do you have to have an office in the selected geographical region?

Answer 2:

This is not a requirement of the Sourcewell IFB, but please refer to IFB section VI. entitled Contract and Licensure.

Question 3:

Should bidders submit a COI with their proposal response to show compliance with the insurance requirements outlined in section XVII of the General Conditions?

Answer 3:

The Sourcewell IFB is an open and competitive solicitation process. It is left to the discretion of each bidder to determine the information or documentation necessary to best demonstrate their ability to serve Sourcewell participating entities and satisfy all the requirements included in the IFB.

Question 4:

Please clarify what should be uploaded under Additional Documents, such as a COI, team resumes, etc?

Answer 4:

The Sourcewell IFB is an open and competitive solicitation process. It is left to the discretion of each bidder to determine the information or documentation necessary to best demonstrate their ability to serve Sourcewell Participating Entities and satisfy all the requirements included in the IFB.

Question 5:

Is there a guaranteed minimum annual contract value per awarded contractor?

Answer 5:

Sourcewell does not impose minimums or maximums. However, review Section IV. BID OVERVIEW AND PREPARATION INSTRUCTIONS, C. ESTIMATED CONTRACT VALUE AND USAGE in the IFB for additional information on estimated annual value.

Question 6:

How will task orders be distributed among awarded contractors within each region?

Answer 6:

Under the Sourcewell program, participating entities choose the contractor they want to work with. Their selection can be based on several factors, including past performance, adjustment factor pricing, contractor capabilities, availability, and other agency specific considerations.

Question 7:

If awarded the IDIQ, what is the maximum and/or minimum participation required on IDIQ contracts? Are offerors to expect to respond to all IDIQ postings?

Answer 7:

There is no maximum or minimum participation requirement. Acceptance or Non-Acceptance of work is a business decision for the contractor to make at the initiation of a project. Contractors do have first right of refusal in this program.

Question 8:

If awarded a General Construction Contract, what is the assumed number of annual task orders to be awarded under this contract?

Answer 8:

Based on past volume of similar contracts, the estimated annual value of each contract resulting from this IFB is \$4M for General Construction. Sourcewell anticipates considerable activity under the contract(s) awarded from this IFB; however, work and work volume from any resulting contract are not guaranteed.

Question 9:

What is the typical magnitude of a General Construction Contract task order under this contract?

Answer 9:

Based on past volume of similar contracts, the estimated annual value of each contract resulting from this IFB is \$4M for General Construction. Sourcewell anticipates considerable activity under the contract(s) awarded from this IFB; however, work and work volume from any resulting contract are not guaranteed.

Question 10:

What is the assumed minimum magnitude of a General Construction Contract task order under this contract?

Answer 10:

There is no assumed minimum.

Question 11:

What is the assumed maximum magnitude of a General Construction Contract task order under this contract?

Answer 11:

There is no assumed maximum.

Question 12:

Can a copy of historical annual task orders be provided to gauge the volume and magnitude of assumed task orders to be awarded?

Answer 12:

Based on past volume of similar contracts, the estimated annual value of each contract resulting from this IFB is \$4M for General Construction. Sourcewell anticipates considerable activity under the contract(s) awarded from this IFB; however, work and work volume from any resulting contract are not guaranteed.

Question 13:

Are contractors to assume a certain number of required Full Time Equivalent (FTEs) on each task order? Will a full time superintendent be required per task order? Will any additional full time staff be required?

Answer 13:

Contractors are not required to assume any set number of FTEs as Superintendent and staffing needs are project specific, driven by scope and owner requirements on a project-by-project basis. Refer to the CTC section titled "Using the Construction Task Catalog" for further information and General Conditions which outline applicable labor classifications and wage rates.

Question 14:

Are contractors to assume that bonds are required for all task orders? Are bonds reimbursable or to be included within the adjustment factor?

Answer 14:

Refer to addendum 2. On a per project basis, bonds may be required by the participating entity. Refer to General Terms and Conditions, specifically article IV, L, Bonds: Payment and Performance or Material and Workmanship.

Question 15:

Are contractors to assume that builders risk insurance is required for all task orders? Is Builders Risk Insurance reimbursable or to be included within the adjustment factor?

Answer 15:

Refer to General Terms and Conditions section XVII. entitled Insurance. Where specifically required in the Detailed Scope of Work, the Contractor will provide, before the Purchase Order is issued, Builders' Risk Insurance in an amount at least equal to the Purchase Order Price in a form and by a carrier acceptable to the Participating Entity. The cost of such Builders Risk Policy will be reimbursed to the Contractor as a reimbursable task.

End of Addendum

Acknowledgement of this Addendum to IFB VA-030326 posted to the Sourcewell Procurement Portal on 2/25/2026, is required at the time of proposal submittal.
