3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be

In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be negotiated directly between the Participating Entity and the Supplier. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

Line Item	Question	Response *
9	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	Super Products was founded in 1972 and has been a stable manufacturer and employer in Southeast WI. We currently are owned by The Alamo Group, a 1.5 billion dollar publicly held company. Super Products is a lean manufacturing company that is committed to continued improvement. Engineering is a core value of the company. We strive to build the most environmentally efficient and operator friendly machines possible. As a member of The Alamo Group, sustainability programs are continually being focused on. We recently completed the addition of a solar power system to our roof that will supply 60% of the power we use from the sun.
10	What are your company's expectations in the event of an award?	Super Products has always been a leader in the private sector of the hydro vacuum and sewer cleaning industries. The Camel Combination Sewer Cleaner was originally standard with wastewater recycling. You could fill it once and work all day. We feel with a partnership with Sourcewell we can bring our industry lead technology and environmental efficient equipment to many new customers in the municipal sector. The municipal sector has a market off 800 Sewer cleaning machines and 300 Hydro Vac machines annually. If this partnership could produce a 10% increase in these markets we are looking at over 100 units a year.
11	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	We have uploaded our 2020 annual report. Please see uploaded documents.

Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	Super Product falls into both categories. We are mainly a manufacturer with a dealer sales network of 27 independent dealers in North America. We also employ a direct sales force of 12 sales representatives. Both our direct sales force and our dealer network are supported by 8 Super Products rental facilities that offer parts, service, and rentals. With 35 dealer locations that also offer sales, parts, and service, we offer one of the largest customer support networks in the industry.

Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcwell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	
25	Sales force.	Between Super Products and our dealer network, we have 100 sales representatives and 90 service technicians.	*
26	Dealer network or other distribution methods.	We have 27 dealers across North America and 35 locations. These locations have over 80 dealer sales representatives.	*
27	Service force.	Our service network is the best in the industry. Because we have a large presence in the private sector, we have Super Products service centers. We operate 8 factory service centers that are manned by Super Products employees. We have 35 dealer locations that have factory trained service technicians as well. We have held annual factory service schools for our dealers and some customers. Additionally, we employ three Super Products trained operators that travel to municipalities and do on-site training along with our dealer personnel.	*
28	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	We process parts orders several ways. We can process parts orders from any of our Super Products service centers, our factory, or any of our dealers. We have tested and are ready to release our eCommerce online ordering solution. Starting in November, all customers will be able to go online and see parts breakdowns of their units by S/N to find the parts they need. The eCommerce platform will give the user price and availability of the parts requested. With parts warehoused across the US, we can deliver parts anywhere in a day or possibly an hour.	*
29	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	The first call is handled by our dealer network. Their response time is real time when the call comes in. If the dealer is unable to fix the problem, then they call the Super Products call center, which is staffed with service technicians plus engineering support to solve the problem that day. We ship 90% of parts orders the same day. If there is a problem after 5 p.m. Central Time, our dealers and customers can receive support from our West Coast rental facility until 5 p.m. Pacific Time.	*
30	Describe your ability and willingness to provide your products and services to Sourcwell participating entities in the United States.	As stated, we have a first class dealer network and Super Products rental facilities that are willing and able to sell to all Sourcwell participants in the US.	*
31	Describe your ability and willingness to provide your products and services to Sourcwell participating entities in Canada.	We would love to do more business in Canada. We have not had many opportunities because of the exchange rate over the last three years. We are looking forward to more opportunities with Sourcwell as our partner.	*
32	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	We would plan to service all areas of the US and most of Canada. Northwest territories would be the only area we would have limited service.	*
33	Identify any Sourcwell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	Super Products and our dealers would service all participating entities. I do not see that our products would be utilized much in the non-profit category. We have sold to Stanford University in the past; therefore, educational would be a possibility.	*
34	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	Freight cost would be higher in these areas. Alaska has some seasonal restrictions that we would have to work around and have in the past.	*

Table 7: Marketing Plan

Line Item	Question	Response *
35	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	There are several ways that we will actively market and promote the Sourcewell contract to local government and non-profit end users. 1) Super Products Website: In the About Us section of our website, we list out the associations we are proud members of. We will include the digital Sourcewell logo with a hyperlink to the Sourcewell website. 2) Dealers Training: We will actively train all of our US dealers how to use and promote Sourcewell Contracts to their municipal customers when looking to purchase a new unit. 3) Brochure Promotion: On appropriate product /dealer collateral, we will include the use of the Sourcewell logo. 4) Displays at Trade Shows: We will display placers that we are a member of Sourcewell within our booths. 5) Social Media: We will take a more active role in promotion of Sourcewell Social Media by liking, commenting on, and sharing posts that are applicable to our business; as well as, promoting that we have a partnership with you. 6) Sourcewell Events: We will work to take a more active participation in any applicable Sourcewell events.
36	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	We are very active on social media (LinkedIn, Instagram, Facebook, Twitter, and YouTube) and it has helped grow our reach to prospective customers. We would continue to use this outlet to promote that we participate with Sourcewell for contracts. This will help to grow your reach to prospective customers as well who may not currently work within Sourcewell contracts. We have a tool we use for SEO. We would work to add meta data tags to enhance our product pages with the term Sourcewell to help mutually promote both our product and your contracts.
37	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	We will train all sales representatives, internal as well as dealer, on how to use Sourcewell contracts with pricing and overall process. We will also list all contract pricing on our internal dealer portal for easy access to our sales teams to reference for bids. Additionally, we will list the award of the contract on our website and in all of our digital and printed ads.
38	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Not applicable at this time.

All Super Products equipment is supplied with factory trained dealer or direct factory training. It is our policy that no unit is delivered without proper operator and maintenance training.
40	Describe any technological advances that your proposed products or services offer.	We offer the only full on board diagnostic system. If there is a failure, the system will alert the operator and walk them through the onboard system to make a repair. The software can be updated as new functions are released. 44	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	The Camel Combo Sewer Cleaner is the most fuel efficient unit on the market. This system takes water out of the sewer filters it onboard and reuses it to jet in order to save 8 to 10 thousand gallons of potable water a day. Safety is also a main focus of Super Products equipment. We have standard grease manifolds that are greased from ground level and audible and visual warnings when the debris tank or rear door is moving. We also offer an eject unloading system, the safest way to unload debris in the industry.

You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

We then run each unit at operating pressure and vacuum for an hour to confirm proper operation.
53	Describe any service standards or guarantees that apply to your services (policies, metrics, KPIs, etc.)	We use KPIs to track our manufacturing. Super Products is offering a 5% discount for all Sourcewell members. This will apply to all equipment purchased through this contract. We have uploaded a complete pricing document. All prices are quoted in USD.
59	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	We are offering a 5% discount from MSRP 2022 in USD.
60	Describe any quantity or volume discounts or rebate programs that you offer.	We have priced the volume discount into the Sourcewell price list for all members. The discount is 5% from MSRP.
61	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Super Products will supply a customer quote for any options or special requests as required. In the current market with material costs changing almost daily, on demand quoting must be done.
62	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Super Product does not include tax in proposed pricing. All training is included for the first time on delivery. Some of our dealers could have pre-delivery costs that would be passed on to your members. In most cases that can be done at the factory, so there is no extra charge.
63	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Freight is calculated from Milwaukee, WI to the destination city, \$2.80 per mile.
64	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Freight is calculated at the time of order for any location. Ocean freight and customs charges would have to be calculated along with any taxes or duties at the current rate at the time of the order. Canada pricing is in USD.
65	Describe any unique distribution and/or delivery methods or options offered in your proposal.	We do not offer any unique delivery options for our equipment. It must be driven or loaded on a ship due to size.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
67	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	We use Salesforce for tracing all sales. We track them from what lead source they came from and how they were closed. RFP, HGAC, independent bid and sales from the demo fleet. We would use this same CMR program to track Sourcewell opportunities.
68	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	We have worked with HGAC for years and use an audit process to make sure their fees are paid and kept up to date. We have a contract administrator that is in charge of these types of contracts.
69	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	We have included a 1.5% administrative fee for the help we are anticipating from working with Sourcewell. This fee is on all of our supplied equipment except the chassis that are a pass through for us.

Table 15: Industry Specific Questions

Line Item	Question	Response *
78	Describe any product or equipment features that improve operator safety.	Eject unloading scrapes stuck on material out of the debris body so the operator does not have to dig it out. This feature is available on our Camel and Mud Dog units. We also have a hose reel that keeps the operator between the light on the front of the unit to protect them from passing traffic. Additionally, units have audible and visual warnings when the tailgate and body are in motion.
79	Describe any product or equipment innovations that increase uptime and operator productivity.	Wastewater recycling uses water vacuumed into the debris body to save potable water and increase production. The eject unloading system can be used to dewater the load before going to the dump site. This helps keep dump sites cleaner and free of water that operators could slip and fall on.

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.
3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. 4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.

Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
11. Proposer its employees, agents, and subcontractors are not:
