Sourcewell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

B. **SURVIVAL OF TERMS.** Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

A. **EQUIPMENT, PRODUCTS, OR SERVICES.** Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

Representations of coverage by Supplier or its agents are not guarantees. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This

- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

A. **ORDERS AND PAYMENT.** To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. **TERMINATION OF ORDERS.** Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

17	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	Wireless spectrum licenses segmented by geographic areas are granted by the FCC. The completion of acquisitions, involving the transfer of control of all or a portion of a wireless system, requires prior FCC approval. The FCC determines on a case-by-case basis whether an acquisition of wireless spectrum licenses is in the public interest. Wireless spectrum licenses are granted generally for a ten-year term or, in some cases, for a twelve-year or fifteen-year term. The FCC establishes the standards for conducting comparative renewal proceedings between a wireless license holder seeking renewal of its license and challengers filing competing applications. All of USCC wireless spectrum licenses for which it applied for renewal since 1995 have been renewed. USCC expects to continue to meet the criteria of the FCC's license renewal process. USCC is subject to other Federal, state, and local regulations, all of which it remains compliant. For more information, please see USCC's Form 10-k for the fiscal year ended December 31, 2023.	*

Table 9B: Performance Standards or Guarantees

Describe in detail your performance standards or guarantees, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your performance materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
-----------	----------	------------

53	Describe any performance standards or guarantees that apply to your services	<p>Network Database Maintenance and Redundancy.</p> <p>Our network is designed and deployed with redundancy and high availability in mind. The LTE and 5G cores are deployed with a minimum of N+1 local and geographic redundancy up to N+4 redundancy for critical nodes.</p> <p>Network Reliability USCC does not make a practice of blocking any valid customer calls. USCC strives to provide the best possible service to our customers at all times. Network events and outages do occur and USCC elevates customer impacting outages to the highest priority. Network events have a wide range of flavors, examples include RAN related events due to fiber cuts and hardware failures. In all events, USCC's top priority is to restore the customer and service impact within our industry comparable targeted SLA timeframes. USCC applies enterprise level service and system monitoring. This includes KPI level monitoring of all core services across our network. USCC also ensures capacity needs are adequate to maintain service levels.</p> <p>Disaster Recovery Routing In some cases, rerouting of TF traffic would occur when USCC becomes aware or an issue or customers may request call forwarding of an existing MDN to a different phone number in the event of a disaster or other type of emergency event. Additional charges may be incurred on a PAYGO plan or any other plan that does not include unlimited voice/calling.</p> <p>Disaster Recovery Capabilities Disaster recovery program: USCC has a National Network Operations Center monitoring network alarming on a 24/7 basis. We monitor the status of our network on a cell site level at all times, allowing us to understand the impact due to the outage from a single cell site to a large cluster of cell sites. Deployable assets: Each Operations team has a fleet of portable generators that are taken to a cell site without commercial power and will supply power until commercial power is restored. In the case where a Cell on Light Truck (COLT) may be required – the Engineering and Operations team takes a proactive approach on COLT deployment, and it is based on potential duration of the outage and surrounding cell site coverage. Ability to deploy a COLT within a 12-hour window.</p> <p>Network Performance Statistics</p> <p>Availability of Network Performance Statistics is dependent upon the subscribed services. USCC utilizes multiple solutions to monitor all of supported services which allows us to accommodate myriad reporting requests and provide guidance on how to best use the statistics to achieve desired results. Measures are available for Individual Application Traffic Flows.</p> <p>Scalability/Expandability/Capacity</p> <p>USCC continuously monitors its' network elements to ensure they are not suffering from congestion issues. USCC performs monthly capacity analysis on all cell sites and core elements, and uses that data to project future capacity needs based upon both current performance and forecast traffic demand. USCC's capacity process is set up to ensure any congestion-related solutions are deployed 6-months prior to the expected capacity trigger-point.</p>
54	Describe any service standards or guarantees that apply to your services (policies, metrics, KPIs, etc.)	<p>Bandwidth and Service Level Agreements (SLAs)/Reliability/Redundancy:</p> <p>Redundancy: Our data centers are designed to anticipate and tolerate failure while maintaining service levels. In case of failure, automated processes move traffic away from the affected area. Core applications are deployed to an N+1 standard so that in the event of a data center failure, there is sufficient capacity to enable traffic to be load-balanced to the remaining sites.</p> <p>Reliability: UScellular Disaster Response Management Team (DRMT) supports customers before, during and after disaster events through our National Network Operations Center (NNOC). UScellular 24/7 network incident monitoring and troubleshooting triggers early warning, prestaging, command and control systems. When an issue is discovered, Service outage notifications are driven from our NOC; our NOC team sends email and text alerts directly to the internal field. During times of anticipated natural disasters, UScellular activates its vetted Disaster Recovery team to ensure increased customer-ready ground and virtual support. Additional actions are taken during heightened emergencies for supporting public safety business customers such as hospitals, public works, electric companies, etc., to safeguard the highest level of wireless service. Our Critical Connectivity includes WPS (wireless priority service) for voice, DPS (data priority service).</p>

Two key documents we propose for use in connection with an awarded contract include:</p> <p>Service Order Form (Business/Government Customer): This document serves as an agreement between the customer and USCC for the provision of services. It outlines the specific services to be provided and the associated terms and conditions. Standard terms and conditions apply unless a Custom Master Service Agreement (MSA) is executed to address specific requirements or provisions.</p> <p>Master Service Agreement/Custom MSA (Business/Government Customer): The Master Service Agreement (MSA) or Custom MSA contains the legal terms and conditions applicable to the Service Order Form and all purchases made under it. This document outlines the rights, responsibilities, and obligations of both parties in detail, ensuring a clear understanding of the contractual relationship. You can find a sample of each of these two transaction documents located in the Documents section of this RFP response.</p>
58	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcwell participating entities for using this process?	<p>Yes, USCC will accept the P-card procurement and payment process, ensuring convenience and flexibility for Sourcwell participating entities. Importantly, there are no additional fees associated with using a card, providing a seamless and cost-effective payment experience for our customers.</p>

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcwell Price and Product Change Request Form.

Line Item	Question	Response *
-----------	----------	------------

59	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Our pricing model is designed to provide flexibility and value to our customers. We offer discounting at the line level (subscriber level) for select rate plans, ensuring that customers receive competitive pricing tailored to their specific needs. Our detailed pricing data, including standard or list pricing and the Sourcewell discounted price, is provided in the attached pricing submission. This submission outlines the discount amount and the price net of the discount for each item included in our proposal. By leveraging our line-item discounts and transparent pricing structure, Sourcewell participating entities can confidently evaluate the value proposition of our offerings and make informed decisions that align with their budgetary requirements and objectives.	*
60	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	USCC's pricing proposal represents significant discounts aimed at providing exceptional value to Sourcewell participating entities. For eligible rate plans and accessories, we offer a percentage discount applied to Monthly Recurring Charges (MRC), ranging from 10% to 50%. Additionally, for eligible equipment, our discounts are reflected in subsidy amounts ranging from \$300 to \$600, applied to the Manufacturer's Suggested Retail Price (MSRP). These discounts underscore our commitment to offering competitive pricing while ensuring access to high-quality products and services tailored to meet the diverse needs of our customers. Our transparent and structured pricing approach enables Sourcewell entities to make informed decisions and maximize the benefits of their procurement investments.	*
61	Describe any quantity or volume discounts or rebate programs that you offer.	USCC's pricing proposal represents significant discounts aimed at providing exceptional value to Sourcewell participating entities. (As stated in Question #60) For eligible rate plans and accessories, we offer a percentage discount applied to Monthly Recurring Charges (MRC), ranging from 10% to 50%. Additionally, for eligible equipment, our discounts are reflected in subsidy amounts ranging from \$300 to \$600, applied to the Manufacturer's Suggested Retail Price (MSRP). Following the verification of sales transactions, our system calculates the administrative fee, set at 1% admin fee of all monthly reoccurring voice and data service charges. This calculation is then reviewed by our contract administration team, which is responsible for the extraction and remittance of the administrative fee to Sourcewell. (The process is described further in Question #68)	*
62	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Our approach to facilitating 'sourced' products or related services, often referred to as 'open market' items or 'nonstandard options,' involves a meticulous process aimed at ensuring quality and compliance. When sourcing new products or solutions, we engage with a wide network of certified authorized representatives (AR) who adhere to our rigorous standards. These ARs collaborate closely with our product and partner management team, network engineering, wireless solution architects, procurement, and legal teams to ensure that all products and services meet our stringent requirements. This collaborative approach guarantees that the sourced items align with our standards for certification and compliance. The cost of these items may vary based on specific requests, but we are committed to providing upfront quotes for transparency and clarity. This allows Sourcewell members to assess the value and make informed decisions in line with their procurement needs and budgetary considerations.	*

