Interface ReEntry® Reclamation & Recycling Program Guidelines

ReEntry allows us to reclaim the products we've created and use them as food for new ones.

By sending us your post-consumer Interface carpet tile and Sound Choice™ LVT, you lower your environmental footprint and your disposal costs, and make it possible for us to offer you products with increasingly less virgin raw materials.

How It Works

We'll take back all post-consumer Interface carpet tile and LVT products installed with a releasable installation system. This includes Interface carpet tile, as well as Interface Sound Choice LVT.

Processing is free for approved post-consumer Interface products from the list above. We'll always pay the freight on FULL TRUCKLOADS of Interface products, but freight charges may apply for smaller loads unless local consolidation can be arranged.

A full truckload of carpet tile is 3,200 - 4,400 SY or 30,000 - 42,000 lbs. On average 1 SY of modular carpet equals 9.5 pounds. Full truckload weights may vary for LVT.

If new Interface flooring is being installed, we'll also pay for a drop trailer for full truckloads IF one is available in your location. Trailers must be turned once a month or a \$125 weekly fee will apply.

How To Get Started

1. Contact ReEntry 1.888.733.6873 email reentry@Interface.com to arrange pickup of material.
2. Be sure to have the following information:
 - Square yardage or square feet
 - Carpet tile and/or LVT sample
 - Location
3. A ReEntry Reclamation Consultant will guide you through the reclamation process.

Note: Flooring contaminated with asbestos or any other hazardous material from any source, including cutback adhesives and Vinyl Asbestos Tile, cannot be reclaimed. If you are unsure about your job, please test carpet swatches for hazardous material before removal to prevent exposure. For carpet tile installed prior to 2003, please contact ReEntry at the number above.

Interface ReEntry® Specification

Scope of Work

Owner specifies that post-consumer Interface carpet tile and Sound Choice™ LVT installed with a releasable installation system be recycled in the best possible manner. A reclamation plan should be submitted. Acceptable methods consist of:

1. Recycling is turning waste materials into new materials of the same value, such as carpet tile into carpet tile.
2. Repurposing allows a product to be reused by an organization or individual. Interface can assist in facilitating the donation of used carpet tile and Sound Choice LVT to charities and other non- profit organizations.
