

Draeger #032620-DRG

Pricing for contract #032620-DRG offers Sourcewell participating agencies the following discounts:

The fixed percentage discount is 15% off the published list prices with the exception of our Engineered Solutions (ES) product line which will be offered at a 2% discount from those published list prices.

The ES products consist of various forms of training systems and equipment. Many of these training systems are quite large and customizable based upon the agency's needs and thus you will notice that several of the items are marked as "Please Call" for pricing. In these cases, the list price will be established once the exact configuration of the training system has been determined and then the 2% discount will be applied based upon that established list price.
