3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be

Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

The Supplier will submit payment to Sourcwell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased

The local BOMAG dealer will be responsible for all localized customer sales, service and support on a direct basis. The BOMAG employees are available both in person as well as through electronic and telephone correspondence in support of the dealer network. When customer service or support is required, the local government agency will first contact their local authorized BOMAG dealer for assistance. BOMAG personnel will be contacted or involved as requested help is needed from the local distributor. Our Service team is comprised of 9 Area Service Managers that are responsible for supporting the contracted heavy dealerships throughout the United States and Canada. Furthermore, our service call center is comprised of four service engineers with up to 40 years of industry experience. The spare parts team with six employees build the backbone of the service and solutions department.

Table 7: Marketing Plan

Line Item	Question	Response *
36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	The BOMAG Americas sales team would continue to aggressively promote this contract through use of promotional marketing materials for the government channel, e-mail campaigns to our dealer network, attendance at regional governmental shows, and marketing on websites. The Sales Administration team is responsible for training of the field Territory Managers. The TMs are responsible for training their dealers within their territory and support local government shows with their dealers. These are normally completed 2x years with all their dealers. The BOMAG Marketing team support dealers in their local advertising needs and support materials for local government show and promotion of the Sourcewell contract. The dealer can use his COOP budget for Sourcewell marketing activities. As a manufacturer BOMAG offers a Sourcewell branded price list and will continue to develop and invest into the BOMAG & Sourcewell partnership (e.g. Sourcewell section on our new website).
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	BOMAG Americas has our social media platform on LinkedIn, Twitter, Instagram and Facebook. These social media platforms will be used to build awareness and promotion of the Sourcewell contract. BOMAG also has a Learning Management System (LMS) available to all internal and dealer personnel that provides "e-Learning" modules to efficiently train on the products and support services offered. BOMAG also rolled out a CRM system in 2021. Going forward, we will capture governmental contacts, track and provide leads to the Territory Managers and develop Sourcewell marketing campaigns.
38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	BOMAG plan to promote and integrate the awarded Sourcewell contract into the normal quarterly dealer meetings when sales activity is reviewed. The Territory Managers discuss sales activity monthly with their dealers, then during the quarterly meeting they highlight the activity and market opportunities in the product channels and market segments (govt, contractor, etc). These are key meetings to promote the Sourcewell contract with dealer principals and sales management as most dealers have dedicated government sales people.
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	All equipment purchases are routed through our local contracted dealers. We do not offer an online equipment purchase process today.

Table 8: Value-Added Attributes

Line Item	Question	Response *
40	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	BOMAG Americas offer end customer training on all products in Ridgeway, SC. Normally this customer training is handled through our dealer network as part of the equipment purchase process. Furthermore, many dealers offer additional (advanced) training programs (e.g., paving school, operator and application training). The local dealer will determine the costs of the classes. The dealer network is undergoing various sales, service and engine trainings on an annual base. The trainings are provided by our members of the sales, service, engineering, and product specialist team. It is mandatory for the dealers to attend trainings to ensure that they have the competency to offer trainings on a local level to end customers.
41	Describe any technological advances that your proposed products or services offer.	BOMAG is offering many solutions for intelligent compaction. The BOMAG Economizer package is one of our most popular and highly utilized technological features for compaction equipment. This package allows the operator to monitor the compaction process, identifying any weakness while he or she is working. This is a simple inexpensive package that adds great value for the end user. BOMAG telematics systems are installed on much of the BOMAG large specialty equipment and optional on all other ride on models. This web based package allows not only the customer but the dealer and BOMAG to monitor the use of the machine to support troubleshooting and proper notification. Last year BOMAG introduced BOMAP, an app with real-time access and documentation of the compaction process identifying any weak-spots within seconds. The entire fleet of compaction machines on a jobsite can be connected – both BOMAG and competitor models.

42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>Technologies: (a) The BOMAG ECOMODE is an intelligent control system that operates the motor in an optimum range and reduces fuel consumption by up to 30%. (b) ECOSTOP shuts down the engines after a defined period in idle to prevent unnecessary fuel consumption and CO2 emissions. (c) In a similar vein, BOMAG intelligent compaction tools and system (BOMAP; Asphalt Manager) help to save fuel by reducing the number of unnecessary passes – optimizing the efficiency on every jobsite. (d) BOMAG Magma Life Screeds heat up within 20mins (vs. 60mins) and is considered as one of the most robust screeds on the market (>3000hrs) reducing waste and fuel consumption every time a BOMAG screed and paver is used. (e) The patented ion dust shield for our milling machines protect both the environment as well as the operator by filtering out small particles out of the dirty air around the milling drum. Overall, BOMAG puts a great emphasis on developing new technologies reducing fuel, waste and CO2 emissions ultimately helping both the customer and the environment at the same time.</p> <p>Machines: BOMAG has test machines in all electric sectors and continues to invest in alternative drives to reduce dependence on fossil fuels. Last year, BOMAG announced a strategic partnership with Wacker Neuson to develop a common battery platform for tampers and plates pushing the electrification in our industry. BOMAG is also looking in other directions (e.g LPG) and intensively works together with customers to ensure that "green" solutions fit to the market. For example, a hybrid heavy tandem roller was introduced to the north American market two years ago.</p> <p>Corporate initiatives: The factory in Germany (manufactures approx. 70% of the units for the North American market) continuously improves the carbon footprint. For example, the solar panels generate approx. 950.000 kWh of green energy. The factory is replacing all light bulbs to LED, already reducing the consumption by 45%. And the powder coating facility ensures a solvent-free operation.</p>	*
43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	<p>Technologies: (a) The BOMAG ECOMODE is an intelligent control system that operates the motor in an optimum range and reduces fuel consumption by up to 30%. Line Item	Question	Response *
59	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	The discount offered would be 28.5% Off List price for all products offered under this contract - this includes the base machine, factory installed options as well as field installation kits ordered with the machine.
60	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range. 62	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	For BOMAG Americas, the sourced products would be machines and/or options offered by BOMAG. If there are Options or Kits not offered by BOMAG, the local dealer would include these options as Open Market options. BOMAG personnel work with the local dealer on the pricing offered for Open Market items to manage the sell price to the local government agency. Dealers use a cost plus approach on local Open Market options.
63	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Table 13: Audit and Administrative Fee

Line Item	Question	Response *
68	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcwell. This process includes ensuring that Sourcwell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcwell. Provide sufficient detail to support your ability to report quarterly sales to Sourcwell as described in the Contract template.	BOMAG Americas will have our Territory Manager and Sales Admin team review and verify all Sourcwell sales quotes prior to sending to the government agency to ensure compliance with the contract price structure and other guidelines outlined. The pricing and discount structures are preloaded - both - on the own Sourcwell price sheets to quote units as well as in our ERP system to eliminate pricing errors. For all sold Sourcwell units, the system is automatically adding a "Sourcwell" flag to ensure proper sales reporting and administrative fee calculation. BOMAG will provide the quarterly sales report withing 30-45 days following the request or compliance schedule.
69	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	The Sales Administration Manager is responsible to report out quarterly on the sales tracking and quotes through the Sourcwell contract. This is then reviewed with the Territory Managers to show their progress tracking in YoY sales. If sales are down, discussions and actions are defined to increase sales quoting activity on the contract. The Government sales channel is important to BOMAG and tracked along with overall sales.
70	Identify a proposed administrative fee that you will pay to Sourcwell for facilitating, managing, and promoting the Sourcwell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	BOMAG Americas will agree to offer a 2.0% administration fee for Sourcwell to manage and promote this contract.
