This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. **WARRANTY.** Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be

returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcwell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased

Table 3: Industry Recognition & Marketplace Success

Line Item	Question	Response *
19	Describe any relevant industry awards or recognition that your company has received in the past five years	While MES has been servicing the Public Safety Market for 22 years I am not aware of any industry awards or recognition that our company has received in the past five years. Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number

of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *
26	Sales force.	Municipal Emergency Services has a sales force of approximately 180 sales representatives in the field across the United States. This sales force is backed up by skilled inside regional office support throughout the USA to process sales orders, purchase orders with manufacturers and support customers.
27	Dealer network or other distribution methods.	MES is a distributor so we are our own distribution group. MES does not use a dealer network, as we have our own warehouses strategically placed around the USA.
28	Service force.	MES is an authorized distributor reseller and service provider for the manufactures we represent nationwide with the exception of a few areas. We do this all with our own company owned sales and service teams working closely with the manufactures we represent without any other network outsourcing. MES is an industry leader for both sales and service.
29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	Municipal Emergency Services has several ordering platforms. MES is a dealer so there would be no network outside of ourselves processing orders. All orders, regardless of the sales platform utilized will be marked that they are Sourcewell Contract orders within our internal systems to make quarterly reporting simplified. When a sales representative creates a quote, there is a "forced field" where the rep must select a contract (or none) but there is no default and the field cannot be bypassed. Once a quote is verified and approved by a member, the quote becomes the sales order, the sales order generates a purchase order to our supplier if not in stock in our facility, and then becomes an invoice- all a product of the original quote and does not have to be re-entered at every step. The ordering platforms offered are traditional orders, in which a customer contacts the sales representative or office with approval to order. We have several electronic platforms that can be utilized depending on the anticipated order size and frequency. We have a customizable web store in which the member would have a private website with approved items. We also have a dynamic quote system designed for smaller quantities of items in which the member can log in and order off of a quote with an extended expiration date.
30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	Municipal Emergency Services has 30+ customer service representatives to assist sales representatives and service technicians with order placing, job scheduling and followup. It is a company initiative that a response to an inquiry is made the same business day whenever possible and no later than the next business day.
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	MES has shown over the past two years with other Sourcewell contracts within the Public Safety sector our ability and willingness to provide the products and services to Sourcewell participating entities in the United States.
32	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	With one exception of Hurst rescue tools and products MES sells in Canada, MES will not be providing any coverage to Canada with this RFP for products. MES distribution agreements are almost all for the USA and that is where we have sales, service and customer service staff to maintain the market in the USA. MES covers 47 states so there are only a few areas in the USA MES does not have sales coverage. Maine, Wisconsin, and North Dakota.
33	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	Maine, Wisconsin, North Dakota, and Puerto Rico are not supported by MES sales and service. And MES has some coverage into Hawaii that may be reviewed on a case by case basis.
34	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	Maine, Wisconsin, North Dakota, and Puerto Rico are not supported by MES sales and service. And MES has some coverage into Hawaii that may be reviewed on a case by case basis. No other limits restrict MES sales and support of a contract like this one.
35	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	MES has sales and service coverage in Alaska and Hawaii. Normal increased costs due to shipping and or scheduling sales face to face and or service due to travel cost are the only issues that change how we normally continue to service these areas. We propose to quote whatever the shipping costs are for these areas for whatever shipment as well as anywhere else in the USA.

Table 7: Marketing Plan

Line Item	Question	Response *
36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	Municipal Emergency Services is very familiar with promoting contracts. As the largest supplier of First Responder Equipment in the US, we recognize the value of contracts and the time and money that can be saved by agencies not having to go to bid and still receive the items they specify as a solution for their entity from contracts. Additionally MES has implemented an outbound call center (Sales Development Team) that is tasked with reaching out to customers to make them aware of new products, services, etc. Promoting a new contract would fit nicely in this team's scope of work.
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Municipal Emergency Services has a marketing team that handles our print, digital and social media marketing campaigns. Content is regularly created and posted to our approximately 100,000 followers made up of customers and industry professionals.
38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	Promotion from Sourcewell in concert with MES would be very important to all its membership. Sourcewell brings significant municipal contract experience and coupled with MES's national relationships would be powerful. Our sales staff is well versed in contracts of this type and their importance so integration into our program would be seamless.
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Municipal Emergency Services has several e-procurement process options and order type and expected frequency would play a role in deciding which of these platforms are appropriate. As examples we have a normal e-commerce website in which members could be given a code to unlock discounts on specific items. We have a custom web store that specific department approved items can be populated and access for procurement granted to as many or few individuals as an agency deems appropriate. There is also dynamic quoting which is similar to the custom website but designed for a smaller number of items that are ordered in high volume. Of course we have the traditional method of ordering where a member can email and call the sales representative or office directly and place an order.

Table 8: Value-Added Attributes

Line Item	Question	Response *
40	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcwell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	As an example MES provides SCBA annual test service maintenance in and out of warranty. MES also performs training on SCBA set up of new certification packs, as well as many other general review of products. If specific requests for training are made outside of general review MES quotes those training on a case by case based on all of the products in need of training based on time and number of people needed to train which can vary.
41	Describe any technological advances that your proposed products or services offer.	MES has SOS stores which are Signature Online Stores which are unique in our industry and newer tech we can provide and can be built and configured to meet the needs of large customers as one example of services. MES represents the best PPE products in the industry that provides some of the most outstanding tech for first responders like programs that track turnout gear, and SCBA service, also protection advances in general that make turnout gear lighter and yet still keep firefighters safe under newer standards. The same programs are being used for our Law Enforcement Safety security and school customers.
42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	N/A
43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	N/A
44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	MES is not a (WMBE) so none of this applies. N/A
45	What unique attributes does your company, your products, or your services offer to Sourcwell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcwell participating entities?	MES has the largest and experienced sales force that are subject matter specialists in the equipment we sell and amazing service technicians to service many of those products. This is what sets MES apart from any other groups in the USA.

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
46	Do your warranties cover all products, parts, and labor?	The warranties provided by each manufacture being bid provides slightly different things. Most provide for coverage against mfg defects for a industry standard amount of time. Some cover parts and labor within warranty period however some do not cover labor.
47	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	All of the warranties for the companies MES is bidding shows coverage for normal wear and use. Abuse to a produce normally does have a provision to exclude coverage however MES works very closely with each mfg to work through any warranty issue with customers.
48	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Most mfg warranty do not cover travel time and mileage unless there is a gross failure of the product and in those cases we work with the mfg to work through the issue on a case by case issue which is rare.
49	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	MES will not be providing any coverage to Canada. MES distribution agreements are for the USA and that is where we have sales and service staff to maintain the market in the USA. There are only a few areas in the USA MES does not have sales and service coverage. We address this on a case by case basis as for the listed products we cover most of the USA Alaska and Hawaii. Maine, Wisconsin, North Dakota, and Puerto Rico are not supported by MES sales and service.
50	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	MES is the distributor of products made by manufacturers we represent. MES follows the Manufacturers warranty. Depending on the Manufacturer MES works on some of the products under warranty and out of warranty repairs. Some of them are sent back to the manufacturer in and out of warranty for service all based on MFG policy.
51	What are your proposed exchange and return programs and policies?	Goods received in damaged or defective condition will be repaired or replaced as outlined by the manufactures warranty and guidelines. If the product was damaged while in transport, upon a delivery receiver inspection within very short time the customer must make a claim and a report will need to be filed with the carrier and we will then work to resolve the replacement asap based on mfg lead times of parts or other needs. These evaluations are expected to be done within the days of delivery of each carrier or sooner by the customer. After that time MES and most manufacturers will not be held responsible for whatever issue is presented. MES does our best to always resolve issues presented.
52	Describe any service contract options for the items included in your proposal.	N/A for these type products.