63	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	<p>We believe in providing transparent and thorough pricing that covers all costs associated with serving Sourcewell members. Our submitted pricing includes all relevant expenses, ensuring clarity and predictability for our customers.</p> <p>Included in our pricing are costs related to training and implementation, where applicable. We prioritize ensuring that our customers have access to the necessary resources and support to maximize the value of their investment.</p> <p>Importantly, we adhere to our quoted prices without imposing any additional charges outside of the agreed-upon terms. Our commitment to transparency and integrity means that Sourcewell members can trust in the accuracy and fairness of our pricing, without any surprises or hidden fees. Our Sales Order Form (SOF) and Master Service Agreement (MSA) would also spell out all additional fees associated with the purchase.</p>	*
64	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	For USCC customers shipping rates are as follows: Standard rates: Ground is Free, 2 Day is \$4.99, Overnight is \$14.99 and Saturday is \$19.99 per order. Prices may vary by size and weight.	*
65	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	<p>We primarily utilize ground delivery services, typically ensuring two-day delivery to these destinations. We understand that expedited delivery may be necessary in certain circumstances. Therefore, overnight delivery options are available upon request and subject to availability.</p> <p>To facilitate these deliveries, USCC partners with United Parcel Service (UPS), a trusted and reliable shipping provider known for its global reach and efficiency.</p>	*
66	Describe any unique distribution and/or delivery methods or options offered in your proposal.	We have multiple National Distribution Centers that are positioned to facilitate expedited delivery and ensure redundancy in our operations. By leveraging this network, we can effectively manage inventory and streamline the delivery process, ultimately providing Sourcewell participating entities with faster and more reliable service.	*

The service plan pricing offered to Sourcewell members includes very competitive BYOD plan options. In addition, the equipment pricing offered to Sourcewell members is generally better than what USCC offers via GPOs or other state purchasing agreements.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
68	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	<p>To ensure compliance with our contract with Sourcewell, our organization employs a self-audit process anchored by our advanced Customer Relationship Management (CRM) system. This system is meticulously configured to accurately identify and track customers benefiting from the Sourcewell agreement, thereby ensuring all applicable revenue is captured in alignment with the contract stipulations.</p> <p>Upon the completion of each sales cycle, our financial analysts conduct a thorough review of the transactions recorded in the CRM to validate the integrity and accuracy of the sales data corresponding to the Sourcewell agreement. This validation process is critical for ensuring that all participating entities of Sourcewell are afforded the correct pricing as per the agreement.</p> <p>Following the verification of sales transactions, our system calculates the administrative fee, set at 1% admin fee of all monthly reoccurring voice and data service charges. This calculation is then reviewed by our contract administration team, which is responsible for the extraction and remittance of the administrative fee to Sourcewell.</p> <p>Our process is indicative of our strong capability and commitment to adhere to the terms of the contract with Sourcewell, demonstrating our dedication to ensuring mutual success and compliance throughout the duration of our partnership.</p>
69	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	<p>USCC will leverage a robust metrics tracking system to evaluate our performance under the Sourcewell contract. This system includes detailed analyses of core product lines such as handsets, connected devices, and IoT solutions on a weekly, monthly, and quarterly basis. Year-over-year sales figures analysis will help us track progress and identify growth opportunities. Additionally, we'll closely monitor customer satisfaction and retention rates as pivotal indicators of service quality and customer loyalty. These metrics, coupled with revenue growth tracking, are crucial for optimizing the value delivered to Sourcewell members, ensuring we meet and exceed the contract's objectives.</p>
70	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	<p>USCC firmly believes in the principles of simplicity and consistency as cornerstones of a successful partnership. With an optimistic outlook towards a prosperous relationship with Sourcewell and its members, we are committed to contributing to the collective success of all parties involved. In alignment with this commitment, USCC is pleased to propose a straightforward administrative fee structure: a 1% fee applied to all monthly recurring charges for voice and data services. This fee arrangement is designed to facilitate and support the seamless administration, management, and promotion of the Sourcewell Contract, without adding any direct cost to Sourcewell members. We look forward to the opportunity to contribute to the mutual growth and success that this agreement promises.</p>

79	For services made available in Canada, describe your plan offerings and identify applicable roaming charges, if any.	Currently, USCC does not offer specific plan packages for users based in Canada. However, for USCC customers traveling or requiring service within Canada, roaming services are available. It is essential to note that voice and data roaming charges may be applicable for use within Canada. These charges are determined based on the customer's existing plan with USCC. However, our unlimited plans have voice and data roaming included at no additional charge. We encourage our customers to review their plan's details or reach out to our customer support team for information regarding applicable roaming charges while in Canada. This proactive approach ensures our customers can manage their service use with full awareness of potential costs, maintaining our commitment to transparency and customer satisfaction.
80	Describe your policies and processes related to: upgrades; BYOD; number porting; early termination fees; and line minimums.	<p>Upgrades and BYOD- Equipment: USCC will sell equipment to you at the prices set forth in the applicable Service Order for each new line of service activated by you, and each Eligible Upgrade. All Equipment is provided on an "as is" basis, except that USCC passes through to you any warranties available from its suppliers, to the extent that USCC is permitted to do so under its contracts with those suppliers. Equipment purchased for use with the service may be subject to additional terms and conditions as applicable. You may only utilize equipment sold by or otherwise provided by USCC, or in the case of equipment that is obtained directly by you from a third party, only third-party equipment that is approved in writing by USCC for purposes of confirming whether such equipment will work on USCC networks. If you attempt to use equipment which is not approved in writing by USCC, you are responsible for determining whether such device works on the USCC network by visiting https://www.usccellular.com/phones/bring-your-own-device. USCC is not responsible for any equipment which you provide. USCC reserves the right to revoke any previous approval for third-party equipment and to refuse to provide Service(s) for any customer-provided equipment at any time and for any reason in its sole discretion. Except for Eligible Upgrades and new activations, all other purchases or upgrades of wireless handset Equipment shall be at full retail price unless otherwise agreed to by the parties in a Service Order.</p> <p>Only subsidized Equipment or Equipment purchased without installment payments may be ordered and purchased under the Service Order. TERM AND TERMINATION

