A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below.

EXPIRATION DATE AND EXTENSION. This Contract expires October 25, 2028, unless it is cancelled sooner pursuant to Article 22. This Contract allows up to three additional one-year extensions upon the request of Sourcewell and written agreement by Supplier. Sourcewell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

B. **SURVIVAL OF TERMS.** Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. **SALES TAX.** Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. **HOT LIST PRICING.** At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized

subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. **TERMINATION OF ORDERS.** Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted

price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. This provision is hereby incorporated by reference into this Contract. 26	Sales force.	<p>Vertosoft's strategic positioning across the United States reflects our commitment to providing exceptional service and support for all our clients, including the prospect of serving Sourcewell's nationwide needs. Our corporate headquarters in Leesburg, VA, doubles as the national sales support center, orchestrating thousands of transactions across all 50 states, as well as extending our reach into Canada. This centralized hub ensures that we maintain a cohesive strategy and a consistent level of service across all jurisdictions.</p> <p>We bolster our national presence with additional locations strategically placed in Charleston, SC; Charlottesville, VA; Denver, CO; Philadelphia, PA; Portland, ME; and Tacoma, WA. These offices are not mere points on a map; they are integral parts of a cohesive network that extends Vertosoft's capabilities and brings our services closer to Sourcewell members.</p> <p>Our sales force, a dedicated team of 45 full-time individuals, is not just a number. Each member is a specialist, aligned with specific software suppliers to act as both a force multiplier for our partners and a trusted advisor to our public sector clients. This ensures that each Sourcewell member receives tailored attention and expertise that aligns with their unique missions and challenges.</p> <p>Beyond our sales team, Vertosoft has crafted a core group of key individuals who will directly support this contract, including:</p> <p>Executive Sponsor: Jay Colavita, President Contract Management: Ashlianne Shigley, Government Contracts Program Manager Technical Executive: Chet Hayes, CTO Accounts Payable: Hannah Xiu, CFO Sales Leadership: Josh Slattery, VP of Technology Sales Sales Operations: Nur Rahman, Director of Operations Contract Marketing: Mary Dawson, Digital Marketing Manager Financial Reporting: Michael DiPlacido, Government Business Analyst</p> <p>These leaders are not just overseeing operations; they are actively engaged in ensuring that every Sourcewell member receives the highest level of service and support.</p> <p>The size of our team is a testament to our efficiency and dedication. With Vertosoft, Sourcewell will not be engaging with a cumbersome, slow-moving entity, but a nimble, responsive organization where every employee carries the weight of their expertise and commitment to public service. Our agility allows us to pivot and adapt to the changing needs of Sourcewell members, ensuring that each entity receives the attention and resources it deserves.</p> <p>We are not just proposing a vendor-client relationship; we are offering a partnership where Sourcewell's needs are met with precision, professionalism, and a personal touch that only a team like Vertosoft's can provide. With our nationwide network, specialized team, and the direct involvement of our leadership, Sourcewell can be confident in Vertosoft's ability to meet and exceed their nationwide requirements.</p>
27	Dealer network or other distribution methods.	<p>Vertosoft is a software distributor and reseller and can sell directly to any of the Sourcewell participating entities across the United States. Vertosoft also maintains a broad partner network across the country that is comprised of companies that fall into a wide variety of disadvantaged categories such as women owned, service-disabled veteran owned, minority owned, etc. With this wide partner network, Vertosoft can help Sourcewell participating entities meet specific procurement goals related small or disadvantaged business.</p> <p>Our reliable partner network of nearly 300 companies is made up of top industry participants (some being Sourcewell contract holders) such as BlueTech, GovSmart, Enterprise Technology Solutions, SHI, Insight Public Sector, New Tech, and Strategic Communications, just to name a few.</p>
28	Service force.	<p>As a software distributor and reseller, Vertosoft works directly with the software manufacturers and their service partners to provide needed service, rather than maintaining a large service force. These partners reside both in the United States and in Canada. We work heavily with multiple services providers for UKG, one of the proposed solutions in this submission. They are as follows: Worldgate, Project Genetics, Covalence, JK Seva, Fase Group, HRchitect, Mosaic Consulting Group, Jubilant LLC, PredictiveHR, Sability LP, and more. Service providers we commonly work with for other technologies include F.H. Black, Trintech, Aeyon, and ClearSulting.</p>
