- 1) For the Subsidy to be effective, Customer will activate a line of Service under its Master Account. Each line of Service must be activated and maintained for at least 24 months from the date of activation without any suspension or termination of any line of Service (the “**Subsidy Term**”);
- 2) Each line of Service must remain active, without suspension, for a 90-day period following the activation (“**Minimum Activations Period**”);
- 3) Each line of Service must be activated in accordance with the terms of the Agreement;

- 5) The subsidy cannot be combined with any other discounts, credits or promotional offers; and
- 6) Customer’s account with T-Mobile must be in good standing to receive the subsidy.

Minimum Activation Period/Termination. Customer may either (i) pay T-Mobile the aggregate amount of issued subsidy for terminated lines of Service which are terminated before the end of the Subsidy Term within 30 days of termination of the affected lines of Service; or (ii) T-Mobile may charge Customer for the Activation Credits issued for each terminated lines of Service and Customer agrees to pay T-Mobile for the Subsidy issued to Customer for the terminated lines within 30 days of issuance of notice by T-Mobile.