Table 10: Payment Terms and Financing Options

Upon an award MES operation system would produce quotes, sales orders and invoices upon receiving orders as it relates to the contract.
56	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	MES limits P-Card and credit card purchases to \$10,000. There is no added fee to use this method.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcwell Price and Product Change Request Form.

Line Item	Question	Response *
57	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcwell discounted price) on all of the items that you want Sourcwell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	MES will upload MSRP, list or net price sheets depending on manufacturer as we list them as well as discounts off of those MSRP, list price or net price lists as the Sourcwell price.
58	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	MES will list the discount from MSRP, list or net price sheets depending on manufacturer as we list them for the Sourcwell proposed bid price.
59	Describe any quantity or volume discounts or rebate programs that you offer.	MES gives our best price based on the volume of business we do annually so any added volume discounts would only be when we have special pricing to list as Sourcwell indicated can be done on a case by case as they happen.
60	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	For any open market requested items or items not found on contract MES would quote those as open market at the same agency discounted pricing we do every day.
61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Special requests such as training on items not always listed, inside delivery, lift gates so that deliveries can be more easily offloaded or anything else, MES is willing to work with the membership to price out to take care of the needs of the agencies and make sure their goals are met. MES's goal is to be the first and last supplier and service provider agency members think of and go to because we know there are other options and we are here to make sure you get the best value which is not always the low price for the best job.
62	If freight, delivery, or shipping is an additional cost to the Sourcwell participating entity, describe in detail the complete freight, shipping, and delivery program.	Shipping for large, bulky or heavy items MES will quote as needed separately. From time to time MES may include shipping as added discount at no charge. When MES ships from our warehouses to get products to customers quickly shipping may be added and at other times drop shipments may have shipping included no charge due to shipping terms with manufacture's. Whatever the fairest and most equitable shipping situation MES will present to each order. MES will present these shipping terms at time of each quote. Hawaii and Alaska orders shipping will be quoted as stated per quote. MES has a very substantial account with Federal Express so MES's rates are very low considering how much volume we ship every year.
63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Shipping and or freight to Alaska or Hawaii are quoted per quote. MES is not interested in servicing Canada at this time. MES does no exporting unless shipped to a Federal/DOD location.
64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Unique distribution that MES offers is our many hubs through out the USA and if we do not have it in stock our relationships with our manufactures are second to none in the industry making MES the effective hammer in the market that we are today. Any special quicker shipping requests can be quoted upon request and MES will do our best to accommodate. MES has a very substantial account with Federal Express so MES's rates are very low considering how much volume we ship every year.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcwell. This process includes ensuring that Sourcwell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcwell. Provide sufficient detail to support your ability to report quarterly sales to Sourcwell as described in the Contract template.	Within the MES ordering system as mentioned reference ordering there is a forced tab that must be selected when entering a quote to select a contract vehicle. Sourcwell being one of those that needs to be selected when quoting for that contract if awarded and once selected the sales representative then ensures that the item quoted is getting the sourcwell discounted price per the contract price list or in the case that there is any added discount also as listed to determine if shipping would be included as sometimes is or if needs to be added based on the situation we need to quote shipping. Quarterly a report is pulled by Vice President of Finance and then reviewed by the contract administrator then once review is complete fees are calculated using excel with the formula set to the fee percentage due and then that report is then sent back to the Vice President of Finance for his department's review. Once approved the fee is sent to Sourcwell for the quarterly sales.
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Within the MES ordering system as mentioned reference ordering there is a forced tab that must be selected when entering a quote to select a contract vehicle. Once approved the fee is sent to Sourcwell for the quarterly sales.
68	Identify a proposed administrative fee that you will pay to Sourcwell for facilitating, managing, and promoting the Sourcwell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	MES proposes a 1% fee for all sales quarterly.
