Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *
25	Sales force.	PLCB currently has a sales force in the field of 84 sales representatives.
26	Dealer network or other distribution methods.	Our dealer network is comprised of 20 dealerships in 30 states and the District of Columbia. The states that have direct dealer coverage are Alabama, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, Washington DC, West Virginia, Wisconsin. In states that we do not have dealer coverage, members may purchase factory direct.
27	Service force.	All of our dealers offer full service through their own dealerships, not through subcontractors, in their respective areas of responsibility. In areas where no dealer is present, we partner with either the member's own fleet service department or an independent service vendor for warranty support of the product. All sales and service territories are clearly defined with no overlapping areas.
28	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	<p>Rescue 1 supports our dealer network and customers with a very thorough proposal process, including detailed specifications, pricing, and drawings. We maintain a log for each of these projects assigned to each dealer. When a Sourcewell customer inquiry is received, the customer information would be documented and forwarded to the dealer in the particular area of responsibility. The dealer / sales representative would contact the customer directly. We at Rescue 1 would support the dealer with the proper proposal format and pricing for the Sourcewell contract.</p> <p>While most contracts are directly between the customer and the dealer, in the event of a factory direct sale, the factory will handle all of the contract paperwork.</p> <p>Once the vehicle is contracted with the dealer, the file converts to a booked order and is logged into our production job database. At that time it will also be coded as a Sourcewell contract.</p> <p>If the contract is to be Sourcewell, we would document the details of the project and submit the information to Sourcewell on a quarterly base as required. Rescue 1 would remit the fee to Sourcewell on behalf of the customer and the dealer at time of delivery.</p>
29	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	In locations where PLCB has dealer representation (as noted above in 26), customer service is handled primarily through the assigned dealer. Customers have access to direct phone numbers, after hour's points of contact, e-mail and fax access, as well as a host of social media platforms. In those areas with dealer coverage, PLCB also stands by to assist with sales and service support, as well as twenty-four service support. In areas not supported with dealer coverage, we maintain committed to customer support (sales / service) with 24 hour phone, e-mail, and social media (Facebook) access.
30	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	As noted above in sections 25, 26, and 27, Rescue 1 looks forward to building on the successes of our first Sourcewell contract. We want to be the premier supplier for Sourcewell members looking for exceptional quality emergency vehicles.
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	We do not currently have representation in Canada. However, Canada accepts fire apparatus built to NFPA standards and, as such, we would treat that marketplace as a factory direct opportunity. Due to current rates of exchange, however, the Canadian marketplace has not been successful for us.
32	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	<p>As noted in question 26, we have sales and service dealerships in 30 states and the District of Columbia. In those areas not covered by a dealer, we can sell factory direct to the members and then partner with either the member's own fleet service department or an independent service vendor for warranty support of the product.</p> <p>As noted in question 31, Canada accepts fire apparatus built to NFPA standards and, as such, we would treat that marketplace as a factory direct opportunity. Due to current rates of exchange, however, the Canadian marketplace has not been successful for us.</p>

33	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	There are no Sourcewell participating entities that we would exclude from servicing.	*
34	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	As we do not have any dealers currently serving Hawaii, Alaska, or in the US territories, we would treat any sales opportunities as a factory direct sale. Members that choose not to take delivery from PLCB's location can choose to have the vehicles delivered to their location. The cost for this service would be itemized out to the Member and billed out as a separate part of the final invoicing.	*

Table 7: Marketing Plan

Line Item	Question	Response *	
35	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	<p>If we are awarded the Sourcewell contract, we will have new training programs for our dealers - as we did previously with the first contract - to promote Sourcewell and educate our dealers on the benefits, use, and procedures associated with proper utilization of this contract. We will distribute printed and electronic supporting documents for our dealers to distribute and promote with their customer base, as well as promoting our involvement in the contract with Sourcewell Members directly.</p> <p>In addition, PLCB will use our website, Facebook page, e-mail campaigns, and print advertising to promote our continued participation with Sourcewell. At the over 50 trade shows PLCB products are displayed at, we will have signage and information available promoting our status as an awarded vendor with Sourcewell.</p>	*
36	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>PLCB has two websites for our different product lines, PL Custom Emergency Vehicles - www.plcustom.com and Rescue 1 - www.rescue1mfg.com. We also maintain Facebook pages for each product line. Our total likes for both pages is approaching 18,000 and our reach is even higher. Our websites and Facebook pages all have direct links to Sourcewell.</p> <p>We routinely post on our Facebook pages about the value of becoming a Sourcewell Member.</p>	*
37	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	<p>Sourcewell's role in promoting contracts arising out of this RFP should be multi-layered. We appreciate and are well aware of, and follow, your social media activity. The websites - both for Members and vendors - is filled with helpful content. The area that seems to need increased activity is participating in more trade shows in the Fire / EMS industry. We were happy to see Sourcewell attending the FDIC Conference in Indianapolis. A recommendation would be to also attend both the EMS World Expo and EMS Today conferences.</p> <p>In terms of our integration of our Sourcewell-awarded contract into our sales process, it is promoted by our dealers in three levels:</p> <p>First level - Prior to a demo appointment, the sales representative performs an agency look-up to see if the customer is already a Member.</p> <p>Second level - If the customer is a Sourcewell Member, they go to the meeting with a pre-proposal showing the applicable contract model and pricing. If the customer is not a member, they bring along information on becoming a member.</p> <p>Third Level - If the customer is not a member, but they are funded by their municipality, the dealers take the same steps as the prior two levels. In some cases, we may enlist the assistance of Sourcewell in promoting the contract to the purchasing municipal government. This was done successfully with Raritan Township, NJ previously.</p>	*
38	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	PLCB does not have an e-procurement system.	*

Hard copy and electronic training manuals are provided to all attendees.</p> <p>Customer specific tours of our facility and meetings with upper management and engineering.</p> <p>Pre-construction meetings with customers are held either here at PLCB or virtually via Zoom prior to final approval packages submitted for customer sign-off. This allows the vehicle engine to be shut off and not drain the batteries when the communication radios, temperature-controlled cabinets, computers etc. are still needed to be active.</p> <p>We offer Idle reduction technology for those customers that need to remain on the scene of an incident and want to turn the engine off to reduce emissions into the air.</p> <p>Internally at the company, we maintain recycling of paper, aluminum and plastic. We recycle delivery pallets back to the original company. Scrap metal, wood and cardboard is recycled thru services specific to recycling.</p> <p>We have embraced the remote work environment and continue this program post the pandemic requirements. This reduces commutation fuel consumption and energy/utility usage here in the office/plant.</p>	*
42	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	We do not have any current third party eco-labels/certifications.	*
43	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	<p>PL Custom Body and Equipment Co., Inc. is a woman owned company. Jean S Smock and Deborah Smock Thomson maintain current ownership and management.</p> <p>Key management positions are held by women: Nancy Buhagiar VP of Operations and Finance Kim Blanco HR Manager Patricia Hill Marketing Manager Cindy Straubinger, Service Manager Lisa Croasmun, Quality Assurance Manager.</p>	*
44	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	P.L. Custom Body and Equipment Co., Inc. is an independent and family-owned manufacturer of custom emergency vehicles with a hands-on approach to our customers. Accessibility to and involvement with upper management is a component of every customer relationship that we maintain. We answer to our customers and employees, not a board of directors. This offers added value to our customers and to Sourcewell Members. The experienced solutions our people offer result in a better understanding of our customers' needs and a strong repeat customer base.	*

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
45	Do your warranties cover all products, parts, and labor?	<p>Yes. Our warranties are as follows:</p> <p>3 year, 36,000 mile General Conversion Lifetime Structural Integrity Lifetime, 100,000 mile Electrical 10 year Paint 5 Year Paint Corrosion</p>	*
46	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	<p>Paint Corrosion Warranty has prorated coverage in the 4th and 5th year of the warranty timeframe.</p> <p>Components that are manufactured by other are covered by their representative warranties. We facilitate warranty coverage for our Dealers and Customers in these incidents.</p>	*
47	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Yes, upon request.	*

48	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	All states currently serviced by our Dealer Network are fully covered for all warranty needs. In the areas where we may not have a Dealer, we coordinate with a local chassis dealer as well as an emergency vehicle facility to support the customer with warranty repairs. In some areas, we have set up the customer as a warranty facility when they have the ability to do so. We offer service training at our location and also at the customers/service center location to support this opportunity.	*
49	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	<p>Some items that are manufactured by others are covered in both our 3 year general conversion and lifetime electrical warranties. Other items are covered by the respective manufacturer's warranty – some of which are for longer periods of time.</p> <p>We facilitate warranty coverage for our Dealers and Customers in these incidents.</p> <p>We have several lighting brands that offer 5 year and lifetime warranties on their products. All of which are extended to the end user customer.</p>	*
50	What are your proposed exchange and return programs and policies?	<p>Warranty Reimbursement procedure: The Dealer Service Center is contacted by the customer in the event of a warranty repair need. The Dealer contacts Rescue 1 (mfg.) for warranty authorization and diagnostic assistance for the reported issue.</p> <p>Warranty Pre-Approval Authorization: All warranty claims require a preapproved Warranty Authorization Number. This pre-approval process is required to first, inform Rescue 1 of a warranty problem, but second, and most importantly, to help diagnose and repair warranty service problems in the field. Payment of warranty claims requires an approved authorization number.</p> <p>Warranty Parts: If warranty parts are required and authorized, Rescue 1 will ship in stock replacement parts the day the request is made, provided the part is ordered before 2:00 p.m.. Parts that need to be ordered will be either shipped from the parts manufacturer or shipped out the same day they arrive to Rescue 1.</p> <p>Return of Defective Parts: When warranty parts are provided, defective parts must be returned to Rescue 1 within 30 days of the parts being shipped to be processed for credit.</p>	*
51	Describe any service contract options for the items included in your proposal.	<p>Preventative maintenance contracts are offered to our customers for annual inspections and chassis maintenance needs such as oil changes, fluid checks, transmission service and battery load testing for optimal performance.</p> <p>PL Custom is a Ford Authorized Warranty Center providing bumper to bumper support for our customers with the Ford Chassis.</p> <p>Several of our Dealers also provide Freightliner and International Chassis warranty to their customers allowing for minimal downtime when the vehicle is out of service for repair.</p>	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
52	Describe your payment terms and accepted payment methods.	Standard payment terms are payment upon delivery of the completed vehicle to the customer. Terms other than that are offered and negotiated on a per case basis. Discounts are offered for progress payments to the contract. We allow for check payments and wire transfer payments for completed vehicles.
53	Describe any leasing or financing options available for use by educational or governmental entities.	PL Custom does not offer in house leasing. We work closely with several municipal leasing companies and connect the customer directly to them for the opportunity. Recent Sourcewell networking events have opened up other opportunities in this area as well.
54	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Our Order Form is the first indication into the factory that this particular order will be a Sourcewell Member order (see upload). We also have a Sourcewell sales reporting form that is used for our quarterly reports to Sourcewell (see upload).
55	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	We currently do not use a P-card payment process for completed vehicles. We do offer this for smaller purchases for parts and service.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
56	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Detailed price lists for all base vehicles and associated options have been included in our proposal. The pricing reflects an MSRP for the vehicles and options and a 5% discount for Sourcewell contract pricing.
57	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	The pricing as submitted to Sourcewell is discounted from MSRP and is offered with a 5% discount on base vehicles and options.
58	Describe any quantity or volume discounts or rebate programs that you offer.	We offer multiple vehicle discounts for two or more vehicles ordered at the same time with the same spec and concurrent production. Discounts are also offered for progress payment opportunities.
59	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	We supply some items we would consider to be "pass thru" to the customer such as; extrication / rescue tools / supplies, communication radios, exterior graphics/lettering and chassis options. We also provide for the installation of customer supplied equipment such as extrication / rescue tools / supplies, communication radios, small tools, hand lights, and miscellaneous equipment items. Sourced goods or open market price items not on our line item price list are treated as special option pricing and are noted as such in the proposal and final contract pricing. These are subject to our standard cost plus labor pricing process. No additional charges are imposed on these items. We would allow these special options on Sourcewell contract vehicles.

60	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	<p>The selling and service Dealer may offer the end user customer additional technical installation opportunities for radios, computer systems, and other equipment. The selling dealer will also many times coordinate lettering and graphics on the completed vehicle.</p> <p>Assistance with State specific licensing inspections and motor vehicle registration processing's are offered by our Dealers as a convenience to the customer.</p>	*
61	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	<p>Most vehicles are picked up at our Manasquan, NJ facility and driven to the customer location after a final inspection here at the factory. The vehicle is normally picked up by the Dealer/salesperson, taken to their business location for any necessary state inspection and motor vehicle requirements. The vehicle is then delivered to the end user customer.</p> <p>PLCB and our dealers have relationships with several transport companies that will pick up the completed vehicle from our manufacturing location and deliver it to the dealer or customer as requested. The need for this increased during the pandemic lockdowns and has continued for some as a convenience to the customer.</p> <p>Our location in New Jersey allows for many options for our customers. We are close enough for an easy drive and centrally located for transport companies.</p>	*
62	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	We have not delivered any units to Alaska or Hawaii. Transportation, if needed, into Canada would be coordinated by our Dealer Representative and they would coordinate all border transport and customs requirements.	*
63	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Several of our dealers are from a greater distance from NJ and will arrange for a customer final inspection here at the plant, followed up by a transport company pick up of the completed vehicle. Our location in the tri-state area affords easy transportation to our location for the Dealer and the Customer. The vehicle transport is quoted specifically for each unit based on size and destination.	*

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
65	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	We require all orders utilizing the Sourcewell contract to be initially coded as a Sourcewell contract on the incoming order form. The pricing for the sale would then be reviewed, validated, and approved by the national sales manager. It would then be entered into our Access database. The data is also recorded into a tracking Excel spread sheet for all Sourcewell contracts. That information is then shared on a quarterly basis with Sourcewell.
66	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	The reporting form to Sourcewell notes the following information: 1. Member Name 2. Agency Under Member (ie. Fire Department of the Town that is the Member) 3. Member address 4. Member ID# 5. Contract number 6. Product ID 7. Date of contract 8. Projected month of delivery 9. Actual delivery date 10. Fee amount for Sourcewell 11. Contract price 12. Date of payment made to Sourcewell 13. Check # 14. Selling dealer Internally, we also track if the dealer was invoiced for the Sourcewell fee and whether we have received that fee.
67	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	PLCB will propose a \$ 1,000.00 per order administrative fee for Sourcewell. As noted, this will be included in the price as offered.

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *

We provide Special Vehicles Vehicles; Walk In and Walk Around models in both aluminum and stainless steel construction. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest.