29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	<p>Vertosoft can act as both a distributor and reseller to help make the ordering process for Sourcewell participating entities as smooth and easy as possible. Here's how the process is tailored to meet the software-centric requirements:</p> <p>When Vertosoft Acts as a Distributor:</p> <ol style="list-style-type: none"> 1. Selection and Consultation: A Sourcewell entity selects their required software solutions with the possibility of consultation from Vertosoft and/or the software supplier to ensure the best fit for their needs. 2. Authorized Reseller Engagement: The entity then engages with an authorized reseller partner of Vertosoft to place the order. This partnership combines the local touch of a reseller with the extensive software offerings of Vertosoft. This could also help participating entities to achieve socio-economic goals when possible. 3. Order Coordination: Once the order is placed with the reseller, Vertosoft coordinates with the software supplier to fulfill the order. Vertosoft's role as a distributor ensures that the software supplier delivers the order effectively through the reseller partner. <p>When Vertosoft Acts as Both Distributor and Reseller:</p> <ol style="list-style-type: none"> 1. Direct Order Placement: In scenarios where Vertosoft assumes the combined role, the Sourcewell entity places the order directly with Vertosoft, eliminating any thirdparty interaction. 2. Order Fulfillment: Vertosoft then takes on the responsibility of coordinating directly with the software supplier to fulfill the order. This direct line ensures clarity, efficiency, and expediency in delivery. 3. Post-Order Support: Regardless of the role, Vertosoft provides comprehensive post-order support, assisting with software entitlement, license management, and technical queries. <p>In both scenarios, Vertosoft's involvement guarantees a streamlined process that caters to the digital nature of the products offered. With no physical inventory to manage, the focus remains on prompt service and precise fulfillment of software orders, ensuring that Sourcewell entities receive the right software solutions at the right time, with Vertosoft as their dedicated point of contact.</p>
30	Describe your strategy related to implementation, integration, and use of implementation partners.	<p>Vertosoft's strategy for implementation, integration, and use of implementation partners is designed to ensure the successful and seamless deployment of solutions for our customers. This includes assigning stakeholders, defining areas of responsibility, reviewing expectations and goals, discussing project assumptions, and establishing meeting cadences. The UKG Project Manager will also discuss the project plan, change management, testing, and end-user training activities with the Customer Project Manager. This phase concludes with the start of the Requirements phase.</p> <p>Requirements Phase During the Requirements phase, UKG discusses specific configurations and identifies necessary modifications with the Customer. This involves discovery sessions with key department stakeholders and reviewing internal process changes based on industry best practices. The aim is to minimize configuration changes outside the preconfigured solution. These discussions help in making informed decisions about processes, testing scenarios, and end-user training.</p> <p>Build Phase In the Build phase, UKG completes the agreed-upon configurations. The Customer provides necessary employee data from legacy systems, configures hardware if applicable, and attends recommended training. Working sessions are held to review the configuration and navigation of the UKG HCM solution. The Customer also designates System Administrators who actively participate in all activities to ensure they can maintain and troubleshoot the solution post-implementation.</p> <p>Test Phase During the Test phase, the Customer leads User Acceptance Testing (UAT) with support from UKG. The Customer assigns resources to conduct unit tests, documents outcomes, and communicates issues to UKG for resolution. Concurrently, the Customer develops change management strategies and communication plans to ensure user adoption, prepares deployment groups, and rolls out end-user training.</p> <p>Go-Live Phase In the Go-Live phase, the configured and tested solution is deployed to end users. The project's goals, success criteria, change management, end-user training, and risk management efforts culminate in this phase. 54	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	There are no usage restrictions or other limitations that adversely affect coverage.
55	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	The majority of the proposed solutions are software-based, ensuring that troubleshooting and warranty repairs are conducted remotely. This approach eliminates the need for technicians to travel, thereby avoiding additional expenses for travel time and mileage. Remote troubleshooting offers several advantages, including faster response times, reduced downtime, and increased convenience for Sourcewell participating entities. By leveraging advanced remote support technologies, we can quickly diagnose and resolve issues without the delays associated with scheduling and dispatching on-site technicians. This not only enhances the efficiency of our support services but also aligns with sustainable practices by reducing the carbon footprint associated with travel. Consequently, Sourcewell participating entities benefit from a more responsive and eco-friendly warranty service, ensuring that their operations continue smoothly and without unnecessary interruptions.
56	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	The proposed solutions are software-based, allowing us to provide comprehensive support and warranty repairs remotely, without the need for certified technicians to travel to specific geographic locations. This approach ensures that all Sourcewell participating entities, regardless of their location within the United States or Canada, receive timely and effective service for warranty repairs.
57	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	In general, each supplier included in our proposal will provide warranties for their respective software solutions. This warranty coverage extends even if the software solution incorporates third-party or open-source software components. Each supplier is responsible for the warranty service of their products, ensuring that Sourcewell participating entities receive consistent and reliable support directly from the source of the solution. This approach allows for specialized expertise and ensures that any warranty issues are addressed efficiently by the original manufacturers who are best equipped to handle their specific products. By relying on each supplier to manage their warranties, we ensure that all components of our proposed solutions are covered under appropriate and effective warranty terms.

