### **Bid Evaluation Method**

The Sourcewell Bid Review Committee first determines responsiveness and responsibility of all bidders. A responsive bid must have been submitted on time and materially satisfy all mandatory requirements identified in the IFB. The bidders submitted five adjustment factors for each contract opportunity within the region to the fixed prices in the Construction Task Catalog. The submitted bid adjustment factors were weighted as more fully described in the IFB section to determine a single combined adjustment factor. This combined adjustment factor was then used in determining the ranking of the bids. Bidders may not be awarded more than one same scope contract within a region. The maximum number of contracts to be initially awarded by geographic region and contract type was identified in the IFB under Article VIII. Evaluation and Award.

### **Findings of the Bid Evaluation Committee**

Bid submissions were reviewed thoroughly according to the IFB Specifications with awards going to the lowest responsive/responsible bidders. The IFB required bidders to provide six past projects completed within the past three years. On November 12, 2024, a request for clarification was sent to Jewel of the South, Inc. to clarify the end date of project #3. The Sourcewell IFB required bidders to provide documentation of all required licensure. On November 12, 2024, a clarification of licensure was sent to JOC Construction, LLC and The Plumbing Shop, Inc, DBA Quick Action Management Group, Inc. JOC Construction, LLC did not respond to the request and was determined to be non-responsive. On November 26, 2024, licensure clarification requests were sent to the following contractors: American Forza Construction, LLC, BEAR Construction Company, Clayton Contracting of SWFL, LLC, Dynamics Group, Inc., Griffin Civil Construction, LLC., Harbour Construction Inc, Nichols Contracting, Inc., and Team Contracting, Inc. It was determined that if a contractor holds a contractor license of any kind within the State of Florida they would be found responsive to this requirement. The following bidders did not provide a Florida license: Engineering Design Technologies, Inc., JOC Construction LLC, Lee Construction and Maintenance Company, Lopez and Son's, Inc., and S-Works Construction Corporation. Bidders responding to a trade were required to self-perform at least 51% of the trade with their own organizational forces. The Plumbing Shop, Inc, DBA Quick Action Management Group, Inc. did not demonstrate this for site/civil work and was found to be non-responsive in this trade. The IFB required other than normal adjustment factors to be equal to or greater than normal working hours factors. Advanced Roofing, Inc. did not meet this requirement in regions four through seven. The IFB also required non-pre-price factors to be equal to or greater than 1.0000 and National Retrofitting Group did not meet this requirement. South Florida Electrical Consultant, Inc's adjustment factors were outside the competitive range. The selected contractors identified in the results

below have the required experience with IDIQ Construction work, and all the awarded bids were determined to be competitive and reasonable for the area.