Term and Renewals. Any term under a Service Order shall commence upon activation of Service, and any Service Commitment shall be the "Initial Term" associated with the line of Service activated under the applicable Service Commitment. If there is no Service Commitment, then the Initial Term shall be defined as a one-month term. Unless terminated earlier per the terms of this MSA, or expires per the term of the Service Commitment, any Service provided pursuant to this MSA and an applicable Service Order shall renew for successive thirty-day terms (each a "Renewal Term") unless either party notifies the other party in writing of its intent not to renew the Service(s) under the applicable Service Order, and such notice is provided at least thirty days prior to the Initial Term or the then-current Renewal Term, as the case may be. Any month-to-month Renewal Term shall at the rates set forth in the Service Order associated with such line of Service, unless otherwise agreed to by the parties in writing. The Initial Term and any subsequent Renewal Terms are collectively referred to as a "Term."

Termination for Default. In addition to any other termination rights under this MSA, either party (the "Non-defaulting Party") may terminate this MSA if the other party (the "Defaulting Party"): (i) is or becomes insolvent; (ii) makes an assignment for the benefit of creditors, or a receiver is appointed to take charge of all or any part of the Defaulting Party's assets or business; (iii) is the subject of a bankruptcy, whether voluntary or involuntary; or (iv) materially breaches any of its obligations under this MSA, and such breach is not cured within ten days after the Non-defaulting Party notifies the Defaulting Party in writing of such breach. Either Party may terminate any applicable Service Order pursuant to Section 10(b)(iv) without terminating the MSA. If USCC terminates pursuant to this Section 10(b), you will still be responsible for any and all ETFs. In addition, USCC will be entitled to seek any other remedies that may be available to it at law or in equity.

Early Termination by you. In addition to Section 11(b), you may also terminate the MSA or any Service Order (or portion thereof) for non-default and for convenience, at any time, subject to any applicable ETFs. If this MSA or any Service Order (or portion thereof) is terminated by you pursuant to this Section 11(c), you will be assessed all ETFs as applicable under any Service Order and the terms of this MSA. Your request to port any number will be considered notice to USCC to terminate Service immediately and all ETFs will apply.

Early Termination by USCC. In addition to Section 11(b), USCC may also terminate this MSA or any applicable Service Order (or portion thereof) for non-default and for convenience at any time (with or without notice as may be required). USCC shall not be in default of this MSA if it is unable to provide Service or if it ceases to provide Service in any applicable Home Market. If USCC terminates the MSA or any applicable Service Order (or portion thereof) pursuant to this Section 11(d), you will not be assessed any applicable ETFs. Notwithstanding Section 11(e), if USCC terminates pursuant to this Section 11(d), monthly recurring charges for Services shall be prorated to coincide with the termination date and depending on the type of Service and usage incurred during the month of termination, such a proration may result in you incurring overage charges.

Consequence of Termination. Upon termination of the MSA or any Service Order (or portion thereof), your Services will be discontinued. You will be billed and you will be responsible for all applicable ETFs. Furthermore, in addition to any applicable ETFs, you will be responsible for the re-payment of any promotional credits, if any, and any other applicable cancellation, or termination charges as may be specified in any Related Document. Termination of Service by you or USCC may occur at any point during the month, but you will remain responsible for all fees and charge through the end of your billing cycle for that month and there will be no proration for purposes of calculating any ETF. In addition to any applicable rights and remedies under law or equity, upon termination or expiration of this MSA or any applicable Service Order (or portion thereof): (i) USCC has the right to recover any amounts due to USCC, including any ETF; (ii) you shall pay all amounts due hereunder to USCC; (iii) you shall return any Equipment that requires returning, and (iv) USCC shall cease to provide Service hereunder.

Upon expiration or termination of a Service Orders and/or the MSA, as the case may be, all terms under the applicable document shall terminate except for those provisions that are by their nature intended to survive termination. A termination of all Service Orders will terminate the MSA.