58	What are your proposed exchange and return programs and policies?	<p>The exchange and return programs and policies vary from supplier to supplier. To provide Sourcwell with a clear understanding of what to expect, we have highlighted the diverse policies of a few key suppliers, illustrating the variations across the proposed solutions.</p> <p>UKG (Ultimate Kronos Group): In the event of termination, UKG's policy ensures that all fees are paid by the customer for services rendered through the effective date of termination. If the termination is due to UKG's breach of the agreement, any prepaid fees for services not rendered before the termination date will be credited back to the customer's account, with any remaining amounts refunded within thirty days. This approach ensures financial fairness and transparency, providing peace of mind to customers regarding their investments in UKG's solutions.</p> <p>OpenGov: OpenGov's exchange and return policies are outlined in their subscription terms. The agreement commences upon execution and continues until the end date specified on the order form, with provisions for renewal and termination. If either party materially breaches the agreement and fails to cure the breach within thirty days of written notice, the non-breaching party may terminate the agreement. Upon termination, customers are required to pay in full for all services rendered up to the termination date, and OpenGov will cease providing services. This structured approach ensures that both parties are protected and that services are delivered effectively up to the termination point.</p> <p>BlackLine: BlackLine's policy includes a refund or payment on termination clause. If the customer terminates the agreement pursuant to the specified terms, BlackLine will issue a prorated refund for any payment corresponding to the period after the effective termination date. Conversely, if BlackLine terminates the agreement, the customer must pay any unpaid fees covering the remainder of the current term. This policy guarantees that customers are only billed for the services they receive, ensuring a fair and equitable financial arrangement.</p>

The exact timelines and delivery mechanisms can vary, depending on the nature of the software and the distribution channels used.</p> <p>Technical Support and Maintenance: Support and maintenance services are often provided, with the scope and responsiveness varying by supplier. This can range from basic troubleshooting to comprehensive technical assistance and regular maintenance.</p> <p>Compliance and Security: Most suppliers ensure that their software and services comply with relevant industry norms, legal standards, and security protocols, though the specifics of these compliance measures can differ.</p> <p>Customization and Integration Support: Depending on the supplier, there may be options for customization and integration support to align the software with specific business needs and systems.</p> <p>Performance Metrics: Some suppliers may offer transparency through performance metrics reporting, such as uptime statistics and customer support response times, though the level of detail and frequency of such reporting can vary.</p> <p>Continuous Improvement: Many suppliers engage in continuous improvement efforts based on client feedback and industry developments, aiming to enhance service quality and client experience over time.</p> <p>It is important to note that the specific performance standards and guarantees are subject to the individual terms and policies of each software supplier in Vertosoft's network. As such, we recommend reviewing the detailed terms and conditions provided by each supplier for precise information.</p>
61	Describe any service standards or guarantees that apply to your services (policies, metrics, KPIs, etc.)	<p>Each supplier provides different levels of SLAs and guarantees, and the following examples illustrate the type of service standards available.</p> <p>Visual Lease Service Standards: Visual Lease ensures high service standards for its customers, as outlined in their Service Level Agreement (SLA). They commit to a monthly uptime of 99.0% for their production environments, excluding planned maintenance periods. Scheduled maintenance is communicated in advance, typically taking place during non-business hours. In the event that Visual Lease does not meet the uptime commitment, they offer service credits based on the percentage of monthly uptime achieved.</p> <p>Visual Lease categorizes technical issues into four severity levels, each with specific response and resolution time targets. For instance, critical issues (Severity 1) should receive a response within one hour during support hours, and a resolution is aimed within one calendar day. Visual Lease provides disaster recovery capabilities with defined objectives for backup retention, business continuity, recovery point, and recovery time, ensuring the availability and integrity of customer data.</p> <p>UKG Service Standards: UKG provides robust support and service standards through their various support plans, including Gold, Platinum, and Platinum Plus. They offer priority-based support, ensuring customers with the most critical issues are serviced first. High priority issues receive a response within 30 minutes or immediately via rapid response, while medium and low priority issues have response times of one hour and two hours, respectively. UKG's support is available 24/7/365 for high-priority issues, with business hours support for other issues.</p> <p>UKG's support services include technical escalation, management escalation, and remote support through web-based screen-sharing tools. They also offer access to the UKG Community for how-to articles, discussion boards, and case management. UKG's SLAs ensure continuous effort on high-priority events, leveraging a team-based approach to resolve issues swiftly and efficiently. They provide detailed documentation, knowledgebase access, and regular service releases to keep their software up-to-date and functioning optimally.</p> <p>We have uploaded the two example documents within the "Step 2 - Documents" portion of the submission - "Upload Additional Documentation" The folder entitled "SLAs" includes the mentioned Visual Lease SLA and UKG SLA.</p>
62	Describe your data integrity and protection standards, data backup, recovery, and secure storage solutions.	<p>Our suppliers prioritize the protection and integrity of customer data, employing robust strategies for data backup, recovery, and secure storage. While each supplier may approach these aspects differently, the following examples illustrate the comprehensive measures in place to safeguard customer information.</p> <p>Cornerstone OnDemand: Cornerstone's customer environments and disaster recovery capabilities are hosted in AWS regions and colocation data centers in the U.S., with plans to migrate production environments fully to AWS. The production sites are in US-West-1 (N. California) and US-West-2 (Oregon), with disaster recovery sites in US-West-2 and US-East-1 (N. Virginia). AWS was selected for its high service availability and strong data protection controls, ensuring that all connectivity and security measures are maintained. Additionally, Cornerstone uses Equinix colocation data centers in El Segundo, CA, and Ashburn, VA, with strict access controls, including biometric hand scanners and restricted entry to authorized personnel only. Furthermore, Cornerstone leverages Google Cloud Platform (GCP) for its machine learning platform and content-related microservices, ensuring secure connectivity and data protection using redundant IPSec tunnels and Palo Alto firewalls. Cornerstone adheres to several compliance certifications, including SSAE18 SOC 1 & SOC 2, ISAE 3402 Type II, ISO/IEC 27001:2013, ISO/IEC 27018:2014, and ISO/IEC 27701:2019.</p> <p>OpenGov: OpenGov employs infrastructure provided by AWS, utilizing services such as EC2 and RDS with security best practices recommended by AWS. OpenGov's security infrastructure includes AES 256 encryption for data at rest and TLS 1.2 encryption for data in transit. Additional protection is provided by Cloudflare, acting as a web application firewall. OpenGov uses a multi-AZ deployment strategy for enhanced availability and durability, capturing regular backups and snapshots stored in regional data centers. This approach ensures data replication in real-time across AWS and Azure availability zones, minimizing data loss to one minute in the event of a fault. OpenGov has also passed SOC 2 audits, with the latest SOC 2 Type 2 report available upon request.</p> <p>Visual Lease: Visual Lease hosts its application on AWS, employing a network architecture that places web servers in a public subnet and database servers in a private subnet, accessible only from approved sources. Data at rest is protected with AES-256 bit encryption, and data in transit is secured with SSL (TLS 1.2) encryption and SSH (SFTP) for managed file transfers. Visual Lease leverages AWS Backup, a fully managed backup service, ensuring data integrity and protection.</p>

64	User Accessibility: How does your software ensure accessibility for all users, including those with disabilities, in compliance with standards?	<p>Vertosoft and our suppliers are committed to ensuring that software solutions are accessible to all users, including those with disabilities, in compliance with established accessibility standards such as the Web Content Accessibility Guidelines (WCAG) and Section 508 of the Rehabilitation Act. Our suppliers, including OpenGov, Thirdline, and PublicInput, prioritize accessibility and have developed Voluntary Product Accessibility Templates (VPATs) to demonstrate their compliance with these standards.</p> <p>OpenGov: OpenGov's software is designed with accessibility in mind, ensuring that all users, including those with disabilities, can effectively use their solutions. OpenGov adheres to WCAG 2.1 and Section 508 standards, providing a VPAT that details their compliance. PublicInput's software includes features such as text-to-speech capabilities, keyboard shortcuts, and adjustable text sizes. They engage with accessibility experts and users to regularly review and improve their platform, ensuring it meets the highest accessibility standards.</p>

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
65	Describe your payment terms and accepted payment methods.	Vertosoft accepts Net 30 payment terms as is what is commonly seen/offered among State and Local Government entities. Our accepted payment methods are via ACH, check, and credit card.
66	Describe any leasing or financing options available for use by educational or governmental entities.	Vertosoft offers extended payment plans and subscription billing for technology purchases to help align structured payments to government program budgets while meeting government guidelines. Vertosoft's deep understanding of the government acquisition process allows us to provide the government with simplified terms and conditions, and flexible payment options. We also can provide utility-based pricing and quarterly or monthly subscription billing for cloud-based SaaS software.
67	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	We have attached the End User License Agreements (EULAs) or applicable terms & conditions document for the software suppliers we are proposing as part of this submission. End User License Agreements/terms documents can be found in the "Step 2 - Documents" portion of the submission under "Standard Transaction Document Samples." A zip folder titled "EULAs" has been uploaded accordingly.
68	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Yes, we do accept the e P-card procurement and payment process for any orders less than \$50,000. There is a 3% processing fee associated with these transactions.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcwell Price and Product Change Request Form.

Line Item	Question	Response *
69	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcwell discounted price) on all of the items that you want Sourcwell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Due to the number of suppliers we are proposing and thus the large number of parts this brings, Vertosoft is providing a percentage discount off our catalog. The % discount will be off the named supplier/OEM MSRP. This approach will make it simplistic for Sourcwell participating entities to calculate the cost of any given part using the formula: Sourcwell price = MSRP – (MSRP * % discount). For example, if the supplier discount is 10%, and the MSRP is \$100, the cost to the Sourcwell participating entity would be \$90.00, shown as: \$100 – (100*0.10) = \$90.00. We have provided an Excel Spreadsheet titled "Sourcwell pricing" that contains detailed pricing information in the "Step 2 - Documents" section of the submission under "Pricing."
70	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	As stated in our answer to Question #69, Vertosoft is proposing a large number of suppliers as a part of our submission and therefore a one size fits all approach regarding a pricing discount is not feasible. In the "Sourcwell pricing" Excel file (previously referenced as submitted in "Step 2 - Documents" section of the submission under "Pricing") we have different percentage discounts listed that are dependent upon the supplier. The discount range is anywhere from 1-50% off MSRP.
71	Describe any quantity or volume discounts or rebate programs that you offer.	There are no quantity or volume discounts or rebate programs available from the proposed software suppliers. Our discounts provided off of MSRP are designed to be competitive without the need for such programs. In most cases this is negotiated on a deal-by-deal basis, as needed.
72	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	For any requests or items that are considered "open market," Vertosoft will provide a quote that is labeled as such.
73	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	There are no elements regarding the total cost of acquisition that are not included in our response.
74	If freight, delivery, or shipping is an additional cost to the Sourcwell participating entity, describe in detail the complete freight, shipping, and delivery program.	There are typically no additional costs such as freight, delivery, or shipping associated with our transactions as all of our products are non-tangible (i.e. software licenses)
75	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	We do not have any specific freight, shipping, delivery terms and/or programs available for Alaska, Hawaii, Canada, or any offshore delivery.
76	Describe any unique distribution and/or delivery methods or options offered in your proposal.	We do not have any unique distribution or delivery methods associated with our transactions. We do, however, have the ability to work through our software suppliers to provide license Proof of Entitlement or Proof of Delivery (PoE/PoD) upon transaction completion. This ensures Sourcwell participating entities buying products through Vertosoft benefit from an additional layer of security - guaranteeing transparency, accountability, and confidence in receiving the intended products and services.

78	<p>Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell.</p> <p>This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.</p> <p>Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.</p>	<p>Vertosoft is committed to providing the highest quality of service to Sourcewell through this contract. To facilitate this high level of service, Vertosoft maintains an ISO 9001:2015 certification that demonstrates Vertosoft's commitment to the highest level of excellence and customer satisfaction. Our Quality Management program supports our core business processes and provides the tools through which we measure, control, and improve these processes which include:</p> <ul style="list-style-type: none"> - Maintaining product catalogs and price lists on different government contract vehicles. - Error free quoting to the government on behalf of our technology partners. - Efficient Purchase Order (PO) processing from our public sector customers. - Efficient PO delivery to our technology partners. Accurate invoice creation for public sector customers for solutions delivered by our technology partners. - Customer satisfaction measurement with the overall procurement process experience through Vertosoft. - Accurate and timely fee remittance. <p>Due to the number of other contracts we hold and currently report monthly and/or quarterly on, Vertosoft has established a tailored, streamlined process for contract reporting. Therefore, we are confident that we can successfully deliver quarterly reports to Sourcewell within 45 days following the end of each quarter, meeting all the required fields specified in the contract template.</p> <p>Oracle NetSuite, the ERP (Enterprise Resource Planning) tool used by Vertosoft currently generates monthly reports on all invoiced transactions, already including the relevant fields from the Sourcewell contract template, such as entity name, address, contact details, price, date, etc.</p> <p>Typically received in the first week of the month, our Contracts team reviews the transactions within the report and transposes them into the specified contracting template or portal to issue successful fee payments. The administrative fee is also inputted at the Sourcewell account level and will auto-apply to all Sourcewell transactions in the report, ensuring the proper fee is always remitted.</p> <p>We ensure Sourcewell participating entities receive the proper pricing through our quoting system, CPQ by Salesforce. This will have Sourcewell contract pricing pre-loaded upon contract execution to eliminate manual processes and potential human error.</p>
79	<p>If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.</p>	<p>Vertosoft will employ a Quality Assurance Surveillance Plan (QASP) to benchmark, measure, and improve the effectiveness of our business and technical operations that support the contract. The QASP will be administered and controlled by a separate Quality Assurance Manager to independently monitor and evaluate business and technical activities each quarter. Results and any changes from quarterly evaluations will be shared with Sourcewell. Vertosoft has tailored a QASP for relevant functions to include responsiveness to the Public Sector and Education Administration Software Solutions RFP, timeliness for order processing and delivery, and accuracy and timeliness of contract deliverable requirements.</p> <p>Metric: Administrative Fee</p> <p>Surveillance Method: Inspection</p> <p>Performance Standard: Acceptable performance is met by timely submission and accuracy of reports and remittance of payments.</p> <p>Quality Level: 100%</p> <p>Reporting Methods: Quarterly reporting to Sourcewell</p> <p>Metric: Quarterly Sales Reporting</p> <p>Surveillance Method: Inspection</p> <p>Performance Standard: Acceptable performance is met by timeliness and accuracy of the report</p> <p>Quality Level: 100%</p> <p>Reporting Methods: Quarterly reporting to Sourcewell</p> <p>Metric: Quote Accuracy</p> <p>Surveillance Method: Inspection</p> <p>Performance Standard: All quotes issued to Sourcewell participating entities utilize the correct contract pricing. 80	<p>Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods.</p> <p>(See the RFP and template Contract for additional details.)</p>	<p>Vertosoft LLC proposes a 1.25% administrative fee. This fee will keep the contract competitive against Vertosoft's other contract offerings and accelerate the internal adoption of the contract, all whilst ensuring we have the necessary mechanisms in place to provide superior value to Sourcewell's participating entities.</p>

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:
